DEGREES AND AWARDS CONFERRED, 1845-1970,

BY THE UNIVERSITY OF MICHIGAN

The University of Michigan  
Office of the Registrar  
January 1971

## FOREWORD

This is the second edition of the enumeration of degrees conferred in course by The University of Michigan. These two editions are the sole publications devoted to this purpose. The many studies, histories and reviews published concerning the University and its students, have not included any comprehensive information relative to the degrees conferred or their characteristics.

Criticism and corrections brought to our attention have been incorporated in this second publication. Additional information and study have also refined data presented earlier. Several summaries have been expanded or added to complement other tabular presentation.

The interpretation of the records and data was treated in a consistent manner. A degree in course, includes the degree awarded after the completion of its requirements and the degree awarded upon examination. Any degree awarded nunc pro tunc appears in the year actually awarded and not the date stated on the degree. Prior to July 1, 1915 the calendar year was used for the reporting period. After that date, the reporting period conforms to the fiscal year, July 1 to June 30.

Data for recent years in this report can be supplemented by materials included in the annual report for this Office, submitted to and published by Health, Education, and Welfare, and materials prepared and located in the Statistical Service of this Office. Generally this information concerns the degrees conferred in unique fields and recipients.

Considerable encouragement and suggestions have been provided by interested people to update and improve the original publication. Acknowledgment must be made to Miss Vivian Day who drew upon her experience and knowledge to edit this information and to clarify questionable details.
