

UNIVERSITY OF MICHIGAN OFFICIAL PUBLICATION

VOL. 44 No. 50

FEBRUARY 11, 1943

Report of The Registrar of the University 1941-1942

Reprinted from the President's Report
for 1941-42, University of Michigan

Entered as second-class matter at the Post Office at Ann Arbor,
Michigan. Issued triweekly by the University of Michigan.

THE REGISTRAR OF THE UNIVERSITY

To the President of the University:

SIR—The report submitted herewith covers the activities of the Registrar's Office for 1941-42.

Changes due to the war situation have been reflected in our work as in all University departments and offices. Specifically, these show in the shift in personnel, the increase in transcripts of credit issued, and the additional clerical work brought about by the revised three-term calendar adopted by the Regents, providing for both a summer term and summer session.

Although the following resolution, recommended by the Conference of Deans and adopted by the Board of Regents, December 19, 1941, concerns this office only insofar as the part our recording division plays in the matter of keeping of records and issuing of statements of credit, it deserves mention in a résumé of the actions taken during the year in connection with student enrollment in the armed forces: "*Resolved*, That a student who enters the armed forces of the United States during any session (semester or summer session) and as a consequence withdraws from the University should as a general principle be granted prorated or equitable credit for work completed after such examinations as may be determined upon by the faculty of the school or college in which the student is enrolled, due regard being taken for special circumstances in each case."

Personnel.—In line with many other changes during unsettled times there were a number of resignations during the year and subsequent new appointments. In the recording division in University Hall, Messrs. Robert A. Duval and William M. Pendorf, who left to accept positions outside the University, were succeeded by Miss Rosamond E. Haas from the Department of Engineering Research, and Mrs. Stella M. Pagan. Mrs. Irene T. Hamm was appointed to fill the position left vacant by the resignation of Miss Fadelma Hoffstetter; and Miss Clara Lee Keller was transferred from the University Hospital to take the place of Miss Rose D. Shear, who moved from Ann Arbor. Miss Keller left later in the year for work in a defense factory and was replaced by Mrs. Jean E. Thompson. Miss Beatrice A. Parsons was secured at the beginning of the school year to assist in handling records because that division was assigned additional records of the newly created School of Public Health.

Mrs. Esther G. Heyns, who transferred from the University Hospital staff as Assistant in Admissions, was with us only a few months when she left to be with her husband, who is in the Army. Mrs. M. Lyle Baker was appointed in her place. Mrs. Angeline Spoelhof, Assistant to the Registrar, also resigned to join her husband who is engaged in war work in Washington, D. C., and the position was filled by Miss Barbara N. McIntyre of the Office of the Dean of Women. Mrs. Estelle P. Kutsche was secured to fill the vacancy in the statistical service caused by the resignation of Miss Martha E. Peters, who left Ann Arbor.

General correspondence.—As the response to the thousands of requests each year for “a catalog of the University” and other information forms, in a large per cent of cases the University’s first contact with prospective students, it is important that each letter be answered promptly and graciously. The Secretarial Service and mailing department have co-operated splendidly with us in effecting this service. The present volume of outgoing official publications has, however, outgrown the original mailing facilities. It is hoped that as soon as possible the accommodations of the mailing room will be expanded to expedite further the distribution of our publications. There should also be provided a central receiving room for all official publications of the University. At the present time such bulletins are delivered by the printers in a somewhat haphazard manner and it is very difficult to keep any sort of a satisfactory record of the receipt and distribution of bulletins. The receiving room of the Printing Department would seem to be a logical place to be designated as the central receiving office for all official publications.

Entrance examinations.—Seventy-nine applicants for admission to the freshman class wrote entrance examinations during the three examination periods in 1941–42, compared to thirty-seven the previous year. The faculty members, appointed by department heads to prepare the questions and grade the papers, have been highly co-operative and have shown a genuine interest in the high-school preparation and University admission of the individual applicants. This has been helpful as most of these applications presented borderline case problems.

Principal-Freshman Conference.—The fifteenth annual Principal-Freshman Conference on November 13, 1941, brought to Ann Arbor 180 superintendents, principals, and teachers from ninety-three Michigan high schools, three in Ohio, and two in Illinois to interview their 741 graduates registered in the current freshman class of the University. For the fourth consecutive year the principals met their students in the Rackham Building, the entire second floor being turned over to the morning interviews. The freshman instructors were requested to avoid scheduling examinations for that morning, so that their students having classes at the time assigned for their interviews might be excused for part of the class hour. In the lecture hall on the main floor thirteen Michigan junior college deans and instructors met with 175 of their former students registered at the University for the first time.

The out-of-town visitors were joined for luncheon at the Michigan League by nearly one hundred members of the University faculty and staff whose duties bring them in contact with new students.

The general theme of the program following the luncheon, in charge of the Bureau of Co-operation with Educational Institutions with assistance of the Committee on College Relations of the Michigan Secondary School Association, was the articulation of secondary-school and college work. The group was divided into three sections, one in chemistry, one in English, and one in foreign languages. Each discussion was led by a faculty member, assisted by two high-school and two University representatives. The meetings

were well attended and created an interest among the secondary-school men and college and University instructors. Detailed reports of the conferences were published. In addition to those received by the Michigan high-school principals in the *Weekly Calendar*, one thousand copies were distributed to those in attendance that day and to the members attending the annual meeting of the Michigan High School Principals' Association in Lansing in December.

The Principal-Freshman Conference has long since passed the experimental stage. It has grown to be a definite part of the work of the Registrar's Office, and its triple benefit is no longer questioned. The principal appreciates learning first hand of any difficulties encountered by his graduates, the University in turn is appreciative of the information it gains which will help in freshman orientation and instruction; and many a new student is grateful for the opportunity offered him to reveal, before it is too late, a difficulty which he may not previously have discussed.

RECORDS DIVISION

Studies.—During the year 1941-42 brief investigations and reports have been made in the following problems:

1. An analysis of the academic records of Literary College graduates of June, 1940.
2. An analysis of the academic records of students concentrating in honors in liberal arts who received their degrees in 1940.
3. A partial analysis of the academic records of candidates for degrees in the College of Literature, Science, and the Arts, June, 1941.
4. A partial analysis of the academic records of students out of residence one or more semesters. This report has been in progress for two years but due to constantly shifting personnel has not been completed. The Division hopes that it can be completed during the coming year.
5. At the request of the Deans' Conference, a preliminary study of, and report on, procedures and practices of the nine University of Michigan offices issuing transcripts was presented. This report clearly indicated a lack of uniformity in policies and procedures.

Registration.—By June 4, 1942, each student in the six units whose records are handled in this office, had been mailed a blueprint of his record with the revised issue of the bulletin, *Directions for Registration and Classification*. There were 4,932 blueprints sent to the students.

At the request of the President's Office, the Registrar's Office has served as the contact point between the University and the local draft board in handling the draft registration of University students and faculty, with the county rationing officials in the issuance of sugar ration books, and in other similar projects.

In addition to registration for the usual two semesters and summer session, the summer term registration was held for the first time. This was conducted along the same lines as registration at other times.

General procedure in record keeping.—The School of Public Health, which formally accepted students as a new unit of the University in the first semester of 1941–42, requested that the Registrar's Office keep its records, check its students for graduation, and serve this unit in the customary services of a recording and graduating office. The statistical service added the School of Public Health to its statistical card procedures in handling grades. In addition, the statistical service added the School of Music and the College of Architecture and Design to its procedures in answer to requests from the faculties of these units.

Continuing the usual procedure, all graduates since Commencement, 1941, have their records photostated on heavy-weight card stock in order to facilitate the work of the transcript department. The Alumni Catalog Office continues to store the linen sheets on which the original permanent records of students are kept while they are in school. The records of nongraduating students who have been out of residence from the summer session of 1938 or earlier were also placed on heavy-weight photostats as an aid in the duplication of records.

In order to simplify procedures, agreements have been reached with the various faculties during the year that: (1) A uniform permanent-record card be used by all six units which would enable the student to have the same record card as he shifted from one unit to another of the University, instead of having one card for each record, as in the past. (2) A uniform or common election card for the various schools has been devised and accepted by the various units. This will simplify problems in this area, it is hoped.

Degree programs.—Students in the College of Literature, Science, and the Arts are admitted to the various fields of concentration as soon as they have earned at least sixty hours of credit with an average grade of C or better on all work elected and have satisfied the requirement in English composition.

For the second semester, 1941–42, the number of students concentrating in the various fields in the College of Literature, Science, and the Arts is shown in the table below. Students with twenty-four or more hours on the degree program are considered of senior standing. The increase or decrease indicated represents the changes that have occurred between the second semester of the preceding year and this year.

Senior work.—Graduation requirements for students in the College of Literature, Science, and the Arts, the School of Education, the School of Music, and the School of Public Health were checked by two members of the staff. The degrees granted by the College of Literature, Science, and the Arts according to fields of concentration from July 1, 1941, to May 30, 1942, inclusive, are shown below. A tabulation of degrees granted by other units, served by this office, are on page 33.

NUMBER OF STUDENTS CONCENTRATING IN THE VARIOUS FIELDS IN THE COLLEGE OF LITERATURE, SCIENCE, AND THE ARTS, SECOND SEMESTER, 1941-42; NUMBER OF GRADUATES BY FIELDS FROM JULY 1, 1941, TO MAY 30, 1942

Transcripts.—The table below shows the number of transcripts issued, and the amount of transcript fees received each month for the year beginning July 1, 1941, and ending June 30, 1942:

<i>Month</i>	<i>Transcripts</i>	<i>Amount Received</i>	<i>Month</i>	<i>Transcripts</i>	<i>Amount Received</i>
July	1,019	\$130.00	January	905	\$283.00
August	1,115	151.00	February	1,565	303.00
September	1,569	157.00	March	995	270.00
October	709	133.00	April	921	221.00
November	415	145.00	May	1,058	277.00
December	545	206.00	June	1,347	208.00
Total number of transcripts.....			12,163		
Total amount received.....			\$2,484.00		

Many factors connected with the war, the industrial pickup and other current changes of the day have brought about an increase of 45 per cent in the number of transcripts issued in the last two years. The number of transcripts reported does not include complimentary copies given to seniors at graduation nor the usual blueprints sent to the College of Architecture and Design, the Schools of Education, Forestry, Music, and Public Health at the end of each semester, nor the blueprints sent to advisers in different fields.

ADMISSIONS DIVISION

Admission requirements.—Students entering from high school were granted admission under the requirements set up in December, 1934. The College of Architecture and Design has made a change in the entrance requirements for the curriculum in decorative design to become effective in the fall of 1944. It will be necessary for the student to offer one sequence from Group C which must include solid geometry. Under the present requirements, a sequence in this group is optional.

In September, 1941, 107 students entered the College of Literature, Science, and the Arts under the requirements set up in 1934 who could not have been granted admission under the previous requirements.

Five of these students, or 5 per cent of the group, withdrew during the first semester in comparison with 2.5 per cent of the entire freshman class; 2.1 (2.0 being a C average) was the grade-point average of the group, and 2.4 the grade-point average of the entire freshman class; nine students, or 8.4 per cent of the group, earned all A and B grades, and 188, or 10.6 per cent, of the entire freshman class; twenty-three students, or 21.5 per cent, of the group were placed on probation as compared with 14.7 per cent of the entire freshman class; twelve students, or 11.2 per cent, of the group received "home" action as compared with 4.7 per cent of the entire freshman class.

In the psychological test given to all freshmen during Orientation Period this group varied from the normal distribution of 25 per cent in each quarter as follows: top quarter, 20 per cent; second quarter, 24 per cent; third quarter, 24 per cent; and bottom quarter, 32 per cent.

The policy of recommending correspondence study courses offered by the Supervised Correspondence Study unit of the University has been continued for students whose preparation in certain fundamental fields has appeared weak, or when one-half or one additional unit was required for entrance.

Prognostic rating.—On the acceptance of each student for admission a prediction, based on the information contained in the application blank, of the probable degree of his success in the University is made. The various officers interested in personnel work with the freshmen use this rating as well as the results of the scholastic-aptitude test, the English content examination, and the reading test given to all freshmen their first week on the campus. The results of these tests are not used in making the prediction as they are not available when the student is accepted for admission.

Previously, in predicting the success of the students at the University, the freshman class has been divided into three groups as follows: the A-1 group, which should do superior work; the A-2 group, which should do at least average work; and the A-3 group, which may have some scholastic difficulty. This year the three groups were broken up so that there are now seven groups in the prediction setup. The table which follows gives the results of the predictions for the freshman class, including freshmen in all colleges and divisions who completed the work of the first semester, with the exception of the dental hygienists.

GROUP	NO. OF STUDENTS	PER CENT	PER CENT OF GRADES					
			A	B	C	D	E	INC.
A-1	186	11	31.6	15.7	5.2	1.3	0.4	2.9
A-1-	130	8	11.6	11.5	5.8	1.1	2.7	6.8
A-2+	272	16	22.3	19.3	14.9	8.1	3.9	16.2
A-2	516	30	21.5	30.6	34.1	26.5	21.1	23.7
A-2-	197	11	4.7	8.8	13.2	16.9	19.6	14.0
A-3+	149	9	3.4	5.8	9.5	16.6	17.6	6.8
A-3	267	15	5.0	8.3	17.4	29.5	34.6	29.5

Honor awards.—The following award was made:

This is to certify that, among the groups of students entering the University of Michigan in the year 1941-42, from the high schools of the state of Michigan, the group from the Central High School, Lansing, consisting of the following freshmen, James Robert Burton, Harriet Evelyn Fishel, Edward Roland Hutchinson, Karl Frederick Krauss, Jr., Jean Elizabeth Loree, and James White McGuffey, by its combined record has received first honors for excellence in scholarship during the first semester of resident study.

This was the fourth year for the award. The schools receiving it for the previous three years are listed in the Registrar's report for 1940-41.

Freshman grades.—A study of freshman grades for September entrants shows the following:

SCHOOLS AND COLLEGES	NO. OF STUDENTS GRADED	FIRST SEMESTER, 1941-42							GRADE POINT AVERAGE*	
		SEMESTER HOURS								
		A	B	C	D	E	IX	TOTAL

*The scale used in figuring averages follows: A—4 points; B—3 points; C—2 points; D—1 point; E—0 points; IX—disregarded.

Withdrawals.—The following table is an analysis of freshman withdrawals by cause and date* from September, 1941, to June, 1942:

CAUSE OF WITHDRAWAL	L., S., & A.	Engineering	Pharmacy	Dent. Hygiene	Arch. & Design	Education	Nursing	Music	Duplicates	Total
1. Home action:										
February—left.....	23	9								32
February—immediately reinstated†.....	45	6								51
May—left.....	56	35						2		93
May—immediately reinstated.....	22	2								24
2. Not to return without the consent of the Administrative Board:										
February—left.....	2									2
May—left.....	13									13
Other times.....	1									1
3. Ill health.....	24	6			2			1		33
4. Financial difficulties.....	1									1
5. Attending school elsewhere.....	2	1								3
6. Family illness and need.....		2			1					3
7. Employment.....	8	2		1						11
8. Armed forces.....	3				4					7
9. Not specified—unsatisfactory record during or less than "C" average at the close of the semester.....	22	6			1	2				31
10. Not specified—"C" or better average for the final semester, no grades, or incompletes only.....	21	9		1	1	1		3		36
11. Transfer within the University‡.....	11	3	1		2			1		18
Total.....	254	81	1	2	11	3		7		359
Duplicates§.....	29	4							1	34
Net Total.....	225	77	1	2	11	3		7	1	325

* Withdrawals in May which were not accompanied by a "Home" or "N.T.R." action have been disregarded. Students who withdrew during the first semester and re-entered the same school the second semester have also been omitted.

† In February 45 freshmen in the College of Literature, Science, and the Arts and 6 freshmen in the College of Engineering received a "Home" action because of poor scholarship. For certain reasons, they were allowed to enroll for the second semester with the understanding that, unless they were able to make a "C" average and no "E" grades during the semester, they would be required to withdraw permanently in May. The following shows the outcome:

	L., S., and A.	Engineering
Withdrew during the semester.....	4	2
Warned.....		2
Probation continued.....	17	
N.T.R.....	2	
Home.....	22	3
Total.....	45	6

‡ Includes February transfers as follows:

L.S.A., Eng.....	8	Pharm., L.S.A.....	1
L.S.A., Arch. & Des.....	1	Arch. & Des., L.S.A.....	2
L.S.A., Music.....	2	Music, L.S.A.....	1
Eng., L.S.A.....	3		

§ The following combined causes for withdrawal are included: N.T.R.—Ill health, 1 L.S.A. Transfer from Eng. to L.S.A. and "Home" from L.S.A. immediately reinstated in May.

STATISTICAL SERVICE

Enrollment.—University of Michigan registrations in 1941–42 show a continued decrease from the peak enrollment established in 1939–40. Similar losses were experienced in other educational institutions, especially in publicly controlled universities, throughout the country.

The November 1, 1941, enrollment figures and changes from the 1940 figures follow:

<i>Group</i>	<i>Students</i>	<i>Per Cent Change</i>
Regular session	11,266	— 6.1
1941 summer session	5,055	—11.0
Net total, regular and summer	14,678	— 6.7
Extension (credit courses).....	1,073	— 6.5
Net total, entire University	15,686	— 6.6

This enrollment survey, taken early in the first semester, proved to be a reliable indication of the final regular session enrollment for the year, which was also 6.1 per cent lower than last year. The summer session enrollment, which reached its high point in 1938, was the lowest it has been during the past five years. The average age of the summer group is always higher than for the regular session, and it is to be expected that the effects of the Selective Service Act and the attractive industrial opportunities because of the war would be more noticeable in this group than in the other groups. Extension enrollments in credit courses continued to decline so that the number of individuals participating in the credit courses offered by the Extension Service during the year showed a decrease of 24 per cent from the previous year's registration. Noncredit extension registrations increased from 4,566 in 1940-41 to 6,979 in 1941-42, or a gain of 53 per cent.

According to "Statistics of Attendance in American Universities and Colleges," compiled annually by President Walters of the University of Cincinnati, 57 universities under public control showed a decrease of 16.2 per cent in November 1, 1941, full-time enrollment from November 1, 1940.

The University of Michigan College of Literature, Science, and the Arts gained 1.1 per cent. This was a slightly better experience than was general throughout the United States where, according to Mr. Walters' report, 429 independent colleges of arts and sciences had an average enrollment of 3.6 per cent below that for last year. Only 3 institutions under public control reported increases.

The College of Engineering, the Medical School, the School of Dentistry, and the School of Music experienced slight gains in enrollment for the regular session. The deferment from military duty of engineering, medical, and dental students is probably largely responsible for the enrollment condition in the first three units. Heavy losses were evident in the Rackham School of Graduate Studies, the Law School, the School of Business Administration, and the School of Forestry and Conservation, where students were within the age limits prescribed for military service or were fitted for work in defense organizations. Contrary to the general stationary or slightly increasing enrollments in schools of nursing throughout the country, the School of Nursing showed a decrease of 5.5 per cent.

Further comparison of experience in other educational institutions throughout the United States is made possible through tables published in the *Journal of the American Association of Collegiate Registrars*. In 1940-41, the University of Michigan enrollments for the regular session were compared with those for 23 member universities of the association, having enrollments of 5,000 or more students and receiving at least some state support. According to the 1941-42 report the enrollments for two of these institutions fell below the 5,000 mark selected; one did not report.

A comparison of the enrollments for the 22 universities sending in figures shows a decrease for the regular session of 7.7 per cent. This corresponds to the University of Michigan loss of 6.1 per cent. The smallest loss was 2.3 per cent, experienced by a university with approximately 7,300 registration; the largest loss was 15.4 per cent, for an institution of 7,400 enrollments. Only 6 of the 22 partly state-supported universities selected had enrollments over 10,000. These showed a combined loss of 8.3 per cent, compared with the University of Michigan, 6.1 per cent. During these unsettled times, it is encouraging to note that the University's regular session enrollment experience compares so favorably with that of similar institutions throughout the states.

In 1941-42, 97.5 per cent of our students lived in the United States, practically the same proportion as in 1940-41. All states in the Union and all but one county in Michigan were represented. Sectional distributions varied only slightly from last year's experience. The North Atlantic group remained the same proportion of our enrollment. The South Atlantic, North Central, and South Central groups each formed a slightly larger percentage this year, and the Western a somewhat smaller.

The state of war in a large part of the world and entrance of the United States into the conflict in December of 1941 make a study of our enrollment from outside continental United States of more than usual interest. About 2.5 per cent of all of our 1941-42 students came from homes outside the states. These have been arranged in eight sectional groups and listed according to the number of representatives as follows: The number of Latin Americans more than doubled, with 109 this year compared with 47 last, a gain of 132 per cent. During the summer, the Eighth International Conference of New Education Fellowship was held in Ann Arbor and an institute for the extensive study of the English language by mature scholars and investigators from Latin America was made possible under a grant from the Rockefeller Foundation. This attracted many educators and professional men and women from South America. Ecuador, which had not been represented the year before, sent 29 students; Venezuela, 19 or 11 more than the previous year; Chile, 11 or 10 more than last year; other South American countries sent approximately the same number as in 1940-41.

The Far Eastern group decreased from 104 to 80, or 23 per cent. The United States dependencies registered 7 more students than last year, making the total this year 81. In this group, Japan sent us 7 students last year and was not represented this. Alaska and Canada sent 78 in 1941-42. In 1940-41 Alaska was not represented, and Canada sent 90. Near Eastern countries sent us 47 students, compared with 65 last year, most of the number coming from Turkey. From the British Isles, Iceland, Europe, and the United Soviet Socialist Republics, the University received 14 students, or 6 less than were registered the previous year. Australia and New Zealand were not represented in 1940-41. New Zealand sent us 4 students this year. Africa sent us only 3 students in 1941-42, compared with 7 the previous year.

The total number of students enrolled from outside continental United States was 416. Separated from their homelands as these students are, with communication irregular and unsatisfactory in many cases, and funds slow in coming or cut off entirely, this 2.5 per cent of our enrollment is of unusual interest and importance to us at this time.

STUDENT STATISTICS

Withdrawals.—The withdrawal table appearing in this report includes departures at any time during the year, except those of students who withdrew during the first semester and re-entered the same school for the second semester. Students sent home in February but immediately reinstated, students who were requested in February not to return without the consent of the Administrative Board but were immediately reinstated, and all students receiving May "Home" or "N.T.R." actions have also been included in the table, even though they were registered in the University during the entire year.

The total number of students leaving the University between September, 1941, and Commencement, 1942, and not re-entering during the same year was 1,981, 16.4 per cent of our enrollment, compared with 1,760, 13.7 per cent of the 1940-41 enrollment. These figures indicate those students who actually left the University. This increase is explained to some extent by the gain in the number of students who left to enter the armed forces, the increased number of February graduations, and the additional number who left school here to enter elsewhere. Financial problems appear to be on the wane, since a much smaller number this year than last specified that reason for withdrawal. Increased industrial activity made it possible for those students

who cared to do so to work during the summer and save enough so that employment during their period of University study was unnecessary in many cases.

In February, 392 students, or 3.5 per cent of the first-semester enrollment, were asked to leave the University because of poor scholarship. This compares with 407, or 3.4 per cent of the first-semester enrollment last year. The total number of different students asked to leave in May, 1942, because of poor scholarship was 413, 4.0 per cent of the second-semester registrations, compared with 512, or 4.5 per cent of the second-semester enrollment, in June, 1941. It would seem that, for the second semester of the year at least, those students who remained took their work more seriously and finished their period of study with somewhat more satisfactory results than was the case last year.

Those men and women who leave the University after the period for refunding a portion of the fees has expired and those withdrawing in February without home actions are not required to file a withdrawal card, so that the reasons for these departures are not known. It is also understood that, in some instances, students may give incomplete information or disguise the real reasons for withdrawal. Because of these facts, the withdrawal figures should be regarded only as a general indication of the situation concerning student separations and their causes.

*Withdrawals at the close of the second semester which were not accompanied by a "Home" or "N.T.R." action have been disregarded. Students who withdrew during the first semester and re-entered the same school for the second semester have also been omitted.

†These students did not withdraw from the University in February.

‡Students immediately reinstated after a February "Home" or "N.T.R." action received the subsequent action shown on the following page.

ANALYSIS OF WITHDRAWALS BY CAUSE—REGULAR SESSION 1941-42 (Cont.)

Outcome of February Home and N.T.R. reinstatements	Feb.—Home, immediately reinstated		Feb.—N.T.R., immediately reinstated
	L.S.,&A.	Engineering	L.,S.,&A.
Withdrawal during the semester.....	7	5	5
Action deferred in May.....	1
Warned in May.....	1	12	..
Probation continued in May.....	43	1	4
N.T.R.—May.....	10	..	4
Home—during the semester.....	2
May.....	49	30	6
Probation raised in May.....	6	10	5
Total.....	118	58	25

In addition to the duplication between immediate reinstatement and subsequent withdrawals or faculty action, the following combined reasons were specified:

	L., S., & A.	Eng.	Law	Arch. & Des.	Ed.	Bus. Ad.	Nursing	Grad.	Duplicates
N.T.R. action and ill health.....	2
N.T.R. action and attending school elsewhere.....	2
N.T.R. action and employment.....	1
N.T.R. action and transfer within the University.....	(1)	(1)	1
N.T.R. action and armed forces.....	2
Home action and ill health.....	1
Home action and armed forces.....	2	4	2
Home action and transfer within the University.....	(1)	(1)	..	1	1
Graduation transfer and armed forces.....	(2)	(2)	2
Graduation and armed forces.....	1
Graduation and not specified, better than "C".....	(1)	(1)	..	(1)	(1)	2
Transfer within the University and employment.....	(1)	(1)	1
Two causes for withdrawal.....	11	4	2	1	7

February transfers shown under 11 and 12 on the preceding page were as follows:

LSA, Eng.	9	Eng., For. & Con.	1	Bus.Ad.-Law, Law	1
LSA, Arch. & Des.	2	Eng., Grad.	5	For. & Con., LSA	1
LSA, Ed.	13	Law, LSA	1	For. & Con., Grad.	1

LSA-Grad., Grad.	1	Arch. & Des., Ed.	3	Grad., For. & Con.	1
Eng., LSA	11	Ed., LSA	5	Grad., Pub. Health	2
		Ed., Pub. Health	2		

Degrees.—The total degrees in courses granted between Commencement, 1941, and Commencement, 1942, was 3,144, or 20.4 per cent of the enrollment for that period. This corresponds to 3,386 in 1940-41, 20.5 per cent

of the enrollment, approximately the same ratio. The 1941-42 relation of degrees granted to number enrolled shows larger percentages than in 1940-41, ranging from 1.0 to 6.7 change for Literature, Science, and the Arts, Law, Pharmacy, Education, Business Administration, and Music, and smaller, ranging from .2 to 4.4 for Engineering, Medicine, Dentistry, Architecture and Design, Forestry and Conservation, and Graduate. The School of Public Health was in operation in 1941-42 but not in 1940-41. Diplomas in Nursing were granted to 28.1 per cent of those enrolled in 1941-42 and 19.8 per cent of those registered in 1940-41.

Honorary degrees	14	0	14	14	0	14	0

Faculty statistics.—Teaching faculty for the regular session increased 37 over the number for the previous year, with 7 more professors, 3 less associate professors, 11 more assistant professors, and 22 more instructors. This increase in staff covers the same period as that of the enrollment decrease of 791 students, or 6.1 per cent. For the summer session of 1941, there were 40 more faculty members of the rank of instructor or higher than in 1940; the enrollment was 625 students fewer, or 11.0 per cent. Twenty-eight more men and 9 more women were added to the regular session staff, 20 more men and 20 more women to the summer teaching staff, and 38 more men and 15 more women to the Extension Service instructional staff.

For the emeritus group, figures appearing in this report show the number at the beginning of the year 1941-42. Changes from the previous year were occasioned by the loss, through death on June 26, 1941, of William Henry Butts, Professor of Mathematics. New appointments to the group were: Fielding Harris Yost, Professor of the Theory and Practice of Athletics; Emil Lorch, Professor of Architecture; Harrison McAllister Randall, Professor of Physics and Henry Russel Lecturer; Neil Hooker Williams, Professor of Physics; Clarence Thomas Johnston, Professor of Geodesy and Surveying; and Calvin Olin Davis, Professor of Education.

FACULTY STATISTICS
1941-42
UNIVERSITY STAFF BY RANKS

1. OFFICERS AND FACULTY EMERITUS:

Dean Emeritus of Women	1
Dean Emeritus of the College of Engineering	1
Dean Emeritus of the Colleges of Engineering and Architecture	1
Dean Emeritus of the Medical School	1
Dean Emeritus of the Law School	1
Dean Emeritus of the School of Education	1

* Other faculty teaching graduate courses are included in the other Schools and Colleges.

† The following duplicates have been deducted from these totals: Professors, L., S., & A. and Ed., 2; L., S., & A. and Grad., 1; L., S., & A. and Bus. Ad., 1; Med. and Pub. Health, 1; Ed. and Phys. Ed., 1; Associate Professors, L., S., & A. and Ed., 1; L., S., & A. and Bus. Ad., 1; Assistant Professors, L., S., & A. and Bus. Ad., 1; Ed. and Phys. Ed., 1; Dent. and Pub. Health, 1; Instructors, Ed. and Phys. Ed., 1.

The Honors Convocation.—The nineteenth annual Honors Convocation was held on Friday, April 24, 1942, at eleven o'clock, in Hill Auditorium. Chauncey Samuel Boucher, A.B., A.M., Ph.D., LL.D., Chancellor of the University of Nebraska, was the principal speaker. Eight hundred and thirty-one students received honors. This corresponds to 824 in 1940-41. Twenty-three fewer seniors, 8 more juniors, 1 more sophomore, 32 more freshmen, 9 fewer graduate recipients of fellowships and scholarships, 14 fewer recipients of other graduate honors, and 16 fewer recipients of special scholarship awards received recognition this year than last. The following table shows the number of students honored in each group:

HONORS CONVOCATION
1942

	MEN	WOMEN	TOTAL
Seniors with averages of at least "B" and holding rank in the highest 10 per cent of the class	139	64	203
Students with averages of at least ½ "A" and ½ "B"			
Juniors	56	25	81
Sophomores	70	23	93
Freshmen	88	52	140
Graduate School			
Fellowships and scholarships	70	17	87
Other honor students	148	23	171
Recipients of special scholarship awards	87	43	130
Total Citations	658	247	905
*Duplicates	58	16	74
Total Students Honored	600	231	831

* One man who received three citations has been counted twice in this group.

Grade reports.—Grades for three more schools, i.e., the School of Music, the College of Architecture and Design, and the new School of Public Health were reported by the statistical service, through the use of tabulating cards. Grades for 6 of the 14 units are now handled by this office through the use of the punched-card system, and those for an additional one, the Rackham School of Graduate Studies, are also handled in this manner independently by that unit. Of the undergraduate nonprofessional divisions of the University, only the College of Engineering and the College of Pharmacy have not adopted the punched-card plan for reporting grades. In addition to the report sent to the recording division of the Registrar's Office, grades punched on the tabulating cards are now being reported to six other offices, namely, to the Dean of Students, the Dean of Women, the Academic Counselors in the College of Literature, Science, and the Arts, the Director of Physical Education and Athletics, the Director of Residence Halls, and to the Office of Educational Investigations.

Most of the offices receiving these reports are interested primarily in the freshman group. If the two undergraduate units not now using the punched-card method decide at any time to adopt the plan, it will be possible

to supply various interested offices with one complete alphabetical list of students in the undergraduate units, showing grades earned by each student and covering all freshman grades. It is the hope of this office that at some time the present plan may be extended to include those units not now participating.

Freshman grade reports.—The grades earned by entering freshmen were grouped according to schools, and grade-point averages were figured. They were also distributed according to registrar's rating and by courses and grade-point averages computed for use in reporting freshman performance to the high-school principals.

The freshman ledger, giving courses elected, grades earned, test results, registrar's rating, and rank in graduation class was printed and bound for use in the admissions division.

Scholarship chart.—The following tables show comparisons between 1941-42 and 1940-41 scholastic averages earned by the various campus groups:

Upperclass women's dormitories led all the other groups in scholastic achievement. For the first time separate averages for the dormitories and league houses were calculated. Since the dormitories are University controlled and each dormitory is comprised of many more students than are accommodated in an individual league house, the residents of the two types of housing units cannot be grouped together significantly to show academic performance.

Sigma Alpha Mu, with a grade-point average of 2.82, was the leader among the general fraternities for the second successive year.

Gamma Phi Beta advanced from seventh position among the general sororities in 1940-41 to the top in 1941-42, with a grade-point average of 2.73.

Among the medical fraternities, Phi Delta Epsilon earned an average of 2.97, almost "B" grade, placing it first among the groups enrolled in that School.

The two law fraternities, Delta Theta Phi and Phi Delta Phi, earned exactly the same average, 2.45.

Delta Sigma Delta dental fraternity improved its scholastic position among the three dental fraternities by maintaining an average of 2.52, changing its rank from third to first.

University House, with no freshmen, 52 per cent of the residents upperclassmen and 48 per cent graduate, led the upperclass dormitories, with 3.33 grade-point average. The residents of Asman league house completed a combined total of 15 semester hours of work during the year. Although a relatively small group, 40 per cent of the girls were freshmen and the average of 2.86, placing them top for the league house residents, is a record worthy of note.

Cordes league house, composed entirely of freshmen who earned 22 semester hours, leads the freshman league house groups, with an average of 2.69.

Among the freshman residence halls, Greene House maintained an average of 2.68 to place first.

GENERAL GROUPS	GRADE-POINT AVERAGE		
	1940-41	1941-42	Change
Upperclass women's dormitories	2.66	2.67	.01
Independent women *	2.59	2.62	.03
All women *	2.57	2.59	.02
General sororities	2.59	2.57	-.02
Independent men *	2.53	2.57	.04
All University *	2.52	2.55	.03
Freshman women's dormitories	2.46	2.54	.08
Upperclass men's dormitories	2.53	2.53	.00
All men *	2.50	2.53	.03
Freshman men's dormitories	2.50	2.52	.02
General fraternities	2.49	2.50	.01
Upperclass women's league houses	2.42	2.48	.06
Freshman men *	2.43	2.43	.00
All freshmen *	2.40	2.43	.03
Freshman women's league houses	2.30	2.42	.12
Freshman women *	2.36	2.42	.06
PROFESSIONAL GROUPS			
Medical:			
Medical fraternities	2.74	2.70	-.04
All medical students	2.71	2.67	-.04
Independent medical students	2.65	2.62	-.03
Law:			
Law fraternities	2.24	2.45	.21
All law students	2.31	2.44	.13
Independent law students	2.32	2.44	.12
Dental:			
Independent dental students	2.54	2.53	-.01
All dental students	2.59	2.52	-.07
Dental fraternities	2.63	2.51	-.12

* Medical, law, and dental students are not included in the starred groups. Because of lack of uniformity between the grading systems in the professional schools and those in the nonprofessional schools of the University, it seems advisable to consider medical, law, and dental students as separate groups.

Care must be exercised in comparing the above averages, since ineligible fraternity and sorority pledges are not included in the fraternity, sorority, and independent groups but are included in the general and dormitory groups.

In making any comparisons between figures in the scholarship chart, it should be kept in mind that groups vary considerably in size and class level of personnel and some allowance should be made for the differences between them.

Independent women at the top of their respective classes were honored at the Assembly banquet. Those receiving recognition at this time were:

Freshmen

1. Martha Belle Ferar Klee
2. Elizabeth Dorothy Lewis

Sophomores

1. Anne Merry Podoley
2. Barbara Louise Bentley

Juniors

- 1a. Margaret Marie Garritsen
- 1b. Leola Marie Finger
2. Audrey Hope Johnson

Remarks.—In gathering University statistics, this office is constantly aware of the advantages inherent in a centralized plan for keeping records.

Six of the fourteen Schools and Colleges have now adopted a uniform system of recording grades and it is possible to send out a complete alphabetical list of students and grades for this group. As soon as other units feel that they care to enter upon the same plan, especially the outstanding undergraduate units, it is hoped that this may be arranged.

Some of the practices that work most successfully in similar institutions cannot be adopted for the University because the records are distributed over the campus and are not handled in a uniform manner. A central administration building should solve this problem. Since this has been delayed by the war, it is felt by this office that a fairly satisfactory substitute might be achieved as far as this problem is concerned in a University-wide uniform system of recording and reporting grades, withdrawals, and faculty action by the punched-card method.

During the past two years the statistical service of the Registrar's Office has assumed the reporting of grades for five schools in addition to the College of Literature, Science, and the Arts, already on the tabulating-card plan and being reported by this office. This has been done without any increase in full-time staff.

With a state of war in this country, this office has been called upon to fill unusual demands for information concerning the student body. It appears certain that increasing requests will be filed during the coming year. It is our sincere hope that this staff may meet this situation by supplying complete and accurate data in as short a time as possible.

EDITORIAL DIVISION

The publications issued by the Editorial Division during 1941-42 consisted of the 156 numbers of Volume 43 of the University of Michigan Official Publication and 86 nonserial publications, which include the numerous School of Music and University Musical Society programs, which are counted as 1 nonserial. For a list of the serial publications, see page 44.

The following new serial publications were issued during the year: "Conference for Teachers of English in Technical Schools, S. S., 1941," "Engineering Structures Institute, S. S., 1941," "Engineering Defense Training Program, 1941 summer course," "English Language Center for Latin-American Students, S. S., 1941," "School of Public Health Preliminary Announcement, 1941-42," "Latin Week in Michigan," "Church Music Conference," "National Music Camp, S. S., 1941," "School of Dentistry Accelerated War Program, 1942-43," "College of Architecture and Design" illustrated bulletin, and "Training for Commissions in the Quartermaster's Corps, U. S. Army."

Some of the nonserial publications issued during the year were: "Defense Training Courses for Men, 1941-42," *Michigan Governmental Studies*, Nos. 8 and 9 ("Income as an Index of the Fiscal Capacity of Michigan Counties," and "Financing Government in Michigan"), *Michigan Pamphlets*, Nos. 14 and 15 ("Local Government in Genesee County" and "State Supervision of Local Borrowing"), *Council and Senate Records, 1936-1941*, "College Women in the War Emergency," *The Maud Ledyard von Ketteler Collection*, "Preparation for College English," *Ars Islamica*, Vol. VIII, and *The*

University of Michigan: An Encyclopedic Survey, Part II—"Organization—Services—Alumni." Parts III and IV of the *Survey*, "The College of Literature, Science, and the Arts" and "The Summer Session" are in press.

The Editorial Division continues to proofread the galleys and page proof on the *University Record*, *Regents Proceedings*, *May Festival Libretto*, *Occasional Papers*, and *Miscellaneous Publications of the Museum of Zoology*, *Contributions from the Laboratory of Vertebrate Biology*, and *Contributions from the University Herbarium*.

The *Register of Staff and Graduates* for 1941-42 was in print September 4, 1942. This was compiled in the same manner as in previous years and contained the complete record of administrative officers and committees, faculty, teaching and research staff, major administrative assistants; personnel of the University Health Service, University Hospital, libraries, museums, observatories, residence halls, Alumni Association; lists of graduates in the various Schools and Colleges and recipients of certificates. The *Register* covered the period from July 1, 1941, to July 1, 1942.

Department heads and secretaries again this year responded to our request to furnish copy early for the *University Directory*. Their cooperation enabled us to have the *Directory* in print ten days after the opening of the first semester of 1941-42.

Respectfully submitted,

IRA M. SMITH, Registrar

ADMINISTRATIVE PUBLICATIONS OF THE UNIVERSITY *

UNIVERSITY OF MICHIGAN OFFICIAL PUBLICATION
