

UNIVERSITY OF MICHIGAN
OFFICIAL PUBLICATION

Report of
The Office of
Registration and Records
1955-1956

Reprinted from the President's Report
for 1955-1956, University of Michigan

ANN ARBOR, MICHIGAN
PUBLISHED BY THE UNIVERSITY

Vol. 58, No. 79

February 15, 1957

Entered as second-class matter at the Post Office at Ann Arbor, Michigan. Issued triweekly July through September and semiweekly October through June by the University of Michigan. Office of publication, Ann Arbor, Michigan.

THE OFFICE OF REGISTRATION AND RECORDS

THE University began an advance in the number of graduates which probably will be long and continuous. From July 1, 1955, to June 30, 1956, the University granted a total of 5,030 degrees in course. In addition, the University awarded thirteen honorary degrees and Regents' citations, fifty-one diplomas and certificates of graduation, 623 certificates of specialization, and 191 commissions, making a total of 5,908 degrees, certificates, and commissions.

Enrollment records were again broken when, in September, 1955, 2,893 young people began their college careers as freshmen in the University of Michigan and 3,383 transferred from other institutions.

Many students change to other schools or colleges of the University as they continue their educational programs. It is interesting to note that the same number of undergraduates made intra-University transfers as did graduates, namely, 508. Thus, with 1,016 intra-University transfers, 3,383 transfers from other institutions, and 2,893 freshmen, we found that over one-third of the students in the fall semester were new to their particular University unit.

The freshman men continued to maintain their numerical superiority over the freshman women, in that 54 per cent of the new, fall freshmen were men. The heavier enrollment in engineering was the cause of this lead, because the women led in the enrollments in the School of Education, in the College of Literature, Science, and the Arts, in the School of Music, and, of course, in the School of Nursing and in the Dental Hygiene program.

Twice as many Michigan residents were represented in the freshman class as those from all other states combined. The fall transfer group was much more evenly divided, 51 per cent of the students being Michigan residents.

In the total group of 20,676 students enrolled in the fall of 1955 in resident credit programs, 68 per cent were men and 68 per cent were Michigan residents.

The class level constitution of this same group is of interest: undergraduate men, 38 per cent; graduate men, 30 per cent; undergraduate women, 24 per cent; graduate women, 8 per cent. From these percentages it will be seen that 62 per cent of the student body were undergraduates and 38 per cent graduates or graduate-professionals.

In addition to the resident credit program students mentioned above, 3,426 students were enrolled in credit courses given by the Extension Service. These courses, offered by the Extension Service as a supplement to "on-campus" courses, brought the total University enrollment in credit courses to 23,936 for the fall semester.

During the fiscal year 41,818 different persons were taught in classes

conducted by the University; 33,723 were enrolled in credit and professional programs and 8,095 were enrolled in regularly organized certificate courses.

Because of the need for more complete information regarding enrollment, which could be obtained sooner, drastic changes were made in the student accounting procedure. Mr. Merlin Miller planned a re-organization of the IBM procedures. Prepunched registration name cards were used in the September and February registrations to initiate the new system. Seventeen admissions officers sent reports of new students to this office and their good co-operation made the system revision possible. In May this office was requested to compile admission statistics from all these admission offices and to prepare periodic reports to the administration. It is expected that data of this sort, if gathered consistently year after year, will be useful in forecasting enrollments and in determining admission policy.

Because of the revision in accounting procedure, changes had to be made in registration plans. Mr. Stanley Ward improved the process so that all the details were taken care of in a remarkably short time for each individual. Students were admitted to registration at the rate of one thousand per hour, when necessary to keep long lines from forming.

Immediately after the close of each regular registration period, alphabetized coupons of the registration form were distributed to the offices concerned. In this way these offices had a complete listing of students on the first day of classes. This immediate distribution was made possible only by the use of student time in the filling in of the numerous coupons. More than 250,000 cards were distributed each semester by this efficient method. To make this type of distribution by machine methods instead of by student labor would be prohibitively expensive, slower, and would furnish less information.

Orientation programs were arranged for undergraduate students transferring from other institutions and for the freshmen. The total number of new students served by this program was 4,521. Mr. Robert Garfield supervised the project each semester and also for the summer session. Over 350 students were used as group leaders. These students were selected from volunteers by representatives of the Union and League. We were very pleased with the student helpers and are planning to continue the use of volunteer guides.

Throughout the year men from all the schools and colleges of the University came to this office for information on Selective Service. Mr. Wesley Kurshildgen was kept informed concerning the changes in the regulations by the local, state, and national headquarters. He was given the responsibility for certifying the attendance and class standing of men in nine of the units of the University. Unfortunately, we have no facility to give privacy to Selective Service consultations.

The *University Directory* was available one month after school started

in the fall. Assembling, editing, and assistance with proofreading was done by Mrs. Florence Boyd, Editorial Assistant. A minor change in type improved the clarity of the *Directory*.

The Director of the Office of Registration and Records was responsible, during the year, for the following additional positions: secretary-treasurer of the Michigan College Association; member of the College Relations Committee of the Michigan Association of Collegiate Registrars and Admissions Officers; chairman of the Advisory Board of Alpha Phi Omega; adviser to the Michigan Christian Fellowship; general chairman of local arrangements of the Annual Meeting of the American Association of Collegiate Registrars and Admissions Officers held in Detroit, member of the Student Retention and Withdrawal Committee of the American Association of Collegiate Registrars and Admissions Officers; secretary of the Honors Convocation Committee; member of the Calendar Committee; chairman of the Athletic Eligibility Committee; and member of the Committee on Official Publications.

Mrs. Natalie Johnson organized the material submitted for the 907 students honored at the thirty-third Honors Convocation held May 7, 1956. Hill Auditorium was filled by the honor students, their parents, members of the Michigan Schoolmasters' Club, University of Michigan faculty, and others. Dr. David B. Steinman, Bridge Engineer, delivered an address entitled "The Spiritual Challenge of the Atomic Age." The annual tea given for the honor students at the Hatcher home was very well attended. It was held from 3:00 to 5:00 P.M. The invitations assigned suitable times, so that the guests were comfortably accommodated. This office supplied the names of students honored and the honors conferred to the News Service, for relaying to the home-town newspapers.

After the close of the first semester, the grades of Michigan high school graduates were sent to their respective principals. The high school was again informed regarding former students' progress when, at the close of undergraduate work, a transcript of credit was sent to the high school principal, accompanied by a letter of transmittal. Transcripts of all students transferring from Michigan junior or community colleges were sent to the junior college president or director when the student graduated from the University. Many favorable letters were received concerning these practices.

The most serious problems in this department stem from our inability to secure staff members who will stay for a reasonable time, and from the extremely crowded conditions which prevail. We are constantly embarrassed by our lack of space in which to interview students inquiring about their records.

The number of transcripts issued from July 1, 1955, to June 30, 1956, was 146,711, and the amount of fees received from them was \$11,015.00.

STATISTICAL ADDENDA FOR THE YEAR 1955-56

In 1955-56, 41,818 students were taught by the faculty of the University of Michigan. The enrollment in credit and professional programs was 33,723. Of this number, 27,896 were enrolled in resident degree and postgraduate professional programs. Every Michigan county, every state, the District of Columbia, Alaska, the Canal Zone, Guam, Hawaii, Puerto Rico, the Virgin Islands, and seventy-six other areas outside the continental United States were represented at the University of Michigan.

The 41,818 students may be grouped as follows:

1. Students in degree or professional programs elected for resident credit	27,053
2. Students in short postgraduate programs offered, on campus, to doctors, dentists, or hospital trainees for the study of latest developments in their fields	850
3. Students in credit extension courses offered in classes organized in Ann Arbor, Battle Creek, Bay City, Calumet, Detroit, Flint, Grand Rapids, Ironwood, Jackson, Kalamazoo, Ludington, Menominee, Midland, Muskegon, Pontiac, Port Huron, Saginaw, Sault Ste Marie, Traverse City, and some thirty other communities. Teachers and those interested in business, engineering, and other fields registered for these credit programs	5,011
4. Students in credit extension courses offered, through correspondence, to residents of Michigan and other states and of areas outside the continental United States. These programs are elected by men in the armed forces, by veterans whose study programs were interrupted by war, by invalids and physically handicapped persons in sanatoriums in the state, by men in correctional institutions, and by other ambitious students who cannot meet with a study group but who desire to continue their education on a credit basis	977
5. Students in extramural postgraduate programs in medicine, offered at eighteen centers in the state in proximity to the homes of physicians who take advantage of these teaching programs to keep informed of essential advances in the general practice of medicine	600
6. Students in adult education classes designed to assist the mature individual who is seeking continued study along lines not covered in regular programs of professional or general interest to him. These programs are conducted in some seventy-five communities of the state.	6,994
7. Students in extension noncredit courses, offered through correspondence to personnel of the United States Armed Forces, to veterans, and to other persons interested in further education at adult levels. With this group are included students whose high schools, because of limited teaching staffs, cannot meet their needs to satisfy entirely the entrance requirements of universities or colleges, and who, therefore, find it necessary to gain certain high school credits in this manner ...	1,101

Geographical location.—Students indicating their home state as Michigan constituted 23,868 (70.8%) of the 33,723 students enrolled in resident

and extramural credit or professional programs during 1955-56. During the first and second semesters, the seven counties adjoining Washtenaw sent 6,849 (43.6%) of the 15,718 resident students from Michigan. These counties comprise 51.5 per cent of the entire Michigan population.

Of the 33,723 students enrolled in resident and extramural credit or professional programs, 9,855 (29.2%) were from non-Michigan areas: 9.3 per cent registered from states other than Michigan in the North Central region of the United States, 9.1 per cent from the North Atlantic area, 1.6 per cent from the South Atlantic section, 2.2 per cent from the South Central area, 1.6 per cent from the Western states, and 5.4 per cent from areas outside the continental United States.

Enrollment by classes.—In the fall of 1955, 12,850 (62.3%) of the students enrolled at the University in degree programs were registered for undergraduate work. Of this number, 26.5 per cent were freshmen, 29.2 per cent were sophomores, 20.5 per cent were juniors, 19.9 per cent were seniors, and 3.9 per cent were classified as special students.

DEGREES CONFERRED

Of the 5,030 degrees granted during 1955-56, 2,440 (48.5%) were bachelor's degrees, 1,817 (36.1%) were master's degrees, 274 (5.4%) were doctorates, and 499 (9.9%) were graduate-professional degrees in dentistry, law, and medicine. The ratio of total degrees granted to total students enrolled in degree or professional programs was 18.6 per cent in 1955-56.

ACADEMIC SUCCESS IN UNDERGRADUATE SCHOOLS AND COLLEGES

For the fourth time the students earned the record grade-point average of 2.58. Previous record years were 1951-52, 1953-54, and 1954-55. The women, as usual, earned a higher average than the men, and, in addition, established a new record: 2.69. The men kept the same average as they earned last year: 2.52. The freshman class recovered its loss of last year and earned an average of 2.40; the women, 2.42; the men, 2.38.

The highest average earned by a general group was that of 2.88, established by women living in co-operative houses. This is the highest average earned by any group since 1948-49. Women in supplementary housing bettered their average of last year and established a record for themselves of 2.71. The general sororities recovered their average earned in 1951-52 by obtaining a 2.70. Independent women set a new record for their group, with a grade-point average of 2.68. Women living in residence halls, with an average of 2.63, earned their best average since 1947-48.

Men living in co-operative or independent housing units, with an

average of 2.54, established the highest average for men's groups. Independent men bettered their average of the previous year slightly by earning a 2.53. Men's residence halls improved .04 of a grade-point over last year, with an average of 2.50. Men in general fraternities dropped .05 of a grade-point from their record high of the previous year to an average of 2.48. This, however, is considerably above the 2.00 average regarded as satisfactory.

The residents of Martha Cook Building, who were for the most part upperclass women of demonstrated scholastic ability, retained the top position among all residence hall groups, with a 3.07 grade-point average, which constitutes a record for them. Kelsey House was the new leader in the men's residence halls with an average of 2.67. Freeman House residents, with an average of 2.91, took top honors among the supplementary housing groups for women.

Members and pledges of Sigma Delta Tau sorority attained an average of 2.80, thus placing first among the general sororities. Phi Epsilon Pi's members and pledges earned an average of 2.85, which placed them at the top of the fraternity group.

Grades earned by students in the School of Dentistry, the Graduate School, the Law School, the Medical School, and the School of Social Work, and those for graduate students in the School of Business Administration, the School of Music, the School of Natural Resources, and the School of Public Health have been excluded from this report. Freshmen are defined as those students who entered the University in the fall of 1955 or the spring of 1956 with less than one semester of college experience.

Another measure of academic success is the degree of persistence shown by fall freshmen by returning for the next semester. Ninety-four per cent of the 2,893 fall freshmen continued on in the University for the spring semester.

ENROLLMENT REPORT BASIS

The usual procedures were followed in reporting the number of students registered at the University. The year includes the 1955 summer session, the 1955-56 first semester, and the 1955-56 second semester.

In the summary, enrollments have been divided into groups as follows:

- I-A Students in degree or postgraduate professional resident credit level programs. The postgraduate registrations are in programs designed to acquaint practicing physicians, dentists, and hospital workers with the latest developments in their fields. Although a degree is not the objective for this group, the instructional level is postgraduate.
- I-B Students in postgraduate professional programs of fewer than four weeks

in the summer session and fewer than eight weeks during either semester. These are also credit level programs but are for shorter periods than those in Group I-A.

- II-A1 Students in extension credit courses utilizing classroom instruction. Although extension students do not enroll in the schools and colleges, they have been grouped according to the University units from which instructors offering courses have been drawn.
- II-A2 Students in extension courses through correspondence work. All correspondence extension students actively enrolled during 1955-56 have been included, though their actual registration may predate July 1, 1955.
- II-B Students in extramural postgraduate programs of short duration but of instructional level higher than that of first degree programs.
- III-A1 Students in noncredit classroom courses, offered because of popular demand and the apparent need for the service.
- III-A2 Students in the same type of programs as those in III-A1 who received instruction through correspondence.

Extramural students in certificate programs in Group III are counted in the summary only. All other groups mentioned in the summary are included in the tables on geographical distribution of students, since they represent a service of instruction at university credit level to the people of the state, the nation, and areas outside the continental United States. Geographical distributions are made according to the home address given by each student on his registration card.

In all tables except the geographic, students in I-B and II-B have been omitted because registrations in these groups are for a comparatively short period, and the University recognizes that they are not comparable to enrollments in courses of regulation length. Only those students who remained past the "total refund" period of one week in the summer session or two weeks in either semester have been included.

TABLE I
1955-56
ENROLLMENT SUMMARY

Student Group	Total	Men	Women
I. Students in resident credit programs:			
A. Degree and postgraduate professional programs	27,053	18,327	8,726
B. Shorter postgraduate programs			
1. Dentistry	342	334	8
2. Hospital Training	8	1	7
3. Medicine	500	480	20
Net total*	27,896	19,136	8,760
II. Students in extramural credit and professional programs:			
A. Extension			
1. Class	5,011	2,158	2,853
2. Correspondence	977	549	428
B. Postgraduate professional medicine ..	600	582	18
Net total*	6,542	3,265	3,277
Net total, credit and professional programs*	33,723	22,001	11,722
III. Students in extramural certificate programs:			
A. Extension			
1. Class	6,994	4,219	2,775
2. Correspondence	1,101	633	468
Net total, certificate programs ..	8,095	4,852	3,243
Students enrolled in University instructional program*	41,818	26,853	14,965

* Students registered in more than one credit program have been counted only once.

TABLE XXV
TRANSCRIPTS

Year	Individual Requests for Transcripts		Grade Reports to Students, Deans, and Departments
	Number	Amount Received	
1948-49.....	18,944	\$ 3,088.50	43,199
1949-50.....	21,383	4,916.00	95,773
1950-51.....	30,458	5,370.50	93,438
1951-52.....	30,932	5,507.50	105,416
1952-53.....	29,847	4,900.00	102,429
1953-54.....	31,781	5,117.00	93,458
1954-55.....	34,314	5,730.31	94,023
1955-56.....	39,428	11,015.00	107,283

Transcripts.—The constant increase in the number of individual requests for transcripts year after year is shown in the above table. The transcript fee was increased to \$1.00; this accounts for the unusual increase in the "amount received" column for 1955-56. Transcripts were used as grade reports to the students and to their deans and departments. These reports were printed en masse at the end of each semester and summer session.

EDWARD G. GROESBECK, *Director*
Office of Registration and Records
