Report of
The Office of the
Registrar

1966-1967

Preprinted from the President's Report
for 1966-1967. The University of Michigan

ANN ARBOR, MICHIGAN

FOREWORD

By means of tabulations and pictorial form, the 1966-67 student population of The University of Michigan is presented in statistical summary. Enrollment information, degrees conferred, academic achievement and other interesting data are summarized. The Statistical Service of the Registrar's Office, which in part prepared this report, can provide selected additional data complimentary to these materials.

OFFICE OF THE REGISTRAR
ENROLLMENT

Fall residence credit enrollment has increased 93% since the appointment of President Hatcher in 1951, to a new high of 33,062 students in degree programs during the fall of 1966. Another 3,001 were enrolled for credit courses in University centers. During the year 1966-67, a total of 46,134 students enrolled in credit programs. An additional 3,006 participated in extramural certificate programs culminating in a total enrollment of 51,058 students.

The tables and figures that follow describe in detail the enrollment by sex, term, and unit at the University. Prescribed procedures were followed in accounting for the number of students registered at the University. The year includes the 1966 Summer Half-term, the 1966-67 Fall Term, the 1966-67 Winter Term, and the 1967 Spring Half-Term. Only those students who remained beyond the total refund limit in any period are included. Postgraduate registrations are considered to be short-course enrollments if less than four weeks in the summer or spring, or less than eight weeks during the regular term. Any apparent numerical discrepancies in the total are the result of students enrolled in two or more units and counted but once in the net total. All Rackham students are counted in the unit of their field of specialization.

Extramural students in certificate programs in Group III are counted in the summary only. All other groups mentioned in the summary are included in the table on geographical distribution of students since they constitute a service of instruction to the people of the state, the nation, and other areas.

In the summary, enrollments have been divided into groups as follows:

| | | |
|--------|--|--------|
| I-A | Students in University degree or postgraduate professional residence credit level programs | 41,816 |
| I-B | Students in University postgraduate professional programs of fewer than four weeks in the half term or fewer than eight weeks during a full term.. . . . | 1,226 |
| II-A 1 | Students in University Extension credit courses offered in nearly forty Michigan communities including the following nine cities with extension offices - Ann Arbor, Battle Creek, Dearborn, Detroit, Escanaba, Flint, Grand Rapids, Port Huron, and Saginaw | 4,216 |
| II-A 2 | Students in University Extension credit courses offered through correspondence | 813 |
| II-B | Students in extramural postgraduate programs in medicine, offered at twenty-one centers in the state | 762 |
| III-A | Students in University Extension certificate classes designed to assist the mature individual who is seeking continued study along lines not covered in regular University courses | 2,963 |
| III-B | Students in University Extension certificate courses offered through correspondence | 43 |

CHARACTERISTICS OF THE STUDENT POPULATION

Continuous requests for data on our student population are received from various sources within the University, governmental agencies, individuals, news media, planning groups, industrial agencies, and publishing houses. Answers to the wide variety of these inquiries can generally be found from the following data, combined in many forms, with the information contained in other sections of this report. The tables included in this section describe certain aspects of the student population, such as, class enrollments, marital status, and enrollments by field in selected units. Consistent data definitions are maintained from year to year so that meaningful comparisons can be made. Student population characteristics remain relatively stable and the changes that do occur are usually of a slow predictable nature.

ACADEMIC ACHIEVEMENT

The academic achievement of undergraduate students for the year 1966-67 is represented in the tables which follow. As in the past, these tables indicate the academic achievement of selected groups during the fall and winter terms. The overall average for men and women has again increased and as usual the higher average was achieved by the women.

Not included in these tables are students in the graduate or graduate professional units of the School of Business Administration, the School of Dentistry, the Graduate School, the Law School, the Medical School, the School of Music, the School of Natural Resources, College of Pharmacy, the School of Public Health, and the School of Social Work. Also, students enrolled at the Dearborn Campus and the Flint College are excluded.

A table indicating the grade-point averages by selected schools is included. These averages are calculated for undergraduates who are enrolled in the same school or college both terms and who elect twelve or more hours each term.

The forty-fourth Honors Convocation, held on March 31, 1967, recognized the achievement of 2,034 undergraduate students who attained a grade-point average of 3.5 for the past two terms or freshmen who had earned this average during the first term. Over the past ten years, the percentage of eligible students honored has nearly doubled, from 5.40 percent in 1957 to the current level of 10.57 percent.

DEGREES AND AWARDS

In addition to 26 honorary degrees, a record number of 8,158 degrees in course were awarded in the year 1966-67. Represented in the 8,158 total are 105 different degrees in 197 defined fields of specialization. This constitutes 20% of the total students enrolled in degree programs. Of the degrees granted, 48.5 percent were bachelor's degrees, 34.5 percent master's degrees, 5.8 percent doctorates, and 11.2 percent graduate-professional degrees.

Since 1951, President Hatcher has conferred 97,715 or 42 percent, of the 231,412 degrees awarded by the University.

It is interesting to note that the University grants many certificates of specialization, teacher's certificates and commissions. Over 1200 of these, by type of award, are included in Table XX.

GEOGRAPHICAL ORIGIN OF STUDENTS

Once again the University has enrolled students from every county in Michigan, the number of students corresponding with the population of the county. Student enrollment from Michigan continued to rise from previous years.

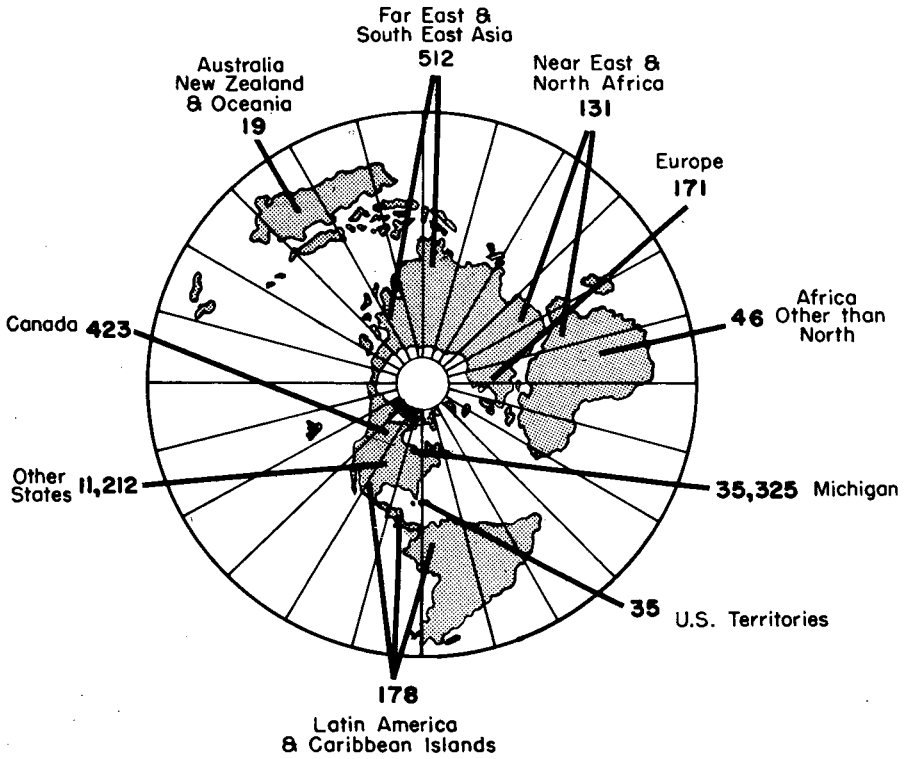

Also in attendance were students from every state, the District of Columbia, Puerto Rico, the Virgin Islands and 96 foreign countries.

The distributions which follow are based upon the home address given by the student at the time of his registration.

NEW STUDENTS

The following tables detail some characteristics of that student population which is new to the University. During the fall term, new students comprised one-third of the residence credit enrollment. The breakdown between transfers and freshmen indicates a slight decrease in the number of freshmen over last year, which was met by a twelve percent increase in transfer students.
