## FOREWORD

By means of tabulations the 1968-69 student population of The University of Michigan is presented in statistical summary. Enrollment information, degrees conferred, academic achievement and other interesting data are summarized. The Statistical Service of the Registrar's Office, which in part prepared this report, can provide selected additional data complementary to these materials.

## OFFICE OF THE REGISTRAR STUDENT ENROLLMENT AND CHARACTERISTICS

Each year since 1952, the fall residence credit enrollment has surpassed the previous year. In the fall of 1968, 35,242 students were enrolled in degree programs. This represents a 107% increase during this sixteen year period. Another 2,779 students were enrolled for credit courses in University extension centers. During the year 1968-69, a total of 48,875 students enrolled in credit and professional programs. An additional 3,670 participated in extramural certificate programs culminating in a total enrollment of 52,545 students.

Requests for data on our student population are continually received from various sources within the University, governmental agencies, individuals, news media, planning groups, industrial agencies, and publishing houses. Answers to the wide variety of these inquiries can generally be found from the following data, combined with the information contained in other sections of this report. The tables included in this section describe in detail certain aspects of the student population, such as, class enrollments, marital status and enrollments by field in selected units. Consistent data definitions are maintained from year to year so that meaningful comparisons can be made.

Prescribed procedures were followed in accounting for the number of students registered at the University. The year included the 1968 Summer Half-term, the 1968-69 Fall Term, the 1968-69 Winter Term, and the 1969 Spring Half-term. Only those students who remained beyond the total refund limit in any period are included. Postgraduate registrations are considered to be short-course enrollments if less than four weeks in the summer or spring, or less than eight weeks during the regular term. Any apparent numerical discrepancies in the total are the result of students enrolled in two or more units and counted but once in the net total. All Rackham students are counted in the unit of their field of specialization.

Extramural students in certificate programs in Group III are counted in the summary only. All other groups mentioned in the summary are included in the table on geographical distribution of students since they constitute a service of instruction to the people of the state, the nation, and other areas.

In the summary, enrollments have been divided into groups as follows:

I-A	Students in University degree or postgraduate professional residence credit level programs . . . . .	43,542
I-B	Students in University postgraduate professional programs of fewer than four weeks in the half term or fewer than eight weeks during a full term . . . . .	1,064
II-A1	Students in University Extension credit courses offered in nearly forty Michigan communities included the following eight cities with extension offices—Ann Arbor, Dearborn, Detroit, Escanaba, Flint, Grand Rapids, Port Huron, and Saginaw . . . . .	3,668
II-A2	Students in University Extension credit courses offered through correspondence . . . . .	621
II-B	Students in extramural postgraduate programs in medicine, offered at twenty-one centers in the state . . . . .	645
III-A	Students in University Extension certificate classes designed to assist the mature individual who is seeking continued study along lines not covered in regular University courses . . . . .	3,581
III-B	Students in University Extension certificate courses offered through correspondence . . . . .	89

## DEGREES AND AWARDS

In addition to 12 honorary degrees, a record number of 9,354 degrees in course were conferred in the year 1968-69. Represented in the 9,354 total are 108 different degrees in 212 defined fields of specialization. This constitutes 21% of the yearly total or 26.5% of the fall total students enrolled in degree programs. Of the 9,354 degrees granted, 50.2 percent were bachelor's degrees, 32.1 percent master's degrees, 6.7 percent doctorates, and 11 percent graduate-professional degrees.

A total of 249,647 degrees have been conferred since 1845. Over 27% of this number have been conferred in the last decade.

The University grants many certificates of specialization, certificates of graduation, teacher's certificates and commissions. Over 1400 of these, by type of award are included in Table XXII. Also included in Table XXII are 883 certificates of candidacy.
