FORWARD

Information related to the 1973-1974 student population of The University of Michigan is presented in tabular summary. Enrollment information, degrees conferred, academic achievement, and other interesting data are presented in a format that is consistent with reports of other years. Any data concerning The University of Michigan-Dearborn or The University of Michigan-Flint has been supplied by the individual units except for the annual enrollment summary information in Tables I, III, and V. Selected complementary information is available upon request in the Office of the University Registrar.

OFFICE OF THE UNIVERSITY REGISTRAR

STUDENT ENROLLMENT AND CHARACTERISTICS

This is the twenty-first consecutive year that the total residence credit enrollment has surpassed the previous year. These gains were registered at all three campuses. In the Fall of 1973, 40,992 students were enrolled for residence credit in degree programs, resulting in a 141% increase in Fall enrollment since 1952. Another 2,168 students were enrolled for credit courses in University extension centers. A total of 55,245 students enrolled in credit and professional programs during the year 1973-1974. An additional 2,894 participated in extramural certificate programs culminating in a total enrollment of 58,139 students.

Requests for data on our student population are continually received from various sources within the University, governmental agencies, individuals, news media, planning groups, industrial agencies, and publishing houses. Answers to the wide variety of these inquiries can generally be found from the following data, combined with the information contained in other sections of this report. The tables included in this section describe in detail certain aspects of the student population, such as, class enrollments, marital status and enrollments by field in selected units. Consistent data definitions are maintained from year to year so that meaningful comparison can be made.

Prescribed procedures were followed in accounting for the number of students registered at the University. The year included the 1973 Summer Half-term, the 1973-1974 Fall Term, the 1973-1974 Winter Term, and the 1974 Spring Half-term. Postgraduate registrations are considered to be short-course enrollment if less than four weeks in the Summer or Spring, or less than eight weeks during the regular term. Any apparent numerical discrepancies in the total are the result of students enrolled in two or more units and counted but once in the net total. All Rackham students are counted in the unit of their field of specialization.

Students in short postgraduate Dentistry and Medicine in Group I B, postgraduate professional Medicine in Group II B, and extramural certificate programs in Group III are counted in the summary only. All other groups mentioned in the summary are included in the tables on geographical distribution of students.

In many tables, when the information for Dearborn and Flint was available, it was separated to enable the development of information sets for any one of the campuses or the entire University. Comparisons with previous years should be carefully developed to include similar data elements.

In the summary, enrollments have been divided into groups as follows:

I-A	Students in University degree or postgraduate professional residence credit level programs	51,949
I-A1	Ann Arbor and Centers for Graduate Study	44,767
I-A2	Dearborn	4,012
I-A3	Flint	3,435
I-B	Students in University postgraduate professional programs of fewer than four weeks in the half term or fewer than eight weeks during a full term	6,075
II-A1	Students in University Extension credit courses offered in nearly forty Michigan communities including the following five cities with extension offices: Flint, Dearborn, Detroit, Grand Rapids, and Saginaw	2,965
II-A2	Students in University Extension credit courses offered through the Department of Independent Study	1,259
II-B	Students in extramural postgraduate programs in medicine offered at sixteen centers in the State	
III-A	Students in University Extension certificate classes designed to assist the mature individual who is seeking continued study along lines not covered in regular University courses	2,849
III-B	Students in the University Extension certificate courses offered through independent study	45
