**The University of Michigan  
Ann Arbor, Michigan**

## FOREWORD

Information related to the 1979-1980 student population of The University of Michigan-Ann Arbor is presented in tabular summary. Enrollment information, degrees conferred, academic achievement, geographic origin and other data are presented in a format that is consistent with reports of previous years. Many of the tables provide several years of data so that trends can be noted. Additional complementary information is available upon request from the Office of the University Registrar.

In addition to information for the Ann Arbor Campus, Tables II, VII, VIII, and IX and the section on "Degrees and Awards" contain data for The University of Michigan-Dearborn and The University of Michigan-Flint. This data was supplied by the individual units and any supplemental information required may be requested from their respective Registrar's Offices.

# OFFICE OF THE UNIVERSITY REGISTRAR

## STUDENT ENROLLMENT AND CHARACTERISTICS

In the Fall of 1979, 45,945 students were enrolled in residence credit degree programs at all three campuses of the University of Michigan. In addition, another 735 students were enrolled at University extension centers, bringing the total Fall enrollment at all three campuses to 46,680. The gain in enrollment occurred at the Dearborn and Flint campuses, which have experienced enrollment increases of 731% and 226%, respectively, since the beginning of the decade. At the Ann Arbor campus, the Fall 1979 enrollment represents a 2.5% decrease from the peak enrollment of Fall 1975, although enrollment at the Ann Arbor campus has not varied more than one or two percent per year since the beginning of the decade.

Figure I illustrates enrollment at the Ann Arbor campus in five-year increments since 1964. From the figure, it can be seen that, since 1964, the representation of undergraduates increased by roughly 3%, with offsetting losses of 2% at the graduate level and 1% at the graduate-professional level. Although representation by class level has fluctuated little, the breakdown by sex indicates a notable change of trend in enrollment as the percentage of women has risen from 30.7% to 43.1% at the graduate level and from 5.1% to 24.9% at the graduate-professional level. The overall percentage of women at the University has risen from 35.7% in 1964 to 42.4% in 1979.

More specific information relative to student enrollment is included in the tables in this first section. These tables, combined with information contained in other sections of the Report, present a diverse and informative picture of students at the University. Consistent data definitions are maintained from year to year so that meaningful comparisons can be made.

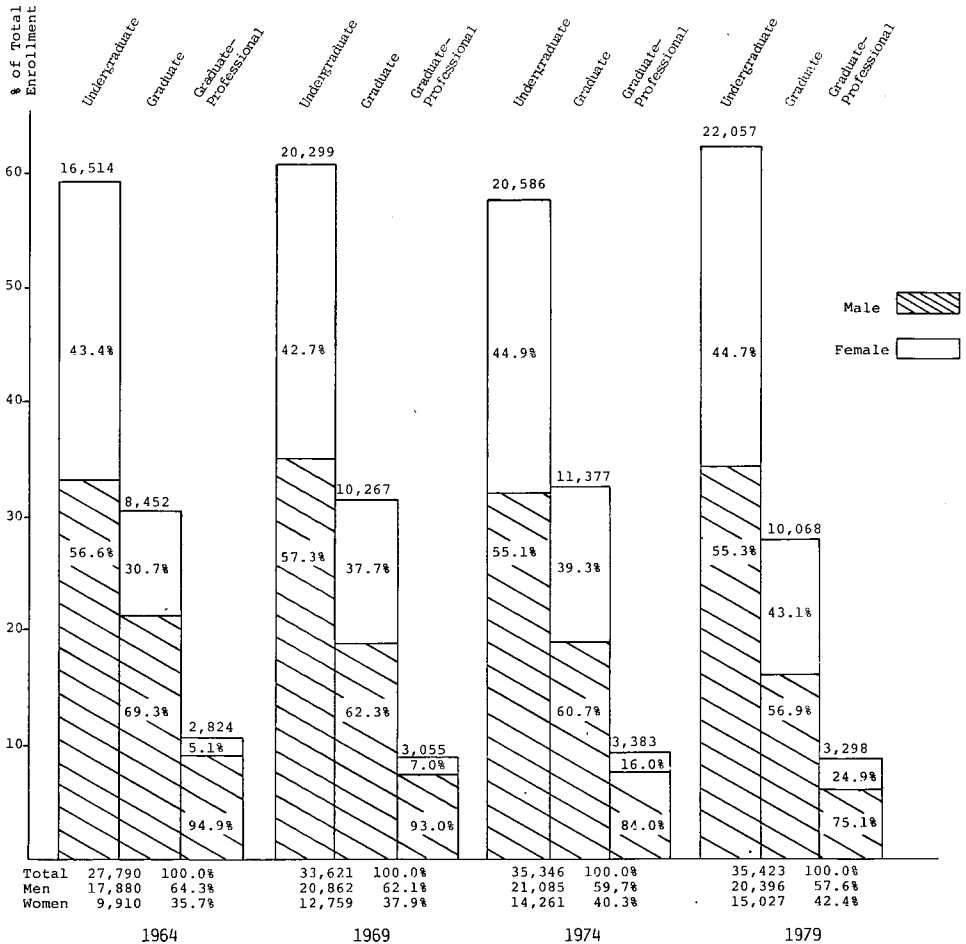

FIGURE 1. NUMBER AND PERCENTAGE OF STUDENTS ENROLLED BY CLASS LEVEL AND SEX FOR SELECTED FALL TERMS ANN ARBOR CAMPUS

Prescribed procedures were followed in accounting for the number of students registered at the University. The year included the 1979 Summer Half-term, the 1979 Fall Term, the 1980 Winter Term, and the 1980 Spring Half-term. Any apparent numerical discrepancies in the total are the result of students enrolled in two or more units and counted but once in the net total. All Rackham students are counted in the unit of their field of specialization, except where noted otherwise.

In the summary, enrollments have been divided into groups as follow:

I-A	Students in University degree or postgraduate professional residence credit level programs, Ann Arbor and Other Locations . . . . .	43,509
I-B	Students in University postgraduate professional programs of fewer than four weeks in the half term or fewer than eight weeks during a full term . . . . .	6,574
II-A	Students in University Extension credit courses offered in nearly forty Michigan communities including the following five cities with extension offices: Flint, Dearborn, Detroit, Grand Rapids, and Saginaw . . . . .	1,535
II-B	Students in University Extension credit courses offered through the Department of Independent Study . . . . .	804
III-A	Students in University Extension certificate classes designed to assist the mature individual who is seeking continued study along lines not covered in regular University courses . . . . .	1,987
III-B	Students in University Extension certificate courses offered through the Department of Independent Study . . . . .	24

## ACADEMIC ACHIEVEMENT

Table XIII compares Scholastic Aptitude Test scores of freshman classes that entered the University of Michigan from 1970 to 1979.

Although the nation-wide average SAT scores have declined steadily since the Fall of 1967, the scores of entering freshmen at the University of Michigan have not always followed the national trend. At the University the highest average SAT scores were reported for the Fall 1970 term. For the next five years scores dropped continually and now in recent years the scores have shown increased stability. Although not indicated in the table below, the average verbal and mathematics scores of the entering freshman classes at the University have consistently been more than 100 points higher than the national average scores.

Additional data related to this topic may be obtained from either the Office of the Registrar or the Office of Undergraduate Admissions.

TABLE XIII

AVERAGE SCHOLASTIC APTITUDE TEST SCORES\* OF THE FRESHMAN CLASS  
FALL TERMS, 1970-1979

Fall Term	CEEB Scholastic Aptitude Test	
	Verbal Score	Mathematics Score
1970	580	623
1971	566	608
1972	560	607
1973	543	595
1974	543	602
1975	520	590
1976	520	600
1977	520	590
1978	530	600
1979	530	600

\*The figures for years prior to 1975 indicate mean SAT scores, while the figures for 1975 and subsequent years represent median SAT scores.
