To request a permission for an independent study class, please go to the SOE website (soe.umich.edu) and click on: Forms

Higher Ed students only.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). Human drivers make conscious and unconscious choices that have invidious discriminatory implications, from what neighborhoods to drive through to avoid, to how to interact with other drivers based on perceived demographic features. Robotic driving may eliminate some social biases but create many others through machine learning. Multi-disciplinary student teams will apply problem solving tools, learn from experts who view this problem from various lenses, explore potential rules, metrics, tests, and safe harbors that could address algorithmic discrimination, and craft innovative solutions.

This class is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Non-law graduate/professional students may apply for the course using the PSI application system (https://problemsolving.law.umich.edu/) March 16-29, 2020. After the initial application period, students seeking to apply can contact problemsolving@umich.edu.

Non-law graduate/professional students may apply for the course using the PSI application system (https://problemsolving.law.umich.edu/) March 16-29, 2020. After the initial application period, students seeking
Obstacles Prov Soc Services

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). In the U.S., the federal government funds key social services. However, individual states oversee the provision of those services, and in Michigan, DHHS administers programs like SNAP, Medicaid, and WIC. Many challenges complicate social services delivery, including communicating effectively with beneficiaries, ensuring disparate programs function in tandem, and guaranteeing programs help people as intended. In this class, multi-disciplinary student teams will conduct research, apply problem solving skills, and engage with experts to develop solutions to these challenges.

This class is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Non-law graduate/professional students may apply for the course using the PSI application system (https://problemsolving.law.umich.edu/) March 16-29, 2020. After the initial application period, students seeking to apply can contact problemsolving@umich.edu.

### Chemical Engineering Department

#### Chemical Engineering (CHE)

--MANY COLLEGE OF ENGINEERING COURSES REQUIRE STUDENTS NOT ENROLLED IN BUSINESS ADMINISTRATION OR ENGINEERING (INCLUDING CCS MAJORS) TO PAY A $115-207 COMPUTER USER FEE. THIS IS A SPECIAL FEE, TO BE PAID ONLY ONCE EACH TERM, AND IS IN ADDITION TO THE INFORMATION TECHNOLOGY ACCESS FEE PAID BY FULL TIME STUDENTS AS PART OF THEIR REGULAR FEE ASSESSMENT. YOU WILL BE INFORMED ON THE FIRST DAY OF CLASS WHETHER OR NOT YOUR CLASS IS SUBJECT TO THIS FEE.

### How Cities Work

More and more people moving to cities. Nonetheless, most of us remain pretty unaware of all the activities and things needed to keep a city running. In this seminar series you'll learn how cities work, and how we can innovate to build the smart cities of the future. The course will feature talks by prominent research experts, innovators, government officials, community organizers, and industry leaders.

The goal of the course is to empower students with knowledge on how cities work, spanning a myriad of factors that affect people's daily lives in our built environment. Topics will include infrastructure, society, equity, technology, food, environment, public services, and financing, to name a few.

Next Gen Transpo Sys Seminar

Next Generation Transportation Systems Seminar – Presentation and discussion of selected topics related to transportation systems engineering. Student participation and guest lectures.

CEE 582 - both lecture and lab - should be taken by students intending to use the class for graduate credit, including SUGS students.

CEE 482 lecture should be taken by undergraduate students with no intention of counting this class towards a graduate program. No graduate credit will be granted for CEE 482.

Presentation and discussion of selected topics relating to construction engineering and management practice and research by invited lecturers.

Electrical Engr & Computer Sci

Electrical Engineering And Computer Science (EECS)

IT IS CRITICAL THAT STUDENTS ATTEND CLASSES FROM THE BEGINNING OF THE TERM. EVEN THOUGH STUDENTS MAY BE REGISTERED OFFICIALLY FOR A COURSE, THE ELECTRICAL ENGINEERING AND COMPUTER SCIENCE DEPARTMENT MAY GIVE AWAY A STUDENT'S PLACE IN A CLASS IF THEY DO NOT ATTEND THE FIRST WEEK OF LECTURES AND LABS/DISCUSSIONS (AS APPROPRIATE) FOR ANY EECS COURSES.

AT THE SAME TIME, THE EECS DEPARTMENT IS NOT OBLIGATED TO WITHDRAW STUDENTS OFFICIALLY FROM THE COURSE, EVEN THOUGH THE STUDENT HAS BEEN INFORMED THAT HIS/HER PLACE IN A COURSE HAS BEEN TAKEN AWAY. STUDENTS ARE RESPONSIBLE FOR THE ACCURACY OF THEIR SCHEDULES AND MUST BE SURE THAT ALL DROPS ARE PROCESSED THROUGH THE REGISTRATION SYSTEM DURING THE NORMAL DROP/ADD PERIOD.

Engineering Undergraduate Edu

Engineering (ENGR) 100  Intro Engineering  4.00  ADVISORY

Mechanics & Materials Design

STUDENTS ELECTING DIS (101-104) WILL BE AUTO-ENROLLED IN LEC 100.

11371  P R LEC 101  TTH  12:00-1:00PM  1005 GGBL  Wynarsky, Hildinger
11373  P R DIS 102  TTH  1:00-2:00PM  1018 DOW  Wynarsky
11374  P R DIS 103  TTH  1:00-2:00PM  134 NAME  Hildinger
11375  P R DIS 104  TTH  1:00-2:00PM  1690 BEYSTER  Hildinger

Greatest Materials of All Time

STUDENTS ELECTING DIS (101-104) WILL BE AUTO-ENROLLED IN LEC 100. STUDENTS CHOOSE THE LAB TIME THEY PREFER.

11376  P R LEC 120  TTH  1:00-2:00PM  2505 GGBL  Stein, Bowden

Drinking Water Quality

STUDENTS ELECTING DIS (102-104) WILL BE AUTO-ENROLLED IN LEC 102 AND THE CORRESPONDING LAB.

11377  P R LEC 300  TTH  1:00-2:00PM  133 CHRYS  Hirshfield, Grimble

Food Science & Engineering

STUDENTS ELECTING DIS (302-306) WILL BE AUTO-ENROLLED IN LEC 302 AND THE CORRESPONDING LAB.

11378  P R DIS 302  TH  12:00-1:00PM  1008 FXB  Khan
11379  P R DIS 304  TH  1:00-2:00PM  133 CHRYs  Hrishfield, Grimble

Recycling & Repurpose Plastics

STUDENTS ELECTING DIS (312-316) WILL BE AUTO-ENROLLED IN LEC 312 AND THE CORRESPONDING LAB.

11380  P R DIS 312  TH  1:00-2:00PM  1005 EECS  Royston

Self Driving Cars & Drones

STUDENTS ELECTING DIS (402-408) WILL BE AUTO-ENROLLED IN LEC 402 AND THE CORRESPONDING LAB.

11381  P R DIS 402  T  1:00-2:00PM  1005 DOW  Lewis
11382  P R DIS 404  T  1:00-2:00PM  1024 FXB  Lewis
11383  P R DIS 406  T  1:00-2:00PM  1024 FXB  Lewis
11384  P R DIS 408  T  1:00-2:00PM  1024 FXB  Lewis

Biomedical Engr & Human Values

STUDENTS ELECTING DIS (501-504) WILL BE AUTO-ENROLLED IN LEC 501.
Foundations of Mech Eng

STUDENTS ELECTING DIS 552-556 WILL BE AUTO-ENROLLED IN LEC 550 AND THE CORRESPONDING LAB.

Cool Green Food Delivery

STUDENTS ELECTING DIS 572 OR 574 WILL BE AUTO-ENROLLED IN LEC 570 AND THE CORRESPONDING LAB.

Gaming for the Greater Good

STUDENTS ELECTING DIS 652 OR 654 WILL BE AUTO-ENROLLED IN LEC 650 AND THE CORRESPONDING LAB.

Continuous Improve & Ops Mgt

STUDENTS ELECTING DIS 811 OR 812 WILL BE AUTO-ENROLLED IN LEC 810.

Assess Climate Meteorological

STUDENTS ELECTING DIS (962-966) WILL BE AUTO-ENROLLED IN LEC 960 AND THE CORRESPONDING LAB.

Intro Comp & Prog

STUDENTS ELECTING LAB (010-019 & 041) WILL BE AUTO-ENROLLED IN LEC 001.

STUDENTS ELECTING LAB (020-029 & 039) WILL BE AUTO-ENROLLED IN LEC 002.

STUDENTS ELECTING LAB (030-038) WILL BE AUTO-ENROLLED IN LEC 003.

Entrepreneurship (ENTR)

390 Spec Topics Entr
25317 A LEC 005 W 3-4PM 107 GFL
Intro to Entrepreneurial Des

* Students from ALL schools and colleges may take this course.

* Syllabi and workload information and other ENTR courses can be found at cfe.umich.edu/courses

* Questions as to whether this course will count toward your degree or the Entrepreneurship minor should be directed to InnovateBlue or your home department.

* YOU CANNOT DIRECTLY ENROLL IN THIS LECTURE. You must pick a lab first (ENTR 390.008 - 010).

====

Are you:

* Designing doorknobs for a Mars colony?
* Tired of browsing crappy university web pages?
* Inventing the best app ever for the Nest or the Apple Watch?
* Have ideas and want to prototype them before the next pitch to investors?
* Wondering why you aren't going to an online college instead?

Entrepreneurial Design is a cross-disciplinary course for current and aspiring designers, hackers, and makers. This gateway entrepreneurship course allows students to build foundational knowledge of entrepreneurial design with the opportunity to apply these skills in a hands-on lab (ENTR 390.008 - 010).

Learning Objectives: Students will train in patterns of thought that help them anticipate and drive innovations in technology, business, policy; train in advanced and powerful inventing / problem identification and solving methods; learn to identify and meet customer/user needs and wants (i.e.; building stuff you and others actually want to use and buy); obtain practical building skills in a specific digital, physical, or combination platform (i.e.; showing how something works is more effective than just telling stories about it).

IoT: Alexa Skill-building

3D Printing/Prototyping

***This class will meet in DC 1401 on the first floor of the Duderstadt Center***

* Students from ALL schools and colleges may take this course.

* Syllabi and workload information and other ENTR courses can be found at cfe.umich.edu/courses

* Questions as to whether this course will count toward your degree or the Entrepreneurship minor should be directed to InnovateBlue or your home department.

* STUDENTS ARE AUTO-ENROLLED IN LECTURE WHEN THEY ELECT THIS LAB.

====

In this lab, you'll learn how to operate and design for 3D printing machines such as the PrintrBot Play and Form 2. You'll learn CAD using Autodesk Fusion 360 and how to integrate 3D scan data into your designs. You'll also learn how to use various Rapid Prototyping and Manufacturing (RP&M) applications such as slicers and inspection tools.

Learning Objectives: Students will develop the fundamental skills to operate and design for the additive manufacturing process (3d printing); learn how to operate various types of 3d printers to include the PrintrBot Play, and Form 2; learn Autodesk Fusion 360, how to operate the Nextengine 3D Laser Scanner, and how to incorporate 3d scan data into one’s design; utilize various Rapid Prototyping and Manufacturing (RP&M) applications to include slicers, and inspection tools.

25351 P W LAB 010 M 2-5PM ARA
Virtual Reality

***Class will meet in ATL 2, on the third floor of the Duderstadt Center.***

* Students from ALL schools and colleges may take this course.
In this lab, you'll learn how to develop virtual reality content for the Oculus Rift and MIDEN using Unreal Engine and 3D Studio Max. You'll also be introduced to asset creation (3D modeling with 3D Studio Max) and scene assembly / functionality by bringing assets into the Unreal Engine & creating interactive experiences through Unreal's Blueprint system. At the end of the class you'll be capable of developing virtual reality experiences, simulations, and tools to address real-world problems.

Learning Objectives: Students will have an understanding of how to generate digital content for Virtual Reality platforms; be knowledgeable on versatile file formats, content pipelines, hardware platforms and industry standards; understand methods of iterative design and the creation of functional prototypes using this medium; employ what is learned in the lecture section of this course to determine what is possible, what is marketable, and what are the various distribution methods available within this platform; become familiar with documenting their design process and also pitching their ideas to others, receiving and providing quality feedback.

E-Commerce Entrepreneurship
* Students from ALL schools and colleges may take this course.

In this course, you'll learn how to start your own profitable business selling consumer products online. We'll also cover the potential pitfalls to stay away from and analyze other e-commerce businesses.

Learning Objectives: Students will be able to present a turnkey business with a functioning website, product photos/videos, sourcing plan, shipping/fulfillment plan, and advertising plan.

Digital Product Design
* Students from ALL schools and colleges may take this course.

In this course, you'll learn the total end-to-end process of discovering a digital product need, prototyping a digitized product and getting feedback to relentlessly improve it. In doing so, you'll be a part of creating the next generation of products that disrupts the economy and reinvents the ways we live - from how we learn and exercise, to how we socialize and get around.

Learning Objectives: Students will learn how to: use design thinking to discover problems worth solving, generate and prototype solutions, and test with real users; design own product(s) by creating wireframes, interactions, and visual designs; use typography, color, shape, space - and industry-standard tools like Sketch, Invision, etc - to build designs that are attractive, simple, and functional; solicit constructive feedback, critique design work, and substantiate criticism; discuss topics in the design world, including usability, user experience design, user interface design, and design research.

TechLab MCity
***FA18 Course meets 3rd floor of N. Campus Duderstadt Center, Rm 3358B***

In this course, you'll be responsible for completing an open-ended autonomous vehicle or mobility project (assigned by a company in the autonomous vehicle/mobility space), and as such gain experience in developing cutting edge technology for an early stage startup. This course is only available to students enrolled in the TechLab at Mcity Program. Only students who are selected for the TechLab at Mcity Program will be granted permission to enroll. To apply go to http://cfe.umich.edu/techlab-mcity/
Learning Objectives: Students will know how to recognize ambiguity, become comfortable with it, and use project management techniques to plan for the unexpected; utilize project management tools, techniques, and skills; understand assigned company's technology and how it creates value for a customer segment; gain exposure to entrepreneurship and its role in solving big problems; align resources for effective project implementation; appreciate organizational dynamics, communication strategies and stakeholder motivations; identify and utilize key performance metrics for project success; learn to assume responsibility for matters of great importance to assigned company; begin to make transition from student to professional engineer; engage in collaborative learning; immerse themselves in a startup that is developing cutting edge technology for the transportation industry; lead technical and strategic discussion on steps required to achieve technical milestones; discuss a Tech Lab company's work during class discussion and how it relates in the context of class.

Org. Values & Ethics Startups
* Students from ALL schools and colleges may take this course.

* Questions as to whether this course will count toward your degree should be directed to your home department.

It's been shown that diversity drives creativity and innovation, makes teams smarter and more effective, and leads to better outcomes for organizations. Leaders who prioritize inclusivity also know how to leverage talents, skills, and knowledge to make an impact and achieve their goals. Throughout the semester, you will develop the knowledge necessary to create workplaces and communities that value DEI by building on UM's current efforts, and further launch yourself/your entrepreneurial endeavors with a stronger DEI mindset. The skills gained in this course will serve you well as current students and help you be an agent of change in your future careers.

Entrepreneurship Hr
407

- Students from ALL schools and colleges may take this course.

* Questions as to whether this course will count toward your degree or the Entrepreneurship minor should be directed to InnovateBlue or your home department.

In this course, you'll be exposed to disruptive, influential and respected entrepreneurs, venture capitalists and business leaders and learn about their personal experiences founding, financing and managing a startup venture.

This seminar series is designed to expose students to entrepreneurship through interaction with experienced entrepreneurs, business leaders, and venture capitalists as well as individuals involved in emerging business models, new venture creation, and technology commercialization. While covering a broad set of engineering disciplines, guest speakers will share their knowledge on the latest, most diverse practices on legal, financial, and other innovation issues. The lectures include leading entrepreneurs and executives, technology innovators, experts from the financial markets, and others who support the entrepreneurial infrastructure. Following these seminars, students will be able to meet the guest speakers along with other members of the entrepreneurial community.

Patent Law
408

- Students from ALL schools and colleges may take this course.

* Questions as to whether this course will count toward your degree or the Entrepreneurship minor should be directed to InnovateBlue or your home department.

In this course, you'll learn how to dramatically simplify the business creation process by radical prioritization, identifying good opportunities and learning when to walk away from a bad one, and learning that it is possible, and actually very common, to be a moderately successful non-famous entrepreneur.

It's hard to start a company, but it doesn't have to be complicated. This course dramatically improves your odds of starting a viable business by providing a framework for identifying large, attractive opportunities. Every student will leave with a viable business opportunity to pursue and a set of valuable and repeatable skills that will be an asset in any entrepreneurial setting.

ENTPracticum
411

* Students from ALL schools and colleges may take this course.

* Questions as to whether this course will count toward your degree or the Entrepreneurship minor should be directed to InnovateBlue or your home department.
In this course, you'll be immersed in the entrepreneurial process in a supportive classroom environment. You'll learn how to critically evaluate then pursue the development of your own ideas for new ventures by working closely with entrepreneurship faculty and mentors.

Learning Objectives: Students will experience entrepreneurship firsthand; Understand and experience the mindset of an entrepreneur; Develop the ability to share the story of your entrepreneurial pursuits and clearly articulate customer needs, value proposition, customer segments, and value-adding solutions; Learn to go from idea phase to action and implementation, including validation through sales; Learn the customer discovery process of gaining empathy, understanding customer needs and wants, getting feedback from customers, prototyping solutions, and testing a value proposition; Actively practice exercising the customer discovery process; Become familiar with the process of starting a business; Learn problem solving in a team-based environment.

Entrepreneurship Practicum

* Students from ALL schools and colleges may take this course.

* Syllabi and workload information and other ENTR courses can be found at cfe.umich.edu/courses

* Questions as to whether this course will count toward your degree or the Entrepreneurship minor should be directed to InnovateBlue or your home department.

In this course, you'll be immersed in the entrepreneurial process in a supportive classroom environment. You'll learn how to critically evaluate then pursue the development of your own ideas for new ventures by working closely with entrepreneurship faculty and mentors.

In this specific section you'll gain the skills you need to develop a technology company. Specifically, you'll apply the scientific method and lean startup principles to designing a business that is sustainable, scalable, and repeatable.

Learning Objectives: Students will experience entrepreneurship firsthand; Understand and experience the mindset of an entrepreneur; Develop the ability to share the story of your entrepreneurial pursuits and clearly articulate customer needs, value proposition, customer segments, and value-adding solutions; Learn to go from idea phase to action and implementation, including validation through sales; Learn the customer discovery process of gaining empathy, understanding customer needs and wants, getting feedback from customers, prototyping solutions, and testing a value proposition; Actively practice exercising the customer discovery process; Become familiar with the process of starting a business; Learn problem solving in a team-based environment.

Entrepreneurship Practicum

* Students from ALL schools and colleges may take this course.

* Syllabi and workload information and other ENTR courses can be found at cfe.umich.edu/courses

* Questions as to whether this course will count toward your degree or the Entrepreneurship minor should be directed to InnovateBlue or your home department.

In this course, you'll learn how to build a "lean" marketing plan that will maximize your chance of successfully growing a new concept from an idea to a product to a repeatable and scalable business with little or no resources in an ever-changing environment.

Learning Objectives: Students will learn about the development of a market-based orientation for a start-up company; Students will learn about the creation of a marketing plan for a new venture; Topics and concepts will include knowing one's customers, discovering if anyone want the product, how to articulate one's value proposition, marketing segmentation and targeting, customer discovery research, maintenance and growth of a customer base.
Students will create an entrepreneurial marketing plan.

* Students from ALL schools and colleges may take this course.

**Questions as to whether this course will count toward your degree or the Entrepreneurship minor should be directed to InnovateBlue or your home department.

In this course, you'll talk 1:1 with disruptive, influential and respected entrepreneurs, venture capitalists and business leaders about their personal journey of founding, financing and managing their ventures.

Learning Objectives: Students will connect topics gleaned from the gateway ENTR 407 class in order to continue dialogue about the lecture series presentation and/or with the guest speaker her/himself; Make use of outside readings and engage in in-class activities; Develop an entrepreneurial mindset and apply this mindset to future studies and/or career aspirations; Reflect on entrepreneurship and how it applies to their life goals.

* Students from ALL schools and colleges may take this course.

**Questions as to whether this course will count toward your degree or the Entrepreneurship minor should be directed to InnovateBlue or your home department.

In this course, you'll learn how to engage a community to identify an important problem and design a sustainable business model that solves it. Whether you're designing the school lunch of the future or the successor to Uber, you're in for a challenging and rewarding experience. Throughout the course, the city of Detroit is referenced to further explore practices and policy surrounding urban entrepreneurship.

Learning Objectives: Students will clearly understand the definition of "urban entrepreneurship", and how urban-focused businesses compare to others; Learn to effectively analyze and compare the business models of urban-focused ventures; Engage the community on multiple levels to ascertain and prioritize needs; Capture an identified community need in a well-defined problem statement; Understand and apply "design thinking" to formulate potential solutions for the identified problem; Identify a scalable, for-profit business opportunity to implement the proposed solution; Develop a business model that will effectively document the business opportunity; Apply Customer Discovery and Human Centered Design methods to test and refine the business model; Understand the processes required to form, finance, and begin execution of a new business venture; Learn to effectively pitch the venture to prospective co-founders, investors employees, and others.

* Students from ALL schools and colleges may take this course.

**Questions as to whether this course will count toward your degree or the Entrepreneurship minor should be directed to InnovateBlue or your home department.

In this course, you'll learn about vision, culture, storytelling, mission, strategy development, the role of the CEO, the difference between the CIO and the CEO, communicators, hiring / firing and operations and management. You'll broaden your perspective of how to get a startup going, scaled, and funded.

Learning Objectives: Students will be introduced to the fundamentals of how to identify their own values and leadership style and build a complimentary team to support that style; Acquire best practices for handling team recruiting, management, incentives, conflict resolution, and pathways to success; Differentiate between high functioning and poor performing teams; Develop an understanding of key factors that enhance or diminish the likelihood of team success; process, communication, delegation and accountability; Understand team dynamics in a typical entrepreneurial "start-up" environment.

* Students from ALL schools and colleges may take this course.

**
In this course, you'll receive hands-on training, access to experience entrepreneurs, and a paid summer internship. This course is only available to students enrolled in the Entrepreneurs Leadership Program. For more information, visit http://cfe.umich.edu/elp

Learning Objectives: Students will receive practical, hands-on learning assignments to develop their skills in areas of individual leadership, operations, innovation, and execution with an emphasis on these four areas/objectives. 1. Understanding startups: We will learn about startups through case studies and studying other key principles 2. Industry Assessment: We will gain deeper understanding of specific industries through a variety of research and analysis approaches. 3. Opportunity Identification: Building on the foundational knowledge of startups and industries, we will work to identify opportunities for innovation. 4. Validation: After identifying innovation opportunities, we will actively test approaches, ideas, products, and services to develop those opportunities.

====

In this course, you'll learn how to use a variety of innovation and entrepreneurial tools to identify opportunities, construct a business model, and assess its fundability so you can bring your ideas to life in a sustainable and scalable way.

Learning Objectives: Students taking this class are expected on its completion to be able to: Articulate the tangled relationships between four of the nine components of the Business Model Canvas: value proposition, channel, customer segment, and revenue streams. 2. Capture a value chain map for a given channel to market. 3. Develop an ecosystem map and communicate the fundamental change your innovation will bring to the market. 4. Think strategically about the synergy and tensions between innovation capture and creation across several industry verticals. 5. Cultivate an ability to tailor technology innovation towards a sustainable business model with modern day revenue stream tactics.

**530 Innov IP Strategy**

====

The course examines intellectual property (IP) strategies for new ideas and startups, including barriers to entry for competitors and infringement risk reduction. Topics include IP procurement, technology transfer, due diligence, and preparing for and avoiding litigation. Students should have their own research to apply what's learned in the class.
Do people sometimes or often surprise, irritate, or enrage you? Looking back over the last year, can you think of a time you ‘lost control’ or would like a ‘do over’? By building your self awareness and Emotional Intelligence, you can gain insight, self control, and produce consistently positive results for yourself and others.

Using a four quadrant model of Emotional Intelligence, each quadrant will be unpacked with readings, lectures/examples, occasional guest lectures, and small group activities. Students are intended to come to understand the rich and varied mental lives of others, and learn concepts like ‘it’s not about you’ and to ‘fly their own plane first’. Using a three axis model (actual EQ, self-perceived EQ, and EQ care), along with an EQ assessment rubric, students will learn to locate themselves and others in relation to best practices. Theories of leadership will be discussed and unpacked, with the intent of more fully understanding sources of leadership power and the positive and negative aspects of various leadership styles. At the interplay of these themes is the concept of the dynamic, optimized function of a high-performing team – the creation and maintenance of which lies at the heart of most business success.

Students will form teams early in the course to ideate a project for improving the campus in some way. The teams will (ideally) apply their course learnings and produce a substantive product that they will report out on at the end of the course. Additionally, students will work throughout the term on a 10-20 page personal development plan, which will either be busy work or life changing in direct response to how seriously it is worked on. Weekly reflections on reading and course content will provide a regular feedback loop between instructor and student as to how course material is being received and applied. While not focusing explicitly on business practices and entrepreneurial activities, the entire course will be grounded in this field and will rely heavily on tying in the real world experiences of students and instructor to maximize the future applicability of what is learned.

Successful project managers and consultants possess the skills necessary to manage their teams, clients, activities, schedules, risks, communications and resources to produce desired outcomes. This course introduces the tasks and challenges fundamental to project management, the vital function of managing complex projects; and consulting, the business of giving expert advice.

Learning Objectives: Upon completion of the course, students should be able to: understand the key elements of project management & consulting, which includes: Sell, Engage, Scope, Plan, Research, Innovate, Decide, Manage, Change Management, Close. Manage a project from beginning to end.

* Students from ALL schools and colleges may take this course.

Syllabi and workload information and other ENTR courses can be found at cfe.umich.edu/courses

This course was offered in previous terms as ENGR 500.059. All registrations for Fall 2013 for that course will automatically be transferred to ISD 520.

528 Adv Design for mfg

590 Directed Study&Res 1.00-3.00

599 Spc Topics in ISD 3.00-4.00

Donald C. Winter, Adjunct Professor of Practice with NA&ME, former Secretary of the Navy and former President and CEO of TRW has generously offered to assist with ISD 599C. While the class is scheduled on T/Th of each week, there may be up to two strongly encouraged Wednesday morning sessions each month at 9 AM in CHRYS 151 to work with Dr. Winter on your class project. At least one member of each class project team should be available for the Wednesday morning sessions. For those who will miss these sessions there will be videotapes available of these sessions. Those who do attend the Wednesday meetings will be excused from attending the Thursday session on the following day.

This special section of MSE 220 will be a team based and project based version of the class where the first introduction to the material is NOT lecture, but rather annotated reading. Class time will consist of active learning activities. There will be three group projects in this class. Students will be required to purchase an electronic textbook via the Canvas site that will be live in August. Students will also be required to purchase a subscription to Learning Catalytics ($12). There are no other fees for the course. Homework is graded for effort and honesty - not accuracy. Quizzes are graded by averaging a closed book, closed notes, individual effort, with an open book, open internet, group effort. You will be rewarded for hard work and honesty on homework and exams without the angst of 100% summative assessment. Do not purchase the book at this time. More information will be available on the following website: http://java.engin.umich.edu/220F20

Electrochemistry Applications and Engineering -
This course will serve to give students exposure to applications of electrochemistry in the production of chemicals and metals, energy storage, sensors, and material protection (i.e., controlling corrosion). Part of the course will discuss basic electrochemistry concepts, so a background in electrochemistry is not required, but a majority of the course will focus on applications, and electrochemical techniques, e.g., electrochemical impedance spectroscopy, which can be used to understand charge transfer, double layer formation and capacitance, and solution resistances. In addition, some of the practical aspects of research electrochemistry will be discussed, including applying fundamental concepts to research. The engineering behind electrochemical reactor design will also be covered, including touching on the economics and performance metrics for industrial systems, and future avenues in electrochemical processes.

Battery Basics
Battery Basics - The electrification of society is proceeding at an extremely rapid pace. There are insufficient numbers of people trained in battery technologies to meet the growing need for individuals with the basic knowledge needed to serve society at entry level positions and above. This course is designed to provide, initially, basic understanding of battery design, assembly, and testing to entry level individuals. As time goes on, an advanced level of sophistication will be implemented based on learning from this first course. As envisioned, lectures provided will enable individuals to acquire basic knowledge that can eventually be used to qualify for a practical course in battery assembly and testing.

ENROLLMENT IN A DISCUSSION SECTION WILL AUTO-ENROLL YOU IN THE LECTURE AND RECITATION. PROJECTS VARY FOR DISCUSSION SECTIONS. ONCE CLASSES BEGIN, STUDENTS WILL DROP/ADD TO THE APPROPRIATE PROJECT-RELATED SECTION. MUST BE DONE BY 3RD WEEK OF TERM. STUDENTS ARE NOT PERMITTED TO TAKE THIS COURSE PASS/FAIL.

STUDENTS ARE AUTO-ENROLLED IN LECTURE WHEN THEY ELECT A LAB. STUDENTS ARE NOT PERMITTED TO TAKE THIS COURSE PASS/FAIL. PREREQUISITES ARE ENFORCED AND MUST BE MET TO ENROLL IN THIS CLASS.

**AEROSP students should enroll in Section 1. MECHENG students should enroll in Section 2.**

---

**Res STRESS & DISTORT**

This course examines how metal components are made, highlighting the choice of processing options and parameters based on material properties and part design. We focus on metal forming plasticity: elastic and plastic stress-strain relations; yield criteria and flow rules; analyses of various plastic forming operations; and the effects of hardening and friction, temperature, strain rate, anisotropy. We will also examine other key metals processing options: casting, machining and additive manufacturing. Students will analyze processes using some of the key equations governing product quality (e.g., dimensional accuracy), process rate, and manufacturing energy intensity. Metals processing is a significant contributor to global energy demand and greenhouse gas emissions; we will also examine material production, end-of-life options, and explore emerging paradigms in sustainable metals processing.

This class includes a site visit to the LIFT (metals processing) Manufacturing USA institute in Detroit. Please see here for the class syllabus: http://remade.engin.umich.edu/Publications/ME599-F19-syllabus%20v2.pdf

Accommodations can be made for those students also wishing to take ISD 528 Advanced Design for Manufacturing that finishes at 1:20pm. Email the instructor directly (dtcoopr@umich.edu) if this scenario applies to you.

Please note that the 1 credit for this course cannot count towards ME Master's or Ph.D. degree requirements.

---

**Fund of Rnwable Energy Prcs**

*Intro to Nanfab Nanmn Sci Tech*

Prof Skills Grad Stu Success

This course is open to 1st year ME Ph.D. students and all ME Master's students, though if needed registration priority will be given to 1st year ME Ph.D. students.

---

Please note that the 1 credit for this course cannot count towards ME Master's or Ph.D. degree requirements.

---

**Mech of Polymers II**

*Intro to Robotic Manipulation*

Prof Skills Grad Stu Success

This course is open to 1st year ME Ph.D. students and all ME Master's students, though if needed registration priority will be given to 1st year ME Ph.D. students.

---

Please note that the 1 credit for this course cannot count towards ME Master's or Ph.D. degree requirements.
Naval Architecture And Marine Engineering (NAVARCH)

--MANY COLLEGE OF ENGINEERING COURSES REQUIRE STUDENTS NOT ENROLLED IN BUSINESS ADMINISTRATION OR ENGINEERING (INCLUDING CCS MAJORS) TO PAY A $115-207 COMPUTER USER FEE. THIS IS A SPECIAL FEE, TO BE PAID ONLY ONCE EACH TERM, AND IS IN ADDITION TO THE INFORMATION TECHNOLOGY ACCESS FEE PAID BY FULL TIME STUDENTS AS PART OF THEIR REGULAR FEE ASSESSMENT. YOU WILL BE INFORMED ON THE FIRST DAY OF CLASS WHETHER OR NOT YOUR CLASS IS SUBJECT TO THIS FEE.

Class will meet in Room 236 NAME (Rosenblatt Room)
There will be additional lectures for the first 3 weeks of classes. These lectures will be scheduled for
Thursdays from 12:30-2:30 pm. Location will be announced in 1st regular class.

STUDENTS MUST ELECT LAB AND LECTURE SECTIONS.

The lecture portion of this class will meet for 10 weeks. During that time students will be expected to also complete a total of 35 hours working at the farm (average of 3-4 per week) to complete the lab portion of the class. These lab hours will vary and a schedule will be arranged in the first week of class. Transportation will be provided for lecture days. Students will be expected to secure their own transportation or carpool to the Botanical Gardens on the days when they complete lab hours.

Campus Farm Practicum

The lecture portion of this class will meet for 10 weeks. During that time students will be expected to also complete a total of 35 hours working at the farm (average of 3-4 per week) to complete the lab portion of the class. These lab hours will vary and a schedule will be arranged in the first week of class. Transportation will be provided for lecture days. Students will be expected to secure their own transportation or carpool to the Botanical Gardens on the days when they complete lab hours.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). Human drivers make conscious and unconscious choices that have invidious discriminatory implications, from what neighborhoods to drive through or avoid, to how to interact with other drivers based on perceived demographic features. Robotic driving may eliminate some social biases but create many others through machine learning. Multi-disciplinary student teams will apply problem solving tools, learn from experts who view this problem from various lenses, explore potential rules, metrics, and safe harbors that could address algorithmic discrimination, and craft innovative solutions.

This class is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.
Non-law graduate/professional students may apply for the course using the PSI application system (https://problemsolving.law.umich.edu/) March 16-29, 2020. After the initial application period, students seeking to apply can contact problemsolving@umich.edu.

**Fixing Foster Care**
This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). Lengthy stays in foster care harm children, and children who leave foster care continue to experience instability in a variety of settings. These challenges are compounded by actions taken by courts and welfare agencies. In this class, multi-disciplinary teams of students will study problems with the foster care system, learn from stakeholders, hear from leading experts, and apply problem solving techniques to craft solutions.

This class is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Non-law graduate/professional students may apply for the course using the PSI application system (https://problemsolving.law.umich.edu/) March 16-29, 2020. After the initial application period, students seeking to apply can contact problemsolving@umich.edu.

**Obstacles Prov Soc Services**
This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). In the U.S., the federal government funds key social services. However, individual states oversee the provision of those services, and in Michigan, DHHS administers programs like SNAP, Medicaid, and WIC. Many challenges complicate social services delivery, including communicating effectively with beneficiaries, ensuring disparate programs function in tandem, and guaranteeing programs help people as intended. In this class, multi-disciplinary student teams will conduct research, apply problem solving skills, and engage with experts to develop solutions to these challenges.

This class is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Non-law graduate/professional students may apply for the course using the PSI application system (https://problemsolving.law.umich.edu/) March 16-29, 2020. After the initial application period, students seeking to apply can contact problemsolving@umich.edu.

This is the first of the SI 3-course entrepreneurship sequence (SI 260, SI 360, & SI 460). It is recommended that you take these courses in this order.

ATTN BSI Students: SI 260 is a lower-level elective course and will not count toward the 45-credit SI degree requirement.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). Human drivers make conscious and unconscious choices that have invidious discriminatory implications, from what neighborhoods to drive through or avoid, to how to interact with other drivers based on perceived demographic features. Robotic driving may eliminate some social biases but create many others through machine learning. Multi-disciplinary student teams will apply problem solving tools, learn from experts who view this problem from various lenses, explore potential rules, metrics, tests, and safe harbors that could address algorithmic discrimination, and craft innovative solutions.

This class is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Non-law graduate/professional students may apply for the course using the PSI application system (https://problemsolving.law.umich.edu/) March 16-29, 2020. After the initial application period, students seeking to apply can contact problemsolving@umich.edu.
This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). Lengthy stays in foster care harm children, and children who leave foster care continue to experience instability in a variety of settings. These challenges are compounded by actions taken by courts and welfare agencies. In this class, multi-disciplinary teams of students will study problems with the foster care system, learn from stakeholders, hear from leading experts, and apply problem solving techniques to craft solutions.

This class is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Non-law graduate/professional students may apply for the course using the PSI application system (https://problemsolving.law.umich.edu/) March 16-29, 2020. After the initial application period, students seeking to apply can contact problemsolving@umich.edu.

Non-law graduate/professional students may apply for the course using the PSI application system (https://problemsolving.law.umich.edu/) March 16-29, 2020. After the initial application period, students seeking to apply can contact problemsolving@umich.edu.

It is CRITICAL that students ATTEND CLASSES from the BEGINNING OF THE TERM. Even though students may be officially registered for this course, THE INSTRUCTOR MAY DIS-ENROLL/GIVE AWAY officially registered seats in this course if the student DOES NOT ATTEND the first day of class. Attendance will be recorded on the first day of class.

Kinesiology students must concurrently enroll in MOVESCI 230.

This section is held for Kinesiology students. Non-Kinesiology students should wait list under section 011.

Because Kinesiology holds MVS 110 seats for Kinesiology summer orientation students, overrides for non-Kinesiology students are not issued until post-orientation. Students will receive an email when and if they are issued an override. If students do not receive an override before the first day of class, they are welcome to attend the first day of class and see if the instructor has seats available. As long as students stay on the waitlist, they do not need to call or email to check their status.

This section is held for Kinesiology students. Non-Kinesiology students should wait list under section 012.

Welcome to 320 for fall 2020! We will be offering two discussion groups in the fall. This is a new initiative and, as such, you cannot sign up during registration. However, we have two times set (based on MVS class schedules): Thursdays 3-5 pm, Fridays 3-5 pm. Rooms will be finalized soon with the goal of holding them in OBL (Thurs) and CCRB (Fri) - more on that later. While these are not mandatory, we’ve had excellent attendance this semester and student feedback has been very positive. I strongly encourage you to plan your class schedule accordingly so you can attend one of the sessions. Rachel Logue (milogue@umich.edu) will be running these discussions - she is a doctoral student in motor control and works closely with me to prepare discussion group activities. There will be a maximum number of students per discussion group with sign up sheets available at the beginning of each week. Attendance will contribute to a 1-1.5 bonus percentage point(s) on your final grade (with regular attendance - you can miss two sessions). The exact amount is still under discussion. As you may have heard, 320 is a challenging course, which is why we are utilizing discussion groups rather than peer-led study groups. The discussion groups will help develop critical thinking skills that are important when it comes to mastering course content. Looking forward to meeting each of you in September. Sincerely, Dr. Brown

Physical Education (PHYSED)

NOTE - ENROLLMENT NOT GUARANTEED FOR STUDENTS OTHER THAN KINESIOLOGY MAJORS. ATTENDANCE AT FIRST CLASS IS MANDATORY TO RESERVE YOUR PLACE IN CLASS

NOTE - COURSES 140, 141, 142, 145, AND 349: CONTACT THE U-M MOVE OFFICE (764-1342 OR U-MOVE@UMICH.EDU) FOR CLASS TIMES AND REGISTRATION INFORMATION.

140  Beginning Swim 1.00

Class will be held in the CCRB Margaret Bell Pool.

Students must register through the Kinesiology Community Programs (KCP) website (kines.umich.edu/community-programs) or in Rm 3064 CCRB and request an override. To drop/request override, contact kebwink@umich.edu. Little or no swim experience? This course is for you. You'll start with entering the pool and getting comfortable. You'll progress to front crawl, back crawl, elementary backstroke, breaststroke, sidestroke, and butterfly. And you'll learn jumping in, treading, and water safety. Goal: one length of the pool. Goggles recommended. Attendance in at least one of the first two classes is mandatory for evaluation or you may lose your spot in class to those on a waitlist. No enrollments are accepted after the class meets a third time.

Class will be held in the CCRB Margaret Bell Pool.

141  Begin Swim II 1.00 ADVISORY

Class will be held in the CCRB Margaret Bell Pool.

Students must register through the Kinesiology Community Programs (KCP) website (kines.umich.edu/community-programs) or in Rm 3064 CCRB and request an override. To drop/request override, contact kebwink@umich.edu. Beginning Swim II is for students who are already comfortable in the water and who can swim across the pool (the short way). The course works on building endurance and improving technique in freestyle, backstroke, elementary backstroke, breaststroke, sidestroke, butterfly, diving and treading water as well as water safety. Flip turns and other activities will be offered as skills advance. Goggles recommended. Attendance in at least one of the first two classes is mandatory for evaluation or you may lose your spot in class to those on a waitlist. No enrollments are accepted after the class meets a third time.

Class will be held in the CCRB Margaret Bell Pool.

142  Intermediate Swim 1.00

Class will be held in the CCRB Margaret Bell Pool.

Students must register through the Kinesiology Community Programs (KCP) website (kines.umich.edu/community-programs) or in Rm 3064 CCRB and request an override. To drop/request override, contact kebwink@umich.edu. Pre-req: Must have ability to swim one length (long way) of each. The strokes will be taken apart and put back together better than before! Other topics covered include laps, treading water, diving and water safety. Goggles recommended. Attendance in at least one of the first two classes is mandatory for evaluation or you may lose your spot in class to those on a waitlist. No enrollments are accepted after the class meets a third time.

143  Lifeguard Training 1.00 ADVISORY 20.00

Class will be held in the CCRB Margaret Bell Pool.

Students must register through the Kinesiology Community Programs (KCP) website (kines.umich.edu/community-programs) or in Rm 3064 CCRB and request an override. To drop/request override, contact kebwink@umich.edu. Pre-req: Must have ability to swim one length (long way) of each. The strokes will be taken apart and put back together better than before! Other topics covered include laps, treading water, diving and water safety. Goggles recommended. Attendance in at least one of the first two classes is mandatory for evaluation or you may lose your spot in class to those on a waitlist. No enrollments are accepted after the class meets a third time.
Students must register through the Kinesiology Community Programs (KCP) website (kines.umich.edu/community-programs) or in Rm 3064 CCRB and request an override. To drop/request override, contact kebwink@umich.edu. Pre-req: Must have ability to swim one length (long way) each of crawl, backstroke and breaststroke. Intermediate swim focuses on refining strokes while building endurance. Each of the strokes will be taken apart and put back together better than before! Other topics covered include laps, treading water, diving and water safety. Goggles recommended. Attendance in at least one of the first two classes is mandatory for evaluation or you may lose your spot in class to those on a waitlist. No enrollments are accepted after the class meets a third time.

This section is held for Kinesiology students. Non-Kinesiology students should wait list under section 011. Because Kinesiology holds SM 100 seats for Kinesiology summer orientation students, overrides for non-Kinesiology students are not issued until post-orientation. Students will receive an email when and if they are issued an override. If students do not receive an override before the first day of class, they are welcome to attend the first day of class and see if the instructor has seats available. As long as students stay on the waitlist, they do not need to call or email to check their status.

This section is held for Kinesiology students. Non-Kinesiology students should wait list under section 012. Because Kinesiology holds SM 101 seats for Kinesiology summer orientation students, overrides for non-Kinesiology students are not issued until post-orientation. Students will receive an email when and if they are issued an override. If students do not receive an override before the first day of class, they are welcome to attend the first day of class and see if the instructor has seats available. As long as students stay on the waitlist, they do not need to call or email to check their status.

This section is held for Kinesiology students. Non-Kinesiology students should wait list under section 013. Because Kinesiology holds SM 101 seats for Kinesiology summer orientation students, overrides for non-Kinesiology students are not issued until post-orientation. Students will receive an email when and if they are issued an override. If students do not receive an override before the first day of class, they are welcome to attend the first day of class and see if the instructor has seats available. As long as students stay on the waitlist, they do not need to call or email to check their status.
This section is held for Kinesiology students. Non-Kinesiology students should wait list under section 014.

Because Kinesiology holds SM 101 seats for Kinesiology summer orientation students, overrides for non-Kinesiology students are not issued until post-orientation. Students will receive an email when and if they are issued an override. If students do not receive an override before the first day of class, they are welcome to attend the first day of class and see if the instructor has seats available. As long as students stay on the waitlist, they do not need to call or email to check their status.

This section is held for Kinesiology students. Non-Kinesiology students should wait list under section 015.

Because Kinesiology holds SM 101 seats for Kinesiology summer orientation students, overrides for non-Kinesiology students are not issued until post-orientation. Students will receive an email when and if they are issued an override. This course takes an in-depth approach to discuss various facets and challenges of leveraging social media to connect with consumers and to leverage marketing efforts. This course will be taught by Professor Ron Wade, a former Director of Marketing of the Detroit Tigers. He was responsible for developing and executing advertising campaign themes and branding for the Tigers over the past 10 years.

Students enrolled in more than five upper division SM courses will be disenrolled from one of the excess courses.

Literature, Sci, and the Arts

IT IS CRITICAL THAT STUDENTS ATTEND CLASSES FROM THE BEGINNING OF THE TERM. EVEN THOUGH STUDENTS MAY BE REGISTERED OFFICIALLY FOR A COURSE, DEPARTMENTS MAY GIVE AWAY A STUDENT'S PLACE IN A CLASS IF THEY DO NOT ATTEND:

---THE FIRST MEETING OF BIOLOGY, CHEMISTRY, AND PHYSICS LABORATORIES;
---EITHER OF THE FIRST TWO MEETINGS OF ENGLISH COURSES;
---THE FIRST TWO MEETINGS OF HISTORY 396 AND 397;
---EITHER OF THE FIRST TWO MEETINGS OF ANY COURSE OFFERED BY THE DEPARTMENT OF ROMANCE LANGUAGES;
---THE FIRST TWO MEETINGS OF COURSES IN OTHER SUBJECTS.

AT THE SAME TIME, DEPARTMENTS ARE NOT OBLIGATED TO WITHDRAW STUDENTS OFFICIALLY FROM THE COURSE, EVEN THOUGH THE STUDENT HAS BEEN INFORMED THAT HIS/HER PLACE IN A COURSE HAS BEEN TAKEN AWAY. STUDENTS ARE RESPONSIBLE FOR THE ACCURACY OF THEIR SCHEDULES AND MUST BE SURE THAT ALL DROPS ARE PROCESSED THROUGH REGISTRATION SYSTEM DURING THE NORMAL DROP/ADD PERIOD.

ALL DISCUSSION SECTIONS BEGIN TUESDAY, SEPT. 8.

Disease, Pandemics, & Vaccines

Please be advised that the registration process and restricted seating/enrollment management for First Year Seminars (FYS) are managed by the LSA Dean's Office. For additional information regarding this process, please visit the FYS FAQ https://lsa.umich.edu/lsa/academics/engaged-learning/first-year-seminars

Introduction to Biology: EEB

THE FIRST LECTURE WILL BE HELD MON. AUG 31. DISCUSSION SECTIONS BEGIN THE WEEK OF ____. EXAMS WILL BE GIVEN WEDS., 6-8PM, SEPT. 23, OCT. 21, AND NOV. 18. Students should leave 6-8PM on Wed. open for exams.

THE FIRST LECTURE WILL BE HELD MON. AUG 31. DISCUSSION SECTIONS BEGIN THE WEEK OF ____. EXAMS WILL BE GIVEN WEDS., 6-8PM, SEPT. 23, OCT. 21, AND NOV. 18. Students should leave 6-8PM on Wed. open for exams.

THE FIRST LECTURE WILL BE HELD MON. AUG 31. DISCUSSION SECTIONS BEGIN THE WEEK OF ____. EXAMS WILL BE GIVEN WEDS., 6-8PM, SEPT. 23, OCT. 21, AND NOV. 18. Students should leave 6-8PM on Wed. open for exams.

THE FIRST LECTURE WILL BE HELD MON. AUG 31. DISCUSSION SECTIONS BEGIN THE WEEK OF ____. EXAMS WILL BE GIVEN WEDS., 6-8PM, SEPT. 23, OCT. 21, AND NOV. 18. Students should leave 6-8PM on Wed. open for exams.
THE FIRST LECTURE WILL BE HELD MON., AUG 31. DISCUSSION SECTIONS BEGIN THE WEEK OF ____. EXAMS WILL BE GIVEN WEDS., 6-8PM, SEPT. 23, OCT. 21, AND NOV. 18. Students should leave 6-8PM on Wed. open for exams.

HONORS STUDENTS ENROLL IN DISCUSSION SECTION 200 OR 201.

THE FIRST LECTURE WILL BE HELD MON., AUG 31. DISCUSSION SECTIONS BEGIN THE WEEK OF ____. EXAMS WILL BE GIVEN WEDS., 6-8PM, SEPT. 23, OCT. 21, AND NOV. 18. Students should leave 6-8PM on Wed. open for exams. This section is reserved for CSP students. Please contact CSP for more information at 764-9128 or csp-4info@umich.edu.

--LECTURE 005 - STUDENTS MUST ELECT DISCUSSION 100 or 101.

This section is reserved for CSP students during the early registration period. Any undergraduate student may join the waitlist once the section is closed. Given the enrollment restrictions, most sections may not close until early August. On 08/18/2020 any remaining available seats will be released for any undergraduates who wish to register. Waitlisted students should attend the first class meeting for override consideration. 17 seats reserved for first or second year CSP students, 10 seats reserved for first year, Summer Bridge scholars, 2 seats reserved for any CSP students. This section is reserved for CSP students. Please contact CSP for more information at 764-9128 or csp-4info@umich.edu.

--SECTION 300 - STUDENTS MUST ELECT SECTION 310-351.

--SECTION 400 - STUDENTS MUST ELECT DISCUSSION 410-414. The intensive lecture section (Section 400) is intended for those students who would benefit from a smaller lecture section (maximum 100 students) and more lectures so that the pace is slower and there is more feedback. This section is reserved for CSP students and students who have placed into CHEM 130.

The majority of seats for this section are reserved for students in the Comprehensive Studies Program. A limited number of seats are available to any undergraduate student during early registration.

15 seats reserved for any CSP students,
5 seats reserved for any undergraduate students.

Any undergraduate student may join the waitlist once the section is closed. Given the enrollment restrictions, most sections may not close until early August. On 08/18/2020 any remaining available seats will be released for any undergraduates who wish to register. Waitlisted students should attend the first class meeting for override consideration.

211 Invest Chem 2.00 ADVISORY 100.00
STUDENTS MUST SHOW VERIFICATION OF REGISTRATION FOR CHEM 211 AT LAB CHECK IN AND CLAIM THEIR SPACES AT THE FIRST MTG OF THE LAB.

STUDENTS ARE AUTO-ENROLLED IN LECTURE WHEN THEY ELECT A LAB.

NOTE: Although concurrent (or prior) enrollment in Chem 210 is an advisory, rather than enforced, pre/co-requisite, it is EXTREMELY STRONGLY RECOMMENDED. The topic of stereochemistry is prominent in Chem 211, and the class will be very challenging for students who are not currently (or have not previously) taken Chem 210.

Any questions regarding enrolling for this course should be directed to the Chemistry Student Services Office at chemundergrad@umich.edu.

Comprehensive Studies Program

Comprehensive Studies Program (CSP)

100  CSP Reading Sem  3.00  45.00
The majority of seats for this section are reserved for students in the Comprehensive Studies Program. A limited number of seats are available to any undergraduate student during early registration.

11 seats reserved for first or second year CSP students,
2 seats reserved for Third or Fourth Year CSP students,
2 seats reserved for any undergraduate students.

Any undergraduate student may join the waitlist once the section is closed. Given the enrollment restrictions, most sections may not close until early August. On 08/18/2020 any remaining available seats will be released for any undergraduates who wish to register. Waitlisted students should attend the first class meeting for override consideration.

Insiders & Outsiders
English Language Institute

English Language Institute (ELI)

ELI courses fall into three categories:
1. English for Academic Purposes courses for graduate students;
2. Language and teacher training courses for international GSIs;
3. Teacher training courses for students planning to teach ESL in local communities or abroad.

For assistance in choosing an appropriate course, please go to the ELI Academic Advising website: http://bit.ly/eliadvising or e-mail: eliadvisor@umich.edu to make an appointment to speak with an advisor.

131 Interactive Comm 1.00

This section is reserved for CSP students during the early registration period. Any undergraduate student may join the waitlist once the section is closed. Given the enrollment restrictions, most sections may not close until early August. On 08/18/2020 any remaining available seats will be released for any undergraduates who wish to register. Waitlisted students should attend the first class meeting for override consideration.

</table>

This section is reserved for CSP students during the early registration period. Any undergraduate student may join the waitlist once the section is closed. Given the enrollment restrictions, most sections may not close until early August. On 08/18/2020 any remaining available seats will be released for any undergraduates who wish to register. Waitlisted students should attend the first class meeting for override consideration.

15 seats reserved for first or second year CSP students,
3 seats reserved for any undergraduate students.

FA 2020 2310 06-19-2020 12:06 22944686
21831 P RW SEM 001 TTH 230-4PM 3540 NUB Ruff
First Year Seminar. Seats in First Year Seminars are opened gradually during Summer Orientation. Only first-year students, including those with sophomore standing, may register.

148 Environmental Geol 3.00 ADVISORY
24063 P RW SEM 001 MW 10-1130AM 3540 NUB Ruff
First Year Seminar. Seats in First Year Seminars are opened gradually during Summer Orientation. Only first-year students, including those with sophomore standing, may register.

151 Ice Ages:Past & Pres 3.00 ADVISORY
29477 P RW SEM 001 TTH 1130-1PM 2504 NUB Robbins
First Year Seminar. Seats in First Year Seminars are opened gradually during Summer Orientation. Only first-year students, including those with sophomore standing, may register.

154 Ocean Resources 3.00 ADVISORY
28014 P RW SEM 002 MW 10-1130AM 3540 NUB Alt
First Year Seminar. Seats in First Year Seminars are opened gradually during Summer Orientation. Only first-year students, including those with sophomore standing, may register.

201 Intro Geography 4.00
12234 A LEC 001 TTH 1130-1PM 1528 NUB Gleason

206 Water Cycle & Envir 2.00
29473 P RW SEM 001 TTH 1-2PM 1528 NUB Ruff

218 Intro Envr Sci Lab 1.00 ENFORCED
32296 P RW LAB 002 M 3-5PM 2516 NUB Mehling
32297 P RW LAB 003 M 5-7PM 2516 NUB Mehling
32298 P RW LAB 004 T 1-3PM 2516 NUB Mehling
32299 P RW LAB 005 T 3-5PM 2516 NUB Mehling

219 Intr Envr Science 3.00
27969 P W LEC 001 TTH 1-230PM 1528 NUB Blum
To enroll in the Intro Environmental Science Lab, enroll in any section of EARTH 218. Students are strongly encouraged to enroll in both EARTH 219 and 218.

222 Intro Oceanog 3.00
12236 P W LAB 001 MW 1-230PM 1528 NUB Ruff
To enroll in the Intro Oceanography Lab, enroll in any section of EARTH 222. Students are strongly encouraged to enroll in both EARTH 221 and 222.

223 Intro Ocean Lab 1.00
12237 P W LAB 002 W 3-5PM 2516 NUB Mehling
Students who register for EARTH 223 must also be enrolled in EARTH 222.

296 Topics Earth Env Sci 1.00-5.00 25.00
33276 PD W LEC 002 TTH 10-1130AM 2504 NUB Dick

299 Ind Study EARTH 1.00-6.00
SIR IND + ARR

305 Sediments 4.00 ADVISORY
21828 A R LEC 001 MWF 9-10AM 2520 NUB Lohmann

Economics (ECON)
101 Principles Econ I 4.00 ADVISORY

Students will be auto-enrolled in LEC 100 when they elect DIS 101-115.

There will be three midterms for this course: 6-8pm on 9/30 and 11/4, and 1:30-3:30pm on 12/16. All exams must be taken on the assigned dates and times. If you cannot take these exams as scheduled, please register for an open section in another lecture of Econ 101. No exceptions will be made to these exam dates and times.

No overrides will be issued for this class.

There will be three midterms for this course: (8-10pm on 10/6, 11/5, 12/3). All exams must be taken on the assigned dates and times. If you cannot take these exams as scheduled, please register for an open section in another lecture of Econ 101. No exceptions will be made to these exam dates and times.

No overrides will be issued for this class.

This section is reserved for CSP students during the early registration period. Any undergraduate student may join the waitlist once the section is closed. Given the enrollment restrictions, most sections may not close until early August. On 08/18/2020 any remaining available seats will be released for any undergraduates who wish to register. Waitlisted students should attend the first class meeting for override consideration.

Conn Aut Veh Algorith Discrim
This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). Human drivers make conscious and unconscious choices that have invidious discriminatory implications, from what neighborhoods to drive through or avoid, to how to interact with other drivers based on perceived demographic features. Robotic driving may eliminate some social biases but create many others through machine learning. Multi-disciplinary student teams will apply problem solving tools, learn from experts who view this problem from various lenses, explore potential rules, metrics, tests, and safe harbors that could address algorithmic discrimination, and craft innovative solutions.

This class is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Non-law graduate/professional students may apply for the course using the PSI application system (https://problemsolving.law.umich.edu/) March 16-29, 2020. After the initial application period, students seeking to apply can contact problemsolving@umich.edu.

Fixing Foster Care
This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). Lengthy stays in foster care harm children, and children who leave foster care continue to experience instability in a variety of settings. These challenges are compounded by actions taken by courts and welfare agencies. In this class, multi-disciplinary teams of students will study problems with the foster care system, learn from stakeholders, hear from leading experts, and apply problem solving techniques to craft solutions.

This class is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Non-law graduate/professional students may apply for the course using the PSI application system (https://problemsolving.law.umich.edu/) March 16-29, 2020. After the initial application period, students seeking to apply can contact problemsolving@umich.edu.

U of M Schedule of Classes | Page 213 of 499
History Department

History (HISTORY)

--IT IS CRITICAL THAT STUDENTS ATTEND CLASS FROM THE BEGINNING OF THE TERM. ALTHOUGH STUDENTS MAY BE OFFICIALLY REGISTERED FOR A COURSE, THE DEPARTMENT MAY DISENROLL ANY STUDENT NOT ATTENDING THE FIRST TWO COURSE MEETINGS.
--DISCUSSION SECTIONS DO NOT MEET UNTIL AFTER FIRST LECTURE.
--STUDENTS SHOULD REGISTER ON THE WAITLIST FOR ANY CLOSED COURSE. STUDENTS ARE NOTIFIED AND GIVEN TWO DAYS TO USE THE OVERRIDE, AFTER WHICH THE SPOT MAY GO TO AN ALTERNATE STUDENT ON THE WAITLIST. ONCE CLASSES HAVE STARTED, STUDENTS (WAITLISTED OR NOT) MUST CONTACT THE INSTRUCTOR FOR AN OVERRIDE.

This section is reserved for CSP students during the early registration period. Any undergraduate student may join the waitlist once the section is closed. Given the enrollment restrictions, most sections may not close until early August. On 08/18/2020 any remaining available seats will be released for any undergraduates who wish to register. Waitlisted students should attend the first class meeting for override consideration.

15 seats reserved for any CSP students.

This course meets the first 7 weeks of the term.

Gene Regulation

MCDB 600 section 001 will meet with MCDB 527.002 in 1650 CHEM.

Pathogenic Yeast

MCDB Neurobiology

MCDB 600 section 003 will meet in 1010 BSB.

Plant Molecular & Cell Biology

MEETS SEPT 3 - 28.

This lecture is for Genetics Training Program current and past trainees. Class meets every other Monday.

This course meets with EEB 801

Students should elect PHYSICS 141 as the corresponding laboratory course.

Students should elect PHYSICS 141 as the corresponding laboratory course.

This section of PHYSICS 140 varies from the traditional lecture model of the course. The Physics Department is piloting a new "studio" instruction model with this section.

Students should elect PHYSICS 141 as the corresponding laboratory course.

Students should elect PHYSICS 141 as the corresponding laboratory course.

Please make sure this lab section does not conflict with evening exams for other courses.

Students should elect PHYSICS 141 as the corresponding laboratory course.

Students should elect PHYSICS 141 as the corresponding laboratory course.

Please make sure this lab section does not conflict with evening exams for other courses.

Please make sure this lab section does not conflict with evening exams for other courses.

Please make sure this lab section does not conflict with evening exams for other courses.

Please make sure this lab section does not conflict with evening exams for other courses.

Please make sure this lab section does not conflict with evening exams for other courses.

Please make sure this lab section does not conflict with evening exams for other courses.

Please make sure this lab section does not conflict with evening exams for other courses. NOTE: If you are enrolled in PHYSICS 135 during the same term, this section conflicts with the evening exam and should not be taken concurrently with the lecture. No alternate exams will be given to students enrolled in this lab section and PHYSICS 135.

Students should elect PHYSICS 141 as the corresponding laboratory course.
This section of PHYSICS 140 varies from the traditional lecture model of the course. The Physics Department is piloting a new “studio” instruction model with this section.

Students should elect PHYSICS 141 as the corresponding laboratory course.

The majority of seats for this section are reserved for students in the Comprehensive Studies Program. A limited number of seats are available to any undergraduate student during early registration.

20 seats reserved for any CSP students,
5 seats reserved for any undergraduate students.

Any undergraduate student may join the waitlist once the section is closed. Given the enrollment restrictions, most sections may not close until early August. On 08/18/2020 any remaining available seats will be released for any undergraduates who wish to register. Waitlisted students should attend the first class meeting for override consideration.

Students should elect PHYSICS 141 as the corresponding laboratory course.

Psychology Department

Psychology (PSYCH)

---IT IS CRITICAL THAT STUDENTS ATTEND CLASSES FROM THE BEGINNING OF THE TERM. EVEN THOUGH STUDENTS ARE REGISTERED OFFICIALLY FOR A COURSE, THE DEPARTMENT MAY REQUEST THAT THEY BE DISENROLLED IF THEY DO NOT ATTEND INITIAL CLASSES.

111 Intro to Psych 4.00

Students are auto-enrolled in LEC 001 when they elect a DIS 002-013.

All sections meet from the 1st day of class, even if they occur before the 1st lecture.

112 Psy as Natl Science 4.00

Students are auto-enrolled in Lec 001 when they elect a Dis 002-013.

All sections meet from the 1st day of class, even if they occur before the 1st lecture.
All sections meet from the 1st day of class, even if they occur before the 1st lecture.

- **CR** 3.00
- **Instructor** Moutinou
- **Prerequisite** ENFORCED

### Intermed Bus French

- **Class #** 399
- **Code** P RW REC 001
- **Days** TTH
- **Time** ARR
- **Location** ARR
- **CR** 1.00-3.00
- **Instructor** ENFORCED

### Independent Study

- **Class #** 491
- **Code** P RW REC 001
- **Days** MW
- **Time** 2-5PM
- **Location** 4309 MLB
- **CR** 1.00-3.00
- **Instructor** Caron
- **Prerequisite** ENFORCED

### Senior Honors

- **Class #** 991
- **Code** P RW REC 001
- **Days** MW
- **Time** 2-5PM
- **Location** 4309 MLB
- **CR** 1.00-3.00
- **Instructor** Caron
- **Prerequisite** ENFORCED

### Spec Topics Sem

- **Class #** 855
- **Code** P RW REC 001
- **Days** M
- **Time** 2-5PM
- **Location** 4309 MLB
- **CR** 3.00
- **Instructor** Caron
- **Prerequisite** ENFORCED

---

### Italian (ITALIAN)

-- A student who misses either of the first two meetings of any course offered by the Department of Romance Languages may be dropped from the course for non-attendance.

-- Students with any previous study of Italian must take the Italian placement test before enrolling. Placement test dates are online at: www.lsa.umich.edu/rll/undergraduate/languageplacement/languageplacementtests.

-- All students must take action through the registration system to make sure that their official schedule of courses matches the courses they are attending.

#### Elementary

- **Class #** 101
- **Code** P RW REC 001
- **Days** MTTHF
- **Time** 8-9AM
- **Location** 3304 MLB
- **CR** 4.00
- **Instructor** ADVISORY, ENFORCED

The textbook can be purchased through the online bookstore or directly from the publisher at http://vistahigherlearning.com/store/umichigan.htm

#### Second Year

- **Class #** 231
- **Code** P RW REC 001
- **Days** MTTHF
- **Time** 9-10AM
- **Location** 2401 MH
- **CR** 4.00
- **Instructor** ENFORCED

The textbook can be purchased through the online bookstore or directly from the publisher at http://vistahigherlearning.com/store/umichigan.htm

#### Second Year Cont

- **Class #** 232
- **Code** P RW REC 001
- **Days** MTTHF
- **Time** 10-11AM
- **Location** 2401 MH
- **CR** 4.00
- **Instructor** ADVISORY, ENFORCED

The textbook can be purchased through the online bookstore or directly from the publisher at http://vistahigherlearning.com/store/umichigan.htm

---

### Italian Mafia

- **Class #** 240
- **Code** P RW REC 001
- **Days** MW

Writing 100 is designed to help students of all levels improve their writing, but is best suited to those who have yet to fulfill the First-Year Writing Requirement. Upper-level students should have a compelling academic reason for enrolling in Writing 100.

Normal waitlist procedures apply for students who attend the first two classes. Students who wish to join Writing 100 after the first two class sessions must email the instructor to set up a meeting to discuss enrolling. Based on this discussion, the student and instructor will then make a determination on whether or not it is appropriate for the student to enroll.

# Sociology Department

**Sociology (SOC)**

--IT IS CRITICAL THAT STUDENTS ATTEND CLASSES FROM THE BEGINNING OF THE TERM. EVEN THOUGH STUDENTS MAY BE REGISTERED OFFICIALLY FOR A COURSE, THE DEPARTMENT MAY GIVE AWAY PLACES IN A COURSE IF STUDENTS DO NOT ATTEND THE FIRST TWO COURSE MEETINGS.

--TO ASSIST THE STUDENT IN SELECTING COURSES, PAST COURSE SYLLABI ARE AVAILABLE AT: www.lsa.umich.edu/soc/syllabi.

## 100 Intro to Sociology

STUDENTS ARE AUTO-ENROLLED IN LEC 001 WHEN THEY ELECT A DIS (002-011).

Review session will be offered and recommended!
Graduate students will have additional work to complete for this course.

This lecture is for Genetics Training Program current and past trainees. Class meets every other Monday.

Micro Grad Students Only

Graduate students will have additional work to complete for this course.

Meet in room 3813/17 Med Sci II except 9/17, 9/26, 12/5, 12/10 which will be in 2903 THSL.

310 has been approved as an elective for CMB, Neuroscience and Biomolecular Science majors, and as a cognate for Biology majors.

Meet in room 2903 THSL except 9/12 and 9/26 which will be in SLH-3699 Med Sci II and various small group break-out rooms (to be announced). Priority enrollment is reserved for doctoral students in the Medical School's 14 programs under PIBS. Email pharminquiries@umich.edu with your UMID number to request permission to enroll.

Meet in room 2901 THSL except 9/18 which will meet in 3813/17 Med Sci II.

This course is limited to students appointed to the PSTP training grant. This course meets at 4:30pm on 9/30, 10/28, 11/11, and 12/2 in 2813 Med Sci II.

Meet in room 2817 Med Sci II except 10/8 which will be in 5915 Buhl.

Meet in room 2817 Med Sci II except 10/8 which will in 3813 Med Sci II.

Meet in room 2817 Med Sci II except 10/8 which meets in 3817 Med Sci II.

Meet in room 2817 Med Sci II except 10/8 which are in 2813 Med Sci II.

Meet in room 3817 Med Sci II except 10/8 which will meet in 6000 THSL and 12/10 in 5000 THSL.

Meet in room 3817 Med Sci II except 9/10, 10/8 which will meet in 6000 THSL.

Meet in room 2817 Med Sci II.

Only for Pharmacology Graduate Students. Meets in room 2901 THSL.

Classes will be held in 3797 Med Sci II.

21539  PDR LAB 002  T 1-3PM  ARR  Houchin

This section is reserved for MS Physiology students.
Classes will be held in 3797 Med Sci II.

26970  PDRW LEC 001  TTH 10-1130AM  ARR  Oakley

The course is a mixture of undergraduate (Physiology 406) and MS in Physiology (Physiology 506) students. It is predicted that half the open registration slots for combined Physiology 406/506 will be open for Physiology 406.

Because this combined Physiology 406/506 course is restricted to a limited number of students and Physiology 506 is a required course for a subset of master's students (whose course schedules are not set until the end of summer term), enrollment for Physiology 406 is BY WAITLIST ONLY. Overrides will be issued by the department as space becomes available, which may occur after the first course meeting. As such, interested students on the waitlist must attend the first class. An enrolled student who does not attend the first meeting may be dropped from the course for non-attendance. Students will be notified and given up to 4 days to use the override, after which the spot will go to an alternate student on the waitlist.

502  Human Physiology
4.00  ADVISORY
20638  P W LEC 001  MW 830-10AM  ARR  Houchin

This course will be offered during the Fall Term only. Please disregard any conflicting information in the LSA Course Guide. Wolverine Access information is correct. Undergraduate students who have completed the pre-requisites are welcome to enroll.

Advisory prerequisites: one college-level course in Biology with Biochemistry.

505  Physiol Lab
24797  PIR LAB 001  F 1230-330PM  ARR  Houchin

Classes will be held in 3797 Med Sci II.

26971  PDRW LEC 001  TTH 10-1130AM  ARR  Oakley

Students must attend the first class; an enrolled student who does not attend the first meeting may be dropped from the course for non-attendance. Undergraduate students are not eligible to register for Physiology 506; they are eligible to register for Physiology 406.

519  Quantitative Physiol
576  Signal Transduction
26444  P LEC 001  MWF 10-11AM  7745 MSC2  Shikanov

577  Membrane&Cell Phys
26446  P LEC 001  ARR  2.00  ADVISORY

591  Signal Transduction
15051  P W LEC 001  T 2-4PM  7745 MSC2  Lee, Xu, Rui, Yin, Mortensen

599  Grad Ind Research
1602  Meth Res Physiolog
1951  Meth Res Physiolog

602  MS Seminar Physiol
21677  PD SEM 001  W 3-4PM  ARR  Oakley, Brown

Class location and time will be determined at a later date.

606  Current Topics
12999  P SEM 001  M 4-5PM  7745 MSC2  Moenter, Shah, Boggs, Yin

615  Tech Phys Instructn

Class meets in 5050 Brehm Tower

Music, Theatre & Dance

--Performance Instruction in the School of Music (Individual Studio Assignment in Music Performance): All students requesting performance instruction must apply online at https://smtd.umich.edu/current-students-2/policies-procedures/academic-procedures/#mfw-accordion-action-11, click on the 'students' tab and then click on the 'online individual studio assignment in music performance' form. Do not register until you have received an email verifying placement in a studio.

Department Of Dance

Dance (DANCE)

100 Intro to Dance 1.00 ADVISORY
20715 P W LAB 001 MW 9-10AM DANCE STUDIO A Rosario
Modern
21334 P W LAB 002 MW 9-10AM DANCE STUDIO B Rutherford
African/Modern Fusion

This beginner level course will introduce students to dance styles originating from the African Diaspora. Students will learn fundamentals of movement derived from West African, Caribbean, and African American forms and will gain historical and cultural context of these styles. Throughout the course, we will discover how these techniques inform and influence American modern dance and use those principles to create unique and diverse movement scores.

20716 P W LAB 003 MW 9-10AM DANCE STUDIO D Mitchell
Tap

This is an introductory level course that will cover the history and fundamentals of tap dance. We will focus on rhythm, musicality, and basic tap technique, and also discuss the evolution of tap dance from its folk origins to the hoofing and broadway styles popular today. This class will improve your rhythm, coordination and expand your knowledge of American tap dance. No prior dance experience is required. Tap shoes are recommended but not required.

20717 P W LAB 004 MW 10-11AM DANCE STUDIO A Rosario
Modern Taught by dance students enrolled in DANCE 481.001.
20718 P W LAB 005 MW 10-11AM DANCE STUDIO B O'Donnell
Ballet

Ballet promotes strength, flexibility, balance, form, and aplomb! As we practice technique and alignment, students are encouraged to aim for expression over perfection. Classes begin at the barre, followed by center exercises, traveling across the floor, and ending with a reverence (bow). We will stretch and breathe throughout, finding connection to our movement. The origins of the art form will be discussed, along with basic French terminology, character work, and pantomime.

Intro to Voguing

In this course, we will study Voguing as a form of contemporary dance performance. Voguing arose from the 1930s Harlem Ballroom scene and has evolved into more intricate and varied subcategories of style and execution. Throughout the semester, we will focus on the improvisational nature of the five elements of Voguing, which are hands/arm control, catwalk, duckwalk, floor performance, and spin/dip, as well as its aesthetics. We will foster our own fierce individuality and creativity to understand how this form is a practice of freedom.

This course is designed for first-year and transfer students to navigate through their first semester as college students. Throughout the course, students will be provided with tools to make informed choices about nutrition, injury prevention, balancing physical practice with academic requirements, and will be taught how to navigate advanced studies in dance within the university culture.

This class will be meeting in OBL3100.

Anatomy and Physiology for Dancers

Course Description:
The Dancer is a body-aware performer, who requires understanding of how their body works and knowledge of how the different parts of their body work together to optimize their movement. This course will give an overview of the musculoskeletal anatomy and its association to movement, common dance injuries linked to specific anatomy, with interaction of physiological systems into whole body anatomy. Injury risk screening will also be discussed to assess understanding of this material and its application to the individual dancer.

Upon completion of this class, you should be able to:
- Describe anatomical positioning, planes of motion, and basic joint movements.
- Summarize and comprehend musculoskeletal anatomy pertinent to dance movement.
- Recognize the anatomy of the Nervous, Lymphatic, Circulatory, Respiratory, Integumentary Systems and contributions toward dance movement and injury.
- Realize the effects of injury on body tissue and systems and the timeline of body tissue healing.
- Understand what happens anatomically in concussion and how to utilize return to learn and return to performance progressions.
- Express areas of concern to screening the body for musculoskeletal injury risk and how it relates individually to the dancer.

537 ST: Choreography Special Topics in Choreographic Approaches: Art and Ecology - Prioritizing making-as-research, this course will investigate the ways in which nature and culture are never mutually exclusive, and the role of art in our current political-social-ecological climate. What becomes possible when we design choreographic/art-making processes that directly reflect and challenge broader quotidian movement systems, such as urban infrastructures and ecosystems, systemic inequalities, activism models, and interspecies relationships? By developing creative projects through local site visits and field work relevant to individual research interests, we will unearth the ways in which art does not only reflect the material world around us, but can create and/or change it.
No prior experience is required in any specific field or discipline.
This class meets in Studio B in the Dance Building.

Learn to play the dynamic, subtle, transcendent music of the Javanese Gamelan! These classes are for people who want to experience a musical tradition totally different from western folk, rock or classical music. The gamelan is an ensemble of gongs, metallophones, drums, xylophone, a few stringed instruments, and singers. No previous knowledge of Indonesia or of music is expected. These courses are open to all students, undergraduate and graduate in all departments of the university. For information contact Susan Walton swalton@walton

Guitar (GUITAR)

111 Intro Guitar
26980 P W REC 001 TTH 10-11AM 506 BMT

Popular Styles
Guitar 111 is for beginners - those who have never played guitar or who have very little experience. If you do not own a guitar one will be provided for you to use during the semester. This is not a class for intermediate or advanced guitarists. If you have playing experience, please register for GUITAR 112.
The purpose of GUITAR 111 is to help students develop their guitar skills, with a primary focus on using the guitar as an accompaniment instrument. Right Hand skills covered will include finger picking, flat picking, and a variety of strumming patterns. Left Hand skills will include open chords, barre chords, melody chords, and basic scale patterns. Introduction to reading of standard music notation, guitar tablature, and chord symbols will be covered. Other topics that will be presented include improvisation, playing by ear, and using the capo for transposition.

Popular Styles

112 Intermediate Guitar 2.00 ADVISORY

Guitar 112 is for intermediate level guitarists - who have played guitar previously. You should have some experience playing open chords, strumming, and either finger picking or flat picking. Some experience reading chord symbols, tablature, and/or standard music notation is helpful. If you do not have any previous experience please register for GUITAR 111.

You must have your own acoustic steel string or nylon string acoustic guitar for GUITAR 112.

GUITAR 112 will continue developing the skills introduced in GUITAR 111. Right Hand skills covered will include finger picking, flat picking, and a variety of strumming patterns. Left Hand skills will include open chords, barre chords, melody chords, pentatonic, blues, major, and minor scale patterns. Reading of standard music notation, guitar tablature, and chord symbols will be included. Other topics that will be covered include improvisation, playing by ear, and using the capo for transposition.

Harp (HARP)

1355 Performance Lab 1.00

2123 Harp (HARP) 1.00

Jazz & Improvisational Studies (JAZZ)

220 Basic Musicianship I 3.00 ADVISORY

450 Contemplatv Prac Sem 2.00 ADVISORY

454 Special Topics 1.00-2.00

Fund Rhythm A

Fundamentals of Rhythm A: The Grid

This course is taught entirely by ear, without instruments or written materials. We will explore rhythms on human made grid systems such as even pulses, quantized subdivisions, metric cycles and song forms. Students will develop rhythmic accuracy, beginning with linear figures and working towards polyrhythmic structures. Special emphasis will be given to rhythmic concepts from India, West Africa, and other oral traditions that fall outside of the typical Western canon. All work will be done with singing and clapping in order to develop hearing, memory, and internalization. The second semester will continue with "Fundamentals of Rhythm B: The Continuum."

460 Intro to Jazz Improv 3.00

462 Jazz Trom Ens 1.00-2.00

466 Jazz Improvisin I 3.00 ADVISORY

468 Jazz Composition I 2.00

469 Jazz Arranging I 2.00 ADVISORY

Class meets in the Duderstadt Center Windows Training Room 3.

471 Jazz Improvisin III 3.00 ADVISORY

474 Jazz Pedagogy 1.00 ADVISORY

550 Contemplatv Prac Sem 2.00

**Music in Political Film**

How does music affect our perception of political films? How does music manipulate our feelings for or against the subject matter? In this course we will survey some of the major films in this genre, beginning with "Battle of the Somme" (1916) and ending with recent political films. In addition to readings on the political/historical topic, we will learn basic terminology and analytical techniques for film music.

How does music affect our perception of political films? How does music manipulate our feelings for or against the subject matter? In this course we will survey some of the major films in this genre, beginning with "Battle of the Somme" (1916) and ending with recent political films. In addition to readings on the political/historical topic, we will learn basic terminology and analytical techniques for film music.

Intro to Performing Art Unions
This is a one credit class. Junior or Senior. Students will explore why performing arts unions came into being, what some of them are, and how they impact the lives of performing artists, managers and producers. Evaluation is based on attendance, preparatory research, written assignments, and collaborative discussions and projects. 4.5 hours/week of work outside class is expected.

Contemp Plays on Race in Amer
Meets with RCHUMS 282.001
In this four credit drama course students will explore major American plays of the 20th century through the process of text analysis through performance. We will work on plays by major writers such as Arthur Miller, Tennessee Williams, Lorraine Hansberry, Sam Shepard and Tony Kushner. For each play we will discuss dramaturgical background, script and character analysis and put scenes on their feet for constructive critique. Written assignments will center on a journal which will include a series of actor's explorations of motivations and actions. Students will also be responsible for writing critiques of two productions. The course culminates in a public performance of a cutting of a major play, most likely Tony Kushner's "Angels in America."

Image of the American Family
This interdisciplinary course examines practices, processes, and theories of producing independent theatre and performance in the United States in the 21st Century. The course will include theoretical readings and discussions, occasional field trips to Detroit, and guest speakers from the Detroit cultural landscape. The term &quot;producer&quot; will take on all the many forms it does in the theatre -- producer of: artworks, goods, services, spaces, experiences, capital, etc. Students will be expected to produce scholarly as well as creative responses to course material.

Note: The above table represents a portion of the course schedule from the University of Michigan for the Fall 2020 semester. Each row includes the course code, title, credit hours, days, time, location, instructor, and any prerequisites. The schedule is organized by the University of Michigan's Schedule of Classes.
This transdisciplinary course welcomes students from any discipline. It provides far-ranging views of core concepts for understanding and responding to mitigate adverse effects of trauma exposures on individuals, families, groups, and populations and to promote resilience, recovery, and posttraumatic growth. The over-arching goal is to acquaint students with rich perspectives on trauma across health and social sciences, humanities, and practice disciplines to inform their capacity to respond to trauma as citizens, professionals, and scholars.

Social Work students should only enroll in SW 540 and submit the Course Enrollment Petition via the SSW web site. Nursing students should only enroll in HS 540 (check with your home unit on how best to submit a request to enroll). Education students should only enroll in EDUC 540 (check with your home unit on how best to submit a request to enroll).

Even if it appears there is space students enrolling in the course outside of their home school may be dropped from the course. For individual needs to register under a different school’s number (i.e. cognate) please notify your home unit to determine if an exception can be made.

This course is now being delivered on-line. All pre-learning work must be complete prior to the required workshop on October 3.

Outside of Class Pre-learning work begins: 8/31/2020
All Day Virtual Workshop: 10/3/2020
Outside of Class Post-work final assignment: 10/9/2020
This is a digital education course.

This transdisciplinary course welcomes students from any discipline. It provides far-ranging views of core concepts for understanding and responding to mitigate adverse effects of trauma exposures on individuals, families, groups, and populations and to promote resilience, recovery, and posttraumatic growth. The over-arching goal is to acquaint students with rich perspectives on trauma across health and social sciences, humanities, and practice disciplines to inform their capacity to respond to trauma as citizens, professionals, and scholars.

Biology students must enroll in HS 700 (check with your home unit on how best to submit a request to enroll). Social Work students must enroll in SW 700 (check with your home unit on how best to submit a request to enroll).

This class is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.
Non-law graduate/professional students may apply for the course using the PSI application system (https://problemsolving.law.umich.edu/) March 16-29, 2020. After the initial application period, students seeking to apply can contact problemsolving@umich.edu.

34081 PD LAB 002 W 315-630PM 0220 JEFFRIES Sankaran, Ryan, Carr

Fixing Foster Care
This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). Lengtly stays in foster care harm children, and children who leave foster care continue to experience instability in a variety of settings. These challenges are compounded by actions taken by courts and welfare agencies. In this class, multi-disciplinary teams of students will study problems with the foster care system, learn from stakeholders, hear from leading experts, and apply problem solving techniques to craft solutions.

This class is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Non-law graduate/professional students may apply for the course using the PSI application system (https://problemsolving.law.umich.edu/) March 16-29, 2020. After the initial application period, students seeking to apply can contact problemsolving@umich.edu.

34089 PD LAB 003 W 315-630PM 1060 JEFFRIES Bagley, Warsh, Carr

Obstacles Prov Soc Services
This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). In the U.S., the federal government funds key social services. However, individual states oversee the provision of those services, and in Michigan, DHHS administers programs like SNAP, Medicaid, and WIC. Many challenges complicate social services delivery, including communicating effectively with beneficiaries, ensuring disparate programs function in tandem, and guaranteeing programs help people as intended. In this class, multi-disciplinary student teams will conduct research, apply problem solving skills, and engage with experts to develop solutions to these challenges.

This class is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Non-law graduate/professional students may apply for the course using the PSI application system (https://problemsolving.law.umich.edu/) March 16-29, 2020. After the initial application period, students seeking to apply can contact problemsolving@umich.edu.

This course is open to students entering their final year in the BSPS program. Students will be required to attend fall term seminars offered by the Department of Clinical Pharmacy, Medicinal Chemistry, or Pharmaceutical Sciences (other program related seminars with permission). Please see Department websites for seminar schedules. Additional information will be provided at the first class meeting.

Health Management And Policy

Health Management And Policy (HMP)

This is a course for the students in the HMP Executive Masters program only.

Section 777 of this course is reserved for students in the Executive Masters program. At this time, students in the residential Masters (i.e., MPH, MHSA, MHI, and MS) programs are not permitted to register for these sections.

This section is reserved for students in the Executive Masters program only.

Section 777 of this course is reserved for students in the Executive Masters program. At this time, students in the residential Masters (i.e., MPH, MHSA, MHI, and MS) programs are not permitted to register for these sections.

Section 777 of this course is reserved for students in the Executive Masters program. At this time, students in the residential Masters (i.e., MPH, MHSA, MHI, and MS) programs are not permitted to register for these sections.

Enrollment in section 555 is limited to Population and Health Sciences students.

Enrollment in section 555 is limited to Population and Health Sciences students.

This course meets on four Thursday evenings from 5:30 pm - 8 pm in addition to Monday/Wednesday mornings. The Thursday meeting dates for 2017 are 9/7, 9/21, 9/28, and 10/12.

Enrollment in section 555 is limited to Population and Health Sciences students.

### Case Analysis and Competition

Students interested and/or selected to compete in department-sponsored case competitions are encouraged to participate in this course. The course will develop skills at analyzing strategically oriented cases in healthcare management. It is structured to help students expertly understand the importance of working in teams, working with difficult personalities, and present as a confident and cohesive unit.

### Mgmt Impl of Hlth Equity

While many will agree that health disparities exist, the process to eliminate them and address the inequities in health system access over many decades is still being parsed out in the literature. In this course, we will redefine knowledge of health disparities through a health equity lens to explore the implications of managerial solutions as they pertain to health care organizations. We will use systematic, clinical, and social issues of origin to both explain and try to resolve management’s role in addressing health equity.

### Pandemic Policy

Course will cover many aspects of planning for and response to pandemics: Decision-making under risk and uncertainty, modeling of spread of infectious diseases, challenges responding to emerging diseases, health system planning and response, global public health coordination, and impact on vulnerable groups. The course will bring in guest speakers and include interactive simulation experiences.

Conn Aut Veh Algorith Discrim

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). Human drivers make conscious and unconscious choices that have invidious discriminatory implications, from what neighborhoods to drive through or avoid, to how to interact with other drivers based on perceived demographic features. Robotic driving may eliminate some social biases but create many others through machine learning. Multi-disciplinary student teams will apply problem solving tools, learn from experts who view this problem from various lenses, explore potential rules, metrics, tests, and safe harbors that could address algorithmic discrimination, and craft innovative solutions.

This class is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Non-law graduate/professional students may apply for the course using the PSI application system (https://problemsolving.law.umich.edu/) March 16-29, 2020. After the initial application period, students seeking to apply can contact problem-solving@umich.edu.

Fixing Foster Care

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). Lenghthy stays in foster care harm children, and children who leave foster care continue to experience instability in a variety of settings. These challenges are compounded by actions taken by courts and welfare agencies. In this class, multi-disciplinary teams of students will study problems with the foster care system, learn from stakeholders, hear from leading experts, and apply problem solving techniques to craft solutions.

This class is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Non-law graduate/professional students may apply for the course using the PSI application system (https://problemsolving.law.umich.edu/) March 16-29, 2020. After the initial application period, students seeking
This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). In the U.S., the federal government funds key social services. However, individual states oversee the provision of those services, and in Michigan, DHHS administers programs like SNAP, Medicaid, and WIC. Many challenges complicate social services delivery, including communicating effectively with beneficiaries, ensuring disparate programs function in tandem, and guaranteeing programs help people as intended. In this class, multi-disciplinary student teams will conduct research, apply problem solving skills, and engage with experts to develop solutions to these challenges.

This class is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Non-law graduate/professional students may apply for the course using the PSI application system (https://problemsolving.law.umich.edu/) March 16-29, 2020. After the initial application period, students seeking to apply can contact problemsolving@umich.edu.

School Of Public Policy

Public Policy (PUBPOL)

201 Systematic Thinking 4.00 ADVISORY

18656 A W LEC 001 MW 1130-1250PM 1120 WEILL Lantz

This course provides an introduction to public policy design and analysis using "systematic thinking" from the social sciences and humanities, with the application of scientific methods and knowledge more generally. Systematic thinking about how social problems are defined/understood and how policy both creates and can address societal problems is essential to the design and evaluation of public policies.

This 4-credit course consists of three hours of lecture and one section meeting each week. The course will cover policy definitions/frameworks, the policymaking process, and how to evaluate and justify public policy through the lenses of science, ethics and social equity. In addition, the course will include a number of short modules, this year focusing on key policy issues that are being discussed in the context of an election year, such as public policies regarding the environment/climate change, public health and health care, education, social welfare, immigration, international trade, and science/technology. A number of guest faculty experts will assist with the short modules.

There are no pre-reqs for this course. PubPol 201 provides an introduction to the field of public policy. Course requirements include two exams, 3 short papers and active class participation (including debates). Students who like 201 might want to look into the Ford School's major and minor in public policy.

IND ARR ARR

312 Env Politics & Policy 3.00

23688 P RW LEC 001 MW 830-950AM 1230 WEILL Rabe

This course introduces students to the adoption and implementation of environmental policy, with primary emphasis on the United States. It draws heavily from the discipline of political science in examining environmental politics and how this body of theory translates into public policy. Unlike many policy courses that focus exclusively on either national or international institutions, this course will concentrate on federal, state, and local governance and relations across these levels. In turn, we will frequently compare the respective abilities of state and federal governments to both enact and implement environmental policy, drawing on past experience to consider what the next generation of American environmental policy might entail.

320 Politics & Pub Pol 4.00

19017 A LEC 001 MW 10-1120AM 1120 WEILL Cavaille

This course prepares students to understand the political and institutional environment within which public policy is formulated and implemented. The primary focus will be on policy processes within the United States, but some attention will be paid to the policy process in other countries and/or the international political system.

In Depth

Is Congress too partisan? Can Congress fulfill its legislative and oversight functions? Do the executive and judicial branches effectively control public policy formulation? Have the State Legislatures become the true
This course will be co-taught by John Chamberlin, Edie Goldenberg, and Oliver Thornton.

The class will be held the following days: 9/15, 9/17, 9/19 Detroit tour, 9/22, 9/24.

The class will focus upon the history of Detroit emphasizing both the long history of labor-management and black-white conflicts and recent efforts to make Detroit a diverse, welcoming city with a higher quality of life and numerous job opportunities.

Course meetings from 11:30 to 12:50 on Tuesday September 15 and Thursday September 17 and then again at the same time the following week. On Saturday September 19, there will be a tour of Detroit from 8:30 to 5 PM. There are readings for each class meeting and you will be asked to write a short op-ed essay. ### Prog for Voter Engagement
- **Type:** LEC
- **CR:** F
- **Location:** Weill
- **Time:** 9-1150AM

This course will be co-taught by John Chamberlin, Edie Goldenberg, and Oliver Thornton.

This course will be offered in support of public policy objectives. Students will study, conceive and produce a Public Service Announcement (PSA) campaign to inspire student voter registration and turnout for the November 2020 election. Students will analyze effective messaging campaigns and receive instruction and guidance on the messages requested by the Ford School in areas of student voter registration, education and turnout. FTVM students will then work with students from the Ford School to conceptualize and produce a series of PSA and social media messages to encourage their peers to take part in the election process. The class will then analyze and study the results of the campaign in the weeks following the November election.

This course will examine the legal enforcement of those human rights that are fundamental and are the birthright of all human beings. We will review the international political and legal frameworks that have been established over the past fifty years to protect human rights. We will home in on how effectively those universally-accepted legal norms are enforced. Conventional legal wisdom holds that where there is a right, there is a remedy. We will explore whether this is, indeed, true in the international human rights context. Specifically, the central inquiry of this course is what needs to be done to give legal effect to the moral norms that embody human rights and fundamental freedoms?

Of those institutions of government charged with the responsibility of enforcing these moral norms, we will explore the particular role of the courts?international and certain domestic ones. In the area of human rights and liberties, the United States has traditionally been a beacon of hope. And so, we will be particularly attentive to the special role of the Supreme Court of the United States in giving meaning to the words of the Constitution and laws that guarantee basic rights.

Future leaders will need to understand the science, technology, public policy, and national security considerations behind cybersecurity well enough to make informed decisions when provided advice and options for action. Over the last decade cybersecurity issues have risen in prominence in both the public and private sectors, with an increasing interrelationship between what have traditionally been two distinct domains. There have been near daily reports regarding cyber operations launched by nation states, hacking groups, criminal organizations, and other malign actors against a variety of targets, using different tools and methods, and with different effects. The U.S. government has attempted to reorganize and reorient towards this multi-dimensional threat, in addition to private industry, state and local governments, and academia but despite this increased focus there are still several gaps and vulnerabilities that deserve technical and policy attention and solutions. As we head towards another Presidential election in November 2020, these issues will remain at the forefront given what occurred in the last elections and the use of sophisticated cyber means to influence public opinion, sow political divisions, potentially compromise election results, and demonstrate a capability that was not fully operationalized.

This class will examine the broad landscape of cybersecurity from both a technical and policy perspective. It will introduce fundamental concepts of computing and cyber security, including information theory, computability, cryptography, networking fundamentals, how vulnerabilities arise, and how attacks work. In addition, it will explore foundational ideas including definitions, cyber norms, and ethics; identify existing U.S. laws, authorities and governmental constructs; and frame classic security concepts like deterrence, attribution, offense, defense, and retaliation which will be accentuated by expert perspectives from a range of guest speakers. Graded assignments will entail policy papers designed to explore technical concepts and policy positions on different cybersecurity topics, student-led panel discussions related to weekly syllabus themes, and a simulated policy meeting where students will have the choice of assuming different private sector or government roles and examine potential courses of action in response to a cybersecurity crisis scenario.

This course is combined with PubPol 750.005.

Applied Learning Seminar
This is a required course open only to current Ford School BA students.

Course Objectives:
1. Students will explore their social identities, values and emotions about a public policy issue and examine the factors that have contributed to their beliefs.
2. Students will gain an understanding of the ways their beliefs and emotions are embedded in social networks and shared values.
3. Students will learn to consciously employ effective communication (i.e. reflection, empathy, asking, and listening), as a tool for understanding public policy debates and advancing public policy solutions.
4. Students will practice using narratives, reframing, and dialogue to work across differences.

This course is an introduction to programming in the R statistical language. R is a flexible, open-source statistics platform which has gained broad adoption in a variety of fields. Through interacting with R, RStudio, and elements of the tidyverse (a collection of R packages for data manipulation, analysis, and visualization), students will learn the fundamentals of working in R. By completing this class, students should have the baseline skills necessary to continue their self-study in R on topics suited to their own interests.
The primary objective of this core course in the MPP curriculum is to equip students with the knowledge and skills needed for effective political analysis of public policy issues and decisions. The course covers conceptual and analytic frameworks for understanding political processes, institutions, stakeholders, contexts and policy decision making. In addition, the course builds written and verbal communication skills, emphasizing the ability to convey clear and concise political analyses in a variety of formats, including policy memos.

This section of 510 focuses on political strategy and policy processes in comparative perspective. Students will learn how national and regional contexts shape governing institutions, political cultures, stakeholders and strategies, and will develop tools to inform and influence policymaking given these differences. Overall, the course trains students: a) to analyze critically and in-depth the political dimensions of pressing policy issues; b) to engage in issue advocacy from grassroots mobilization to lobbying across national contexts; c) to develop a nuanced understanding of different including opposing interests in the policy process; d) to understand the policymaking environments of countries in Europe, Asia, and Africa, in comparative perspective with the United States; e) to work in teams; and f) to improve written and communication skills.

This is a core course restricted to Ford School students only. Registration is by permission only.

The primary objective of this core course in the MPP curriculum is to equip students with the knowledge and skills needed for effective political analysis of public policy issues and decisions. The course covers conceptual and analytic frameworks for understanding political processes, institutions, stakeholders, contexts and policy decision making. In addition, the course builds written and verbal communication skills, emphasizing the ability to convey clear and concise political analyses in a variety of formats, including policy memos.
In this ten-week course, students will learn to write for a public policy audience. Students will research a policy topic and write about it in three separate documents (an op-ed and two memos), each of which will undergo extensive revision. Through workshops, class discussion, and instructor feedback, students will finish the course with a strong writing sample and greater confidence in policy writing norms and style.

This course teaches the norms of policy writing to 1st year policy students. Through small workshops, students will analyze approaches to different types of policy writing. They will produce a good deal of writing - and receive detailed criticism - in a relatively short time to facilitate their development.

This course surveys what we do and don’t know about economic growth and poverty alleviation in developing countries. We begin by discussing alternative perspectives on the goals of development. The substantive sections of the course address specific topics relevant to developing countries, such as: technology and growth; international trade and investment; international migration and remittances; coping with risk; public health and education; corruption and governance; and public finance.

541 Int'l Trade Policy 3.00 ADVISORY

This course examines the policy issues of international trade, including trade in both goods and services and also international flows of direct investment and migration. It builds on microeconomic theory, first to examine the basic theories of international trade and factor movements, including the classic Ricardian theory of competitive advantages, the neoclassical factor proportions theory, and the New Trade Theories that incorporate increasing returns to scale, imperfect competition, and product differentiation. These models are then used to examine the major policies and institutions that constrain and influence international trade and factor movements. Special attention is given to the WTO, to various elements of U.S. trade policy, and to the growing number of regional arrangements such as the European Union and NAFTA. Empirical evidence and applications of the theories are addressed, including their applicability for less developed and emerging economies. Although the major emphasis of the course is on the microeconomics of international transactions, a portion of the course will also put this into macroeconomic context. Topics here include the role and determination of exchange rates in the world economy, as well as how international movements of financial capital interact with trade and exchange rates in determining the balance of trade and the vulnerability of a country's macroeconomic variables to events abroad. This course presumes a prior knowledge of intermediate economics.

534 Ec of Dev Countries 3.00 ADVISORY

This course surveys what we do and don’t know about economic growth and poverty alleviation in developing countries. We begin by discussing alternative perspectives on the goals of development. The substantive sections of the course address specific topics relevant to developing countries, such as: technology and growth; international trade and investment; international migration and remittances; coping with risk; public health and education; corruption and governance; and public finance.

554 Econ for Pub Affairs 3.00 ADVISORY

This course begins a two-term sequence designed to provide students with an understanding of the economic implications of public policies and with analytic tools useful in system design and policy planning. Major topics include production, costs, prices, resource allocation, governmental involvement in economic activity, and the operation of market systems.

557 Data Visualization 3.00

This course will provide students with fundamental principles of and practical experience in presenting data in a visual form for communication and analysis. The class will cover collection of data, management of data for visualization, creating a workflow for visualization, collaboration with designers and coworkers, and examples of visualization which communicates effectively. For students of Public Policy, mastering the skills of persuasive communication with empirical evidence is essential, and visual communication can be a powerful tool in that skillset.

The course is comprised of four core modules: principles/fundamentals of design and visualization and review of visualization programming in Excel, STATA, and R/ggplot. In each of those modules, students will learn how to translate quantitative data (or coded qualitative data) into visualizations for examining patterns which reveal insights about the world. At the end of this class, students should have a baseline understanding of visualization for use in their own work and to bolster their overall skillset. The course is graded credit/no credit (pass/fail), with a course-long data visualization portfolio project. Students are not expected to have experience or prior knowledge of software or principles, but a baseline understanding of statistical concepts is recommended.
Students will understand how to design, execute, and interpret the results from advanced estimation techniques beyond the standard OLS model. Topics will include models for binary and categorical dependent variables, instrumental variables, selection models, regression discontinuity models, survival/duration models, time-series analysis, panel and time-series-cross-sectional models.

Advisory prerequisite: A graduate-level course in linear regression.

This course covers fundamentals of programming in R, object types and structure, import and use of packages for expanding R’s capabilities, data management, and basic analysis. The course is graded credit/no credit (pass/fail), with weekly review questions in R. Students are not expected to have prior experience in R or other programming, but familiarity with basic concepts in statistics is recommended.

Strategic Public Policy Consulting (SPPC) is an opportunity for students to conduct a faculty-supervised consulting project for a public, private, or non-profit sector policy organization at the local, state, national or international level. Projects range widely in policy area, level of quantitative analysis required, size, and complexity. All projects culminate in the publication of a final report and an oral presentation to the client.

This is a core course restricted to Ford School students only.

This course seeks to make students sensitive to and articulate about the ways in which moral and political values come into play in the American policy process, particularly as they affect non-elected public officials who work in a world shaped by politics. Topics covered include the tensions between ethics and politics, an introduction to various moral theories that figure in contemporary policy debates, a consideration of the principal values that animate American politics, and issues and dilemmas in professional ethics. The course addresses issues that affect international as well as U.S. policy and politics.

of the workings of various organizations and agencies and the actors within them.

34446  P RW SEM 002 TH 4-650PM 1230 WEILL Flanagan
Instructor: Brian Flanagan, managing director of the Sanger Leadership Center at Michigan Ross.

In today's complex and dynamic world, leadership is in demand at all levels of every organization. Whether you are a senior leader, middle manager, or individual performer, there are leadership skills you can develop to maximize your influence and impact. In this course, we will build those skills in the context of nonprofit and other mission-driven organizations: from mastering and motivating yourself; to organizing and empowering others; to building distinctive workplaces where people feel trusted, supported, and challenged.

600 Directed Reading 0.50-3.00 ADVISORY

626 Hist & Futr Detroit 1.00

Detroit was the nation's most important city in the Twentieth Century because of the auto industry, the emergence of the blue collar middle class and development of the New Deal. Now it is the most negatively stereotyped city in the nation. The course describes changes in Detroit and emphasizes policy developments in Rust Belt metropolises as they cope with the restructuring of employment.

647 Excel for PubPol 1.50

This course is an accelerated introduction to a variety of Public Policy research and analysis-related skills in the Microsoft Excel environment. This course is designed to familiarize students with core skills in data access, manipulation, analysis, and presentation using Excel (and Excel-like alternatives). Spreadsheet programs remain an important part of professional life, and this course will prepare students for basic and intermediate use of aspects of the program in that setting.

This course covers data import, formatting, and management. Analysis topics include: producing tables (including summarization), visualizations, varieties of statistical analysis (ANOVA, regression, etc.). The course is graded credit/no credit (pass/fail), with weekly review tasks in Excel. No prior knowledge of Excel is expected, but familiarity with basic concepts of statistics is recommended.

Combined with PubPol 447.

683 Elect&Camp 3.00 ADVISORY

There is no policy without victory. More precisely, well-planned and well-executed political campaigns win elections and make governing possible. Therefore, an understanding of government must first be grounded in an understanding of campaigns and elections. This course will introduce you to the art and science of political campaigning. Topics to be covered will include: developing a message, scheduling and time management, research, issues, polling, speeches, debates, working with the press, identifying, differentiating and targeting voters, coalitions and interest groups, budgeting and fundraising, field organization, crisis management, the political environment, and Get Out The Vote efforts.

687 Negotiation Strategy 3.00 ADVISORY

This course examines negotiation and social influence strategies for policy makers in the public, non-profit, and for-profit sectors. The main goal is to teach negotiation skills and concepts to enable students to analyze situations and achieve success in negotiation and dispute resolution. Another goal is to examine social influence techniques, or ways policy makers can effectively communicate messages and persuade others. Students will engage in a series of two-party and multi-party negotiation exercises. This course focuses on public policy and management issues.

700 Directed Research 1.00-6.00 ADVISORY

710 Interdisc Prob Solv 3.00 ADVISORY

Conn Aut Veh Algorith Discrim

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). Human drivers make conscious and unconscious choices that have invidious discriminatory implications, from what neighborhoods to drive through or avoid, to how to interact with other drivers based on perceived demographic features. Robotic driving may eliminate some social biases but create many others through machine learning. Multi-disciplinary student teams will apply problem solving tools, learn from experts who view this problem from various lenses, explore potential rules, metrics, tests, and safe harbors that could address algorithmic discrimination, and craft innovative solutions.

This class is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Non-law graduate/professional students may apply for the course using the PSI application system (https://problemsolving.law.umich.edu/) March 16-29, 2020. After the initial application period, students seeking to apply can contact problemsolving@umich.edu.

Fixing Foster Care

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). Lengthy stays in foster care harm children, and children who leave foster care continue to experience instability in a variety of settings. These challenges are compounded by actions taken by courts and welfare agencies. In this class, multi-disciplinary teams of students will study problems with the foster care system, learn from stakeholders, hear from leading experts, and apply problem solving techniques to craft solutions.

This class is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward
The special role of the Supreme Court of the United States in giving meaning to the words of the Constitution and the particular role of the courts—international and certain domestic ones. In the area of human rights is what needs to be done to give legal effect to the moral norms that embody human rights and fundamental freedoms? This is indeed true in the international human rights context. Specifically, the central inquiry of this course is how multifaceted historical relationships of traumatic experience including Colonization, Slavery, and Apartheid can be related to the ways in which we think about policy. This course takes a multidisciplinary approach to how the production of culture, ecology, psychology, law, economics, and politics frames the sociology and historicity of the policymaking context. This course provides the opportunity for students to improve their analytical abilities. Whilst the material content used in this course will have a global focus, local issues will also be considered.

Social Activism 717
19719 P RW SEM 001 W 4-650PM 1230 WEILL Henry
How are the inherent and intersecting relations of power including inherent structures of dominance related to the experience of violence, oppression, and resistance textured into the context of politics and policy making? This course investigates how multifaceted historical relationships of traumatic experience including Colonization, Slavery, and Apartheid can be related to the ways in which we think about policy. This course takes a multidisciplinary approach to how the production of culture, ecology, psychology, law, economics, and politics frames the sociology and historicity of the policymaking context. This course provides the opportunity for students to improve their analytical abilities. Whilst the material content used in this course will have a global focus, local issues will also be considered.

Econ of Publ Sect 744
25275 P RW LEC 001 TTH 10-1120AM 1230 WEILL Stevenson
This is a course on how economists think about government revenue and government expenditures? how governments raise and spend public money. Public Finance is a subfield of microeconomics. In the course, we will begin by delving more deeply into rationales for government intervention in the market (introduced in Micro A/B), including public goods, externalities, and equity. We will then use the tools of economics to analyze a number of important public policy issues, such as public health insurance, social security, and anti-poverty programs. The second part of the course will cover tax policy, and we will explore how the burden of taxation is distributed, how taxes affect the economic behavior of individuals and firms, and options to reform the tax system. The course will cover the theory of public finance in depth, but the ultimate aim will always be to apply the concepts to real-world policies and programs. Toward that end, we will spend substantial time both inside and outside of the classroom applying the concepts and reviewing existing empirical evidence. The course focuses on the US, but we will discuss comparisons with other countries from time to time.

Special Topics 750
32486 P RW LEC 001 TH 10-2PM ARR Goldberg, Thornton, Chamberlin
In this project-based course students will learn how to produce Public Service Announcements (PSAs) in support of public policy objectives. Students will study, conceive, and produce a Public Service Announcement (PSA) campaign to inspire student voter registration and turnout for the November 2020 election. Students will analyze effective messaging campaigns and guidelines on the messages requested by the Ford School in areas of student voter registration, education, and turnout. FTVM students then work with students from the Ford School to conceptualize and produce a series of PSA and social media messages to encourage their peers to take part in the election process. The class will then analyze and study the results of the campaign in the weeks following the November election.

This course will be co-taught by John Chamberlin, Edie Goldenberg, and Oliver Thornton.

Of those institutions of government charged with the responsibility of enforcing these moral norms, we will explore the particular role of the courts in protecting certain domestic ones. In the area of human rights and liberties, the United States has traditionally been a beacon of hope. And so, we will be particularly attentive to the special role of the courts in giving meaning to the words of the Constitution and laws that guarantee basic rights.

Cybersecurity for Future Lead 34006 P RW LEC 004 M 4-650PM 1230 WEILL All, Landwehr
Co-taught with Dr. Carl Landwehr, Lead Research Scientist, Cyber Security Policy & Research Institute, George Washington University.

U of M Schedule of Classes Page 459 of 499
Future leaders will need to understand the science, technology, public policy, and national security considerations behind cybersecurity well enough to make informed decisions when provided advice and options for action. Over the last decade cybersecurity issues have risen in prominence in both the public and private spheres, with an increasing interrelationship between what have traditionally been two distinct domains. There have been near daily reports regarding cyber operations launched by nation states, hacking groups, criminal organizations, and other malign actors, against a variety of targets, using a variety of tools and methods, and with different effects. The U.S. government has attempted to reorganize and reorient towards this multi-dimensional threat, in addition to private industry, state and local governments, and academia; but despite this increased focus there are still several gaps and vulnerabilities that deserve technical and policy attention and solutions. As we head towards another Presidential election in November 2020, these issues will remain at the forefront given what occurred in the last elections and the use of sophisticated cyber means to influence public opinion, political divisions, potentially compromise election results, and demonstrate a capability that was not fully operationalized.

This class will examine the broad landscape of cybersecurity from both a technical and policy perspective. It will introduce fundamental concepts of computing and cyber security, including information theory, computability, cryptography, networking fundamentals, how vulnerabilities arise, and how attacks work. In addition, it will explore foundational ideas including definitions, cyber norms, and ethics; identify existing U.S. laws, authorities and governmental constructs; and frame classic security concepts like deterrence, attribution, offense, defense, and retaliation?which will be accentuated by expert perspectives from a range of guest speakers. Graded assignments will entail policy papers designed to explore technical concepts and policy positions on different cybersecurity topics, student-led panel discussions related to weekly syllabus themes, and a simulated policy meeting where students will have the choice of assuming different private sector or government roles and examine potential courses of action in response to a cybersecurity crisis scenario.

This course is combined with PubPol 475.005.

Education Policy
Education Policy and Economic Mobility: Challenges and Promise

In this course, we will examine the K-12 and higher education sectors, with a focus on key policy issues in each area. The goals of the course are to (1) to familiarize students with the arguments and evidence relating to important education policies and/or interventions and (2) provide students with an analytic framework to assess education policy more generally. Specific policy areas in K-12 include charter schools, school accountability, teacher pay and professional development, school finance reform and the role of technology in schools. Specific policy areas in higher education include financial aid, affirmative action, regulation of the for-profit sector, community college transfer policies, and student support initiatives. Throughout the course, we will focus on the differential impact of policies by student demographic characteristics (e.g., race, gender, socioeconomic status, etc.) as well as community context. While the course will focus primarily on education in the U.S. context, there will be some discussion of how similar challenges are (or are not) addressed in other countries.

This course is combined with PubPol 475.005.
terrorism. Students will analyze the conflict between vigorous pursuit of solutions to these issues and other foreign and public policy objectives and how this affects the national interests and foreign policies of the nations and organizations involved. Students will assess lines of action that national and international policy makers might initiate to find solutions to these problems. The instructor will place emphasis on the tools and skills needed for policy analysis and the formulation of effective recommendations for decision making. Case studies, group exercises and simulations will be used throughout the course and there will be a number of policy writing assignments.

778 Proj Skills Wkshp 1.00
20774 P RW SEM 001 TH 4-520PM 1230 WEILL
This is a professional skills workshop that will be required for students enrolled in the SPPC (PP 578) and open to other MPP/ Master's student. To be offered each semester, concurrent with the SPPC.

BA 445.001/.321 will meet in B3580 on the following Thursdays in addition to Monday evenings in Fall B: 11/14 and 11/21.

BA 445.002/.322 meets with BA 612.001 in R2220 on the following Fridays (9 am - 12 pm) in addition to Wednesday evenings in Fall B: 11/15 and 11/22.

Section 321 meets with Section 001 and is reserved exclusively for Minor in Business and Master of Management students.

BA 445.001/.321 will meet in B3580 on the following Thursdays in addition to Monday evenings in Fall B: 11/14 and 11/21.

Section 322 meets with Section 002 and is reserved exclusively for Minor in Business and Master of Management students.

BA 445.002/.322 meets with BA 612.001 in R2220 on the following Fridays (9 am - 12 pm) in addition to Wednesday evenings in Fall B: 11/15 and 11/22.

BA 480 is reserved for BBA Seniors. If you are eligible and interested in enrolling, please send the following documents to Prof. Burcu Tasoluk (btasoluk@umich.edu): 1) Your current resume, 2) A Statement of Interest outlining your broad research area and explaining why you would like to fulfill your Capstone requirement by enrolling in this course and writing a senior thesis.

BE 518 is cross-listed with HMP 630, PHRMACOL 620, BIOMEDE 523, & ENGR 523. This class meets on four Tuesday evenings from 5 pm - 7:00 pm in addition to Monday/Wednesday mornings. The Tuesday meeting dates for 2019 are 9/10, 9/24, 10/1, and 10/8.

Section 001 is reserved exclusively for Minor in Business and Master of Management students.

Section 002 is reserved exclusively for Minor in Business and Master of Management students.

BE 518 is cross-listed with HMP 630, PHRMACOL 620, BIOMEDE 523, & ENGR 523. This class meets on four Tuesday evenings from 5 pm - 7:00 pm in addition to Monday/Wednesday mornings. The Tuesday meeting dates for 2019 are 9/10, 9/24, 10/1, and 10/8.

Because this is an interdisciplinary course, the number of seats available to each school on campus is limited and therefore enrollment is by permission only. To apply, please send your name and the program you are in (school and degree) to BA620-Apply@umich.edu.

Given the experiential nature of pedagogy, enrollment in each section will be limited and attendance is mandatory. Registered students must be present from the beginning of the first class session to retain their registration in the class. This course is complementary to BCOM 510 and both can be taken in either order.

**Real Wld Perspc Poverty Solut**

This course will meet for seven weeks and may not begin until October. If specific dates are not scheduled prior to backpack and registration students may want to reach out to the course instructor.

Structured as a noon hour lecture series, Real World Perspectives on Poverty Solutions features different guest speakers each week to introduce the key issues regarding the causes and consequences of poverty. The course explores interdisciplinary, real-world poverty solutions from a wide variety of perspectives. By bringing national and global leaders, we aim to ignite new conversations and deepen existing commitments regarding poverty prevention and alleviation strategies and programs.

This section will be taught as hybrid course which means that sometimes you will have a combination of web-based class sessions and face to face class sessions. This section will meet in person, in class on the following dates:

TBD

Social Work students should only enroll in SW 540 and submit the Course Enrollment Petition via the SSW web site. Nursing students should only enroll in HS 540 (check with your home unit on how best to submit a request to enroll)

Education students should only enroll in EDUC 540 (check with your home unit on how best to submit a request to enroll)

Even if it appears there is space students enrolling in the course outside of their home school may be dropped from the course.

For individual needs to register under a different school?s number (i.e. cognate) please notify your home unit to determine if an exception can be made.

This course is now being delivered on-line. All pre-learning work must be complete prior to the required workshop on October 3.

Outside of Class Pre-learning work begins: 8/31/2020
All Day Virtual Workshop: 10/3/2020
Outside of Class Post-work final assignment: 10/9/2020
