This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). The built environment bears the stamp of slavery supported by new forms of forced labor. Starting with an understanding that architecture isn't value-neutral and that racism intersects with urban planning, land use, and environmental problems, this class will confront such issues through a U-M/Yale partnership. Students will create a framework for the National Slavery Memorial in Washington, D.C., as multidisciplinary teams from law, planning, history, and other fields learn problem-solving skills, conduct research, and approach the politics, ethics, and mechanics of construction holistically.									
This class is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.									
Non-law graduate/professional students may apply for the course using the PSI application system (https://problemsolving.law.umich.edu/) March 14-28, 2022. After the initial application period, students seeking to apply can contact problemsolving@umich.edu .

211 Circuits and Systems **4.00 ADVISORY, ENFORCED**

This lab will only meet four times throughout the semester TBD with the professor. Lab dates will be assigned on the first day of class.

The labs are also designed to be taken with BME 221 or 231 if a student wishes to enroll in one of these other courses concurrently. While the labs are scheduled on the same days and times, they do not actually conflict with each other.

Chemical Engineering Department

Chemical Engineering (CHE) Open Sections

--MANY COLLEGE OF ENGINEERING COURSES REQUIRE STUDENTS NOT ENROLLED IN BUSINESS ADMINISTRATION OR ENGINEERING (INCLUDING CCS MAJORS) TO PAY A \$115-207 COMPUTER USER FEE. THIS IS A SPECIAL FEE, TO BE PAID ONLY ONCE EACH TERM, AND IS IN ADDITION TO THE INFORMATION TECHNOLOGY ACCESS FEE PAID BY FULL TIME STUDENTS AS PART OF THEIR REGULAR FEE ASSESSMENT. YOU WILL BE INFORMED ON THE FIRST DAY OF CLASS WHETHER OR NOT YOUR CLASS IS SUBJECT TO THIS FEE.

Modern Construction Management									
This course aims to develop the students' fundamental understanding of modern construction management in the US, which will also be a basis for other CEM graduate courses. Topics include how to organize, estimate, and manage a construction project as well as dispute resolution and leadership.									
34437	P LEC 062 MW	9-1030AM	134 NAME	Bricker				14	Y
Flood, Tsunami, Hurricane									
This course introduces physical principles, modeling methods, and hydraulic design tools for flood risk reduction against rainfall, hurricane storm surge and waves, and tsunami hazards. Homework sets and design projects apply analytical, empirical, and numerical methods to design protective hydraulic structures to reduce flood risk.									
24880	P SEM 850 TH	3-430PM	136 EWRE	Yin				17	Y
Next Gen Transpo Sys Seminar									
Presentation and discussion of selected topics related to transportation systems engineering. Student participation and guest lectures.

Attendance is REQUIRED for this discussion (Dis 022) section. The "Focus on Fundamentals" discussions will meet for two hours each week instead of one to provide additional time to review and solidify concepts from the week, and apply these concepts to practice problems. The additional time and higher instructor-to-student ratio will allow for more discussion, working through practice problems at a slower pace, and more time for student questions. There will be a focus on working through practice problems in small groups.

STUDENTS MUST ELECT LAB AND LECTURE SECTIONS. The remote section is being offered to handle anticipated extra demand beyond the in-person sections. Students in all lecture sections, including remote, will have access to lecture recordings. Students in the remote section can also attend the in-person lectures, space permitting on the day of the attendance. Usually, enough students consume material remotely that we don't anticipate in-person space to be a bottleneck for anyone wishing to attend the class in-person. Lab and exams are in-person.

Electrochemistry Apps & Engrg

This course will serve to give students exposure to applications of electrochemistry in the production of chemicals and metals, energy storage, sensors, and material protection (i.e., controlling corrosion). Part of the course will discuss basic electrochemistry concepts, so a background in electrochemistry is not required, but a majority of the course will focus on applications, and electrochemical techniques, e.g., electrochemical impedance spectroscopy, which can be used to understand charge transfer, double layer formation and capacitance, and solution resistances. In addition, some of the practical aspects of research electrochemistry will be discussed, including applying fundamental concepts to research. The engineering behind electrochemical reactor design will also be covered, including touching on the economics and performance metrics for industrial systems, and future avenues in electrochemical processes.

Solution Processed Optoelectro

This course will cover nanomaterials and nanotechnology, light-matter interaction, solution-processed optoelectronic materials and device, and their biomedical applications. We will discuss the optical and electronic properties of a wide range of solution-processed semiconductors, including inorganic nanomaterials, and hybrid organic-inorganic metal halide perovskite. Topics of particular interest to a broad range of engineering students, and Applied physics will include thin-film optoelectronic devices made from these next-generation semiconducting

15685	P R LEC 003	TTH	930-1030AM	4440 EECS		McLendon		2		Y

Students are encouraged to enroll in TCHNCLCM 496 (2 credits) at the same time as their MDE. The technical writing requirement (TCHNCLCM 496) must be taken in the same or later semester as the MDE (preferably the same semester). If you have questions about this, please speak with your academic advisor.

If you already have selected team members for your EECS design project, you are encouraged to register for the same section of TC496 with those members

-------	-------------	---	-------------	-----------	--	--------	--	---	--	---

Students are encouraged to enroll in TCHNCLCM 496 (2 credits) at the same time as their MDE. The technical writing requirement (TCHNCLCM 496) must be taken in the same or later semester as the MDE (preferably the same semester). If you have questions about this, please speak with your academic advisor.

If you already have selected team members for your EECS design project, you are encouraged to register for the same section of TC496 with those members

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). The built environment bears the stamp of slavery supported by new forms of forced labor. Starting with an understanding that architecture isn't value-neutral and that racism intersects with urban planning, land use, and environmental problems, this class will confront such issues through a U-M/Yale partnership. Students will create a framework for the National Slavery Memorial in Washington, D.C., as multidisciplinary teams from law, planning, history, and other fields learn problem-solving skills, conduct research, and approach the politics, ethics, and mechanics of construction holistically.

This class is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Non-law graduate/professional students may apply for the course using the PSI application system (<https://problemsolving.law.umich.edu/>) March 14-28, 2022. After the initial application period, students seeking

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). The built environment bears the stamp of slavery supported by new forms of forced labor. Starting with an understanding that architecture isn't value-neutral and that racism intersects with urban planning, land use, and environmental problems, this class will confront such issues through a U-M/Yale partnership. Students will create a framework for the National Slavery Memorial in Washington, D.C., as multidisciplinary teams from law, planning, history, and other fields learn problem-solving skills, conduct research, and approach the politics, ethics, and mechanics of construction holistically.								
This class is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.								
Non-law graduate/professional students may apply for the course using the PSI application system (https://problemsolving.law.umich.edu/) March 14-28, 2022. After the initial application period, students seeking to apply can contact problemsolving@umich.edu .

Exercise Assessment

The purpose of this course is to learn basic knowledge of exercise testing and interpretation for apparently healthy adults using lecture, student discussion/presentation, and laboratory experience. This course will evaluate various aspects of exercise testing including muscular, balance, and cardiorespiratory fitness. Principles of healthy hemodynamics and cardiorespiratory response and interpretation will be covered. A central theme of the course comprises understanding physiological exercise testing variables. Exercise assessment provides invaluable information in assessing functional capacity, the safety of physical exertion, and the effect of various interventions. Moreover, the results have long-term prognostic significance in regard to morbidity and mortality. Classroom time will be spent gaining hands-on skills with conducting both physical fitness testing (field tests) and clinical exercise testing, to advance competence collecting physiological assessments across the lifespan in preparation for writing comprehensive exercise prescription and programming.

Sport Management (SM) Open Sections

101	Pub&Small Grp Comm				3.00			
13367	P R LEC 003 MWF		11-12PM	2200 SKB	Luther		4	Y

This section is held for Kinesiology students. Non-Kinesiology students should wait list under section 013.

Because Kinesiology holds SM 101 seats for Kinesiology summer orientation students, overrides for non-Kinesiology students are not issued until post-orientation. Students will receive an email when and if they are issued an override. If students do not receive an override before the first day of class, they are welcome to attend the first day of class and see if the instructor has seats available. As long as students stay on the waitlist, they do not need to call or email to check their status.

Literature, Sci, and the Arts

IT IS CRITICAL THAT STUDENTS ATTEND CLASSES FROM THE BEGINNING OF THE TERM. EVEN THOUGH STUDENTS MAY BE REGISTERED OFFICIALLY FOR A COURSE, DEPARTMENTS MAY GIVE AWAY A STUDENT'S PLACE IN A CLASS IF THEY DO NOT ATTEND:

- THE FIRST MEETING OF BIOLOGY, CHEMISTRY, AND PHYSICS LABORATORIES;
- EITHER OF THE FIRST TWO MEETINGS OF ENGLISH COURSES;
- THE FIRST TWO MEETINGS OF HISTORY 496 AND 497;
- EITHER OF THE FIRST TWO MEETINGS OF ANY COURSE OFFERED BY THE DEPARTMENT OF ROMANCE LANGUAGES;
- THE FIRST TWO MEETINGS OF COURSES IN OTHER SUBJECTS.

AT THE SAME TIME, DEPARTMENTS ARE NOT OBLIGATED TO WITHDRAW STUDENTS OFFICIALLY FROM THE COURSE, EVEN THOUGH THE STUDENT HAS BEEN INFORMED THAT HIS/HER PLACE IN A COURSE HAS BEEN TAKEN AWAY. STUDENTS ARE RESPONSIBLE FOR THE ACCURACY OF THEIR SCHEDULES AND MUST BE SURE THAT ALL DROPS ARE PROCESSED THROUGH REGISTRATION SYSTEM DURING THE NORMAL DROP/ADD PERIOD.

 --SECTION 400 - STUDENTS MUST ELECT DISCUSSION 410-414. The intensive lecture section (Section 400) is intended for those students who would benefit from a smaller lecture section (maximum 100 students) and more lectures so that the pace is slower and there is more feedback. This section is reserved for CSP students and students who have placed into CHEM 130.

<p>

English Language Institute

English Language Institute (ELI) Open Sections

ELI courses fall into three categories:
 1. English for Academic Purposes courses for graduate students;
 2. Language and teacher training courses for international GSIs;
 3. Teacher training courses for students planning to teach ESL in local communities or abroad.

For assistance in choosing an appropriate course, please go to the ELI Academic Advising website:
<http://bit.ly/eliadvising> or e-mail: eliadvisor@umich.edu to make an appointment to speak with an advisor.

To enroll in this course, students must:								
Step 1: Submit a writing sample to: englishcwsubmissions@umich.edu. Writing samples are generally between 5-15 pages of original relevant work (short stories, excerpts, poems). For priority consideration, writing samples should be submitted no later than 5pm on Thursday, March 31, 2022. Students should receive notification of their acceptance (or not) no later than Monday, April 18, 2022. Students may continue to submit writing samples after the priority deadline until seats are full.								
Step 2: Complete the course section preference form (https://forms.gle/JNQEjzR7S3j2BdMd9) no later than 5pm on Thursday, March 31, 2022.. Students are encouraged to consider second and third choice sections (where available) as potential back-up options. The back-up options should be times that will actually work with your schedule.

To enroll in this course, students must:

Step 1: Submit a writing sample to: englishcwsubmissions@umich.edu. Writing samples are generally between 5-15 pages of original relevant work (short stories, excerpts, poems). For priority consideration, writing samples should be submitted no later than 5pm on Thursday, March 31, 2022. Students should receive notification of their acceptance (or not) no later than Monday, April 18, 2022. Students may continue to submit writing samples after the priority deadline until seats are full.

Step 2: Complete the course section preference form (<https://forms.gle/JNQEjzR7S3j2BdMd9>) no later than 5pm on Thursday, March 31, 2022.. Students are encouraged to consider second and third choice sections (where available) as potential back-up options. The back-up options should be times that will actually work with your schedule.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). The built environment bears the stamp of slavery supported by new forms of forced labor. Starting with an understanding that architecture isn't value-neutral and that racism intersects with urban planning, land use, and environmental problems, this class will confront such issues through a U-M/Yale partnership. Students will create a framework for the National Slavery Memorial in Washington, D.C., as multidisciplinary teams from law, planning, history, and other fields learn problem-solving skills, conduct research, and approach the politics, ethics, and mechanics of construction holistically.

This class is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Non-law graduate/professional students may apply for the course using the PSI application system (<https://problemsolving.law.umich.edu/>) March 14-28, 2022. After the initial application period, students seeking to apply can contact problemsolving@umich.edu.

History Department

History (HISTORY) Open Sections

--IT IS CRITICAL THAT STUDENTS ATTEND CLASS FROM THE BEGINNING OF THE TERM. ALTHOUGH STUDENTS MAY BE OFFICIALLY REGISTERED FOR A COURSE, THE DEPARTMENT MAY DISENROLL ANY STUDENT NOT ATTENDING THE FIRST TWO COURSE MEETINGS.
 --DISCUSSION SECTIONS DO NOT MEET UNTIL AFTER FIRST LECTURE.
 --STUDENTS ARE ENCOURAGED TO USE THE WAITLIST FOR ANY CLOSED COURSE. STUDENTS SHOULD REGISTER ON THE WAITLIST ACCORDING TO PREFERRED SECTION AND ATTEND THE FIRST CLASS. UP TO THE FIRST DAY OF CLASS, OVERRIDES WILL BE GIVEN BY THE DEPARTMENT AS SPACE BECOMES AVAILABLE. STUDENTS ARE NOTIFIED AND GIVEN TWO DAYS TO USE THE OVERRIDE, AFTER WHICH THE SPOT MAY GO TO AN ALTERNATE STUDENT ON THE WAITLIST. ONCE CLASSES HAVE STARTED, STUDENTS (WAITLISTED OR NOT) MUST CONTACT THE INSTRUCTOR FOR AN OVERRIDE.

This course will be taught primarily in French so students should have at least a conversational level of French. Students taking this course for Judaic Studies credit will, however, be allowed to do all their readings, class participation, and assignments in English, if they so choose. However, students will need to know some French to fully take part in discussions. Registration for Judaic 318.010 will require instructor permission.

Physics Department

Physics (PHYSICS) Open Sections

--A STUDENT WHO DOES NOT ATTEND THE FIRST MEETING OF A BIOLOGY, CHEMISTRY, OR PHYSICS LAB MAY BE DROPPED FROM THAT COURSE FOR NON-ATTENDANCE. ALL STUDENTS MUST TAKE ACTION THROUGH THE REGISTRATION PROCESS TO MAKE SURE THAT THEIR OFFICIAL COURSE SCHEDULES MATCH THE COURSES THEY ARE ATTENDING.

104 Intro to Python Prog **2.00**
 33510 PD LAB 001 TTH 4-6PM 2230 USB Avestruz 13 Y
 This course is set to department consent. Priority will be given to first or second year students who intend to major/minor in physics or another STEM field. If spots are available near the start of the term we will open seats to anyone at that time.

Meets August 29, 2022 - October 14, 2022. The drop/add deadline is September 12, 2022.

106 Everyday Physics **3.00** **25.00**
 11576 P LEC 002 MW 1-230PM 268 WEISER Chupp 6 Y
 25471 P R LEC 004 TTH 4-530PM 268 WEISER Kurdak 11 Y

115 Principles of Phys **2.00**
 21856 P LEC 001 MTWTH 6-7PM REMOTE Tomasch 10 Y
 Meets October 24, 2022 - December 9, 2022. The drop/add deadline is November 7, 2022.

116 Quarks, Cosmos **3.00**
 33841 P LEC 001 MW 1-230PM 120 WH Penning 22 Y

140 General Physics I **4.00** **ADVISORY**
 19260 P LEC 001 MTWTH 9-10AM 182 WEISER Popov 71 Y
 Students should elect PHYSICS 141 as the corresponding laboratory course.

19261 P LEC 002 MTWTH 10-11AM 182 WEISER Popov 72 Y
 Students should elect PHYSICS 141 as the corresponding laboratory course.

27051 P LEC 003 TTH 8-10AM 1060 BSB-TBL Huterer 55 Y
 This section of PHYSICS 140 varies from the traditional lecture model of the course. This is a studio version of the course, which incorporates more team-based learning techniques. Students should elect PHYSICS 141 as the corresponding laboratory course.

27052 P LEC 004 TTH 10-12PM 1060 BSB-TBL Eckhause 25 Y
 This section of PHYSICS 140 varies from the traditional lecture model of the course. This is a studio version of the course, which incorporates more team-based learning techniques. Students should elect PHYSICS 141 as the corresponding laboratory course.

This course provides an introduction to public policy design and analysis using "systematic thinking" from the social sciences and humanities, with the application of scientific methods and knowledge more generally. Systematic thinking about how social problems are defined/understood and how policy both creates and can address societal problems is essential to the design and evaluation of public policies.					
This 4-credit course consists of three hours of lecture and one section meeting each week. The course will cover policy definitions/frameworks, the policymaking process, and how to evaluate and justify public policy through the lenses of science, ethics and social equity. In addition, the course will include a number of short modules, this year focusing on key policy issues that are being discussed in the context of an election year, such as public policies regarding the environment/climate change, public health and health care, education, social welfare, immigration, international trade, and science/technology. A number of guest faculty experts will assist with the short modules.					
There are no pre-reqs for this course. PubPol 201 provides an introduction to the field of public policy. Course requirements include two exams, 3 short papers and active class participation (including debates). Students who like 201 might want to look into the Ford School's major and minor in public policy.

302	Res Meth in Cog NS					3.00	ENFORCED		
21587	A R LEC 001	TH	230-4PM	1360 EH	Weissman				

Students are auto-enrolled in LEC 001 when they elect a LAB 002-007.
 Psych 302 counts as a Methods Lab for Psych and BCN Majors.
 Do not email the professor to request an override. The GSIs will make decisions about overrides only after classes start. The GSIs can grant overrides only if enrolled students drop the course, because each lab section is limited to 20 students. If seats become available in a lab section, the GSI will grant overrides based on (1) the order of students on the section's waitlist and (2) active attendance and participation in the class by the waitlisted student.

Sweetland Center for Writing

Gayle Morris Sweetland Center for Writing (WRITING) Open Sections

100	Practice of Writing					3.00		
23297	P REC 005	TTH	9-10AM	1155 NQ	Conway		8	Y

Writing 100 is designed to help students of all levels improve their writing, but is best suited to those who have yet to fulfill the First-Year Writing Requirement. Upper-level students should have a compelling academic reason for enrolling in Writing 100.

It is department policy that registered students must participate in the first two class sessions or activities in whichever format offered by the instructor or notify the instructor that they will be unable to do so and why. Failure to do so may result in the student being dropped from the course.

Normal waitlist procedures apply for students who attend the first two classes. Students who wish to join Writing 100 after the first two class sessions must email the instructor to set up a meeting to discuss enrolling. Based on this discussion, the student and instructor will then make a determination on whether or not it is appropriate for the student to enroll.

This course will meet in 4129 Undergrad Science Building. This course is pass/fail ONE credit course.									
In this class, we will specifically explore scientific inquiry into the nature of the mind during meditation. We will touch upon modern brain neuroimaging findings of experienced meditators and novices that undergo training. We will examine the known benefits of meditation for pain, depression, anxiety, and stress using data from human clinical trials. Finally, we will explore our own mental processes through meditation and journaling practices. At the end of this class, students will walk away with a greater scientific understanding of meditation, as well as learn the fundamentals of a personal contemplative meditative practice that can be applied to enhance beneficial, and prune afflictive, mental states.									
704	Readings: Integrative					1.00-3.00	ADVISORY		
32681	P SEM 053	F	12-1PM	ARR	Mashour			18	N
Psychedelic Neuroscience Psychedelic neuroscience is one of the most dynamic fields in 21st century neurobiology. This course will examine current research on canonical and non-canonical psychedelics as well as the psychedelic experience itself. The focus will be on systems neuroscience, including studies on neurophysiology, neuroimaging, and circuit-level mechanisms. Multidisciplinary engagement is welcomed but the course is designed primarily for graduate students in a related field (e.g., neuroscience, pharmacology, psychology, physiology).									
11928	PDR SEM 001	W	12-1PM	ARR	Pal, Vanini			10	N
Cog Neuro of Consciousness The nature and the neural basis of consciousness is a foundational question in neuroscience. As a scientific inquiry, it speaks to the existence of reality as we perceive it, and from a translational and therapeutic perspective, a fundamental understanding of the biological basis of consciousness has implications for disorders ranging from psychiatric disorders to the disorders of consciousness. In this course, we will start with a brief overview of the current neuroscientific frameworks and theories to study consciousness, and then as we move forward, will discuss the recent literature on the neurobiology of physiological (sleep), pharmacological (anesthesia, psychedelic states), and pathological states (coma, vegetative state) of consciousness. The students will participate in discussion and presentation of recent relevant literature.									
What: NS704, The Cognitive Neuroscience of Consciousness Who: Neuroscience and psychology students (and other interested people) When: Fall semester, Wednesdays at Noon Where: Medical School, Med-Sci I, 7th floor conference room (#7433D)

11967	P R DIS 004 TH	10-11AM	ARR		Rust			1		Y
14102	P R DIS 007 TH	4-5PM	ARR		Rust			2		Y
STUDENTS ARE AUTO-ENROLLED IN LECTURE WHEN THEY ELECT A DISCUSSION.										
Class will be held in 3330 Med Sci I.										
11964	A R LEC 001 MWF	1230-2PM	ARR		Rust					
404	Hum Physiol Lab	2.00	ENFORCED	110.00						
20076	PDR LAB 002 T	1-3PM	ARR		Houchin			18		Y
This section is reserved for M.S. Physiology students.										
Classes will be held in 3797 Med Sci II.										
20802	PDR LAB 005 TH	1-3PM	ARR		Houchin			18		Y
This section is reserved for M.S. Physiology students.										
Classes will be held in 3797 Med Sci II.										
406	Extreme Physiology	3.00	ENFORCED							
24681	PDR LEC 001 TTH	10-1130AM	ARR		Oakley			17		Y
The course is a mixture of undergraduate (Physiology 406) and MS in Physiology (Physiology 506) students. It is predicted that half the open registration slots for combined Physiology 406/506 will be open for Physiology 406. Because the combined Physiology 406/506 course is restricted to a limited number of students and Physiology 506 is a required course for a subset of master's students (whose course schedules are not set until the end of summer term), enrollment for Physiology 406 IS BY WAITLIST ONLY. Overrides will be issued by the department as space becomes available, which may occur after the first course meeting. As such, interested students on the waitlist must attend the first class. An enrolled student who does not attend the first meeting may be dropped from the course for non-attendance. Students will be notified and given 2 days to use the override, after which the spot will go to an alternate student on the waitlist.										
502	Human Physiology	4.00	ADVISORY							
Undergraduate students who have completed the pre-requisites are welcome to enroll.										
Advisory prerequisites: one college-level course in Biology with Biochemistry.										
19265	P LEC 001 MWF	830-10AM	ARR		Houchin			38		Y

Dance (DANCE) Open Sections

100	Intro to Dance					1.00	ADVISORY			
19336	P LAB 003	MW	9-10AM	DANCE STUDIO 3	Ahlijah			19	Y	
<p>Afro-Contemporary Contemporary African Dance</p> <p>This course expresses movement forms that combine indigenous African dance techniques as a fundamental exploration through improvisation. The goal is to incorporate varied dance styles while maintaining the philosophies of African dance aesthetics. This course is to equip students with African dance movement expressions and embodiment.</p>										
19340	P LAB 007	TTH	9-10AM	DANCE STUDIO 3	Muthukumar			25	Y	
<p>Intro to Bharatanatyam Bharatanatyam is one of the most widely-practiced classical dance forms of India. This intricate and beautiful tradition has an extensive vocabulary, spanning across both abstract dance and storytelling. This course is a beginner's guide to the physical practice of Bharatanatyam. Students will learn basic movements, gestures and facial expressions from the dance vocabulary, understand the history of the form and embody a practice that has been evolving for centuries.</p>

<p>Afro-Jazz This beginner level course will introduce students to dance styles originating from the African Diaspora. Students will learn fundamentals of movement derived from West African, Caribbean, and African American forms and will gain historical and cultural context of these styles. Throughout the course, we will discover how these techniques inform and influence contemporary jazz technique and use those principles to create unique and diverse movement scores.</p>										
<p>Throughout this course students are encouraged to take their own self exploration through movement, history, and culture. Dance is deeply informed by our personal experiences, where our ancestors are from, and where we hope to end. This course will be a quest of how we transform and develop as individuals through movement and dance.</p>

<p>Composition Throughout the semester, we will work with physical, written, and spoken prompts to uncover patterns and curiosities within us. We will learn choreographic tools such as time, space effort, repetition, accumulation, character, and theme and variation, as well as constructive feedback techniques to support the creative process.</p> <p>Movement explorations and guided improvisations will be utilized to discover and expand physical language, as students learn to create original solo and group works in a supportive environment.</p> <p>Students will be required to view one live dance performance and write a reflection, as well as give a brief context presentation on a prominent choreographer. Class will culminate in an informal showing of student creations.</p> <p>No prior dance technique is required. Interdisciplinary explorations are encouraged, and curiosity and openness will be key to the process.</p>

<p>Floorwork Fundamentals The aim of FLOORWORK FUNDAMENTALS is to develop the industrious technical baseline of our dancing and align it with our risk-taking and choice-making sensibilities. In essence, to activate the athlete within the artist. We will build upon the integrity and responsive nature of the feet with real-time challenges that open up and strengthen our ability to adapt to shifting forces/environments. In doing so we will begin to find clearer lines of communication through the joints facilitating ease of movement, passing of force, and quick reaction times. This line of inquiry will reference my Fighting Monkey research of whole body coordination, Gyrotonic and Countertechnique principles of stabilization through contrasting directional forces, curvilinear motion and Bartenieff Fundamentals of breath and developmental progressions. Floorwork mechanics will be integrated into movement sequences that invite action across the floor and throughout the space.</p>

Anatomy and Physiology for Dancers								
Course Description:								
The Dancer is a body-aware performer, who requires understanding of how their body works and knowledge of how the different parts of their body work together to optimize their movement. This course will give an overview of the musculoskeletal anatomy and its association to movement, common dance injuries linked to specific anatomy, with interaction of physiological systems into whole body anatomy. Injury risk screening will also be discussed to assess understanding of this material and its application to the individual dancer.								
Upon completion of this class, you should be able to:								
-Describe anatomical positioning, planes of motion, and basic joint movements.								
-Summarize and comprehend musculoskeletal anatomy pertinent to dance movement.								
-Recognize the anatomy of the Nervous, Lymphatic, Circulatory, Respiratory, Integumentary Systems and contributions toward dance movement and injury.								
-Realize the effects of injury on body tissue and systems and the timeline of body tissue healing.								
-Understand what happens anatomically in concussion and how to utilize return to learn and return to performance progressions.								
-Express areas of concern to screening the body for musculoskeletal injury risk and how it relates individually to the dancer.								
191	1st Year Seminar				2.00			
31411	PD SEM 001	T	4-6PM	2032 MOORE	West		22	N
This course is designed for first-year and transfer students to navigate through their first semester as college students. Throughout the course, students will be provided with tools to make informed choices about nutrition, injury prevention, balancing physical practice with academic requirements, and will be taught how to navigate advanced studies in dance within the university culture.

Located in the new LSA Central Campus Classroom Building and the specifically designed theatre-in-the-round classroom, this undergraduate seminar focuses on developing students' skills in dance appreciation. Through an integrated process of watching videotaped and live performance, doing team-based discussions, and making small-group creative presentations, students will broaden their cultural perspectives and explore how embodied performance constructs social and political transformations. Class topics include and are not limited to Hip-hop and K-pop, contemporary ballet, Chinese traditional theatre, Japanese modern dance, Indian classical dance, and Argentina folk dance.

Advanced Floorwork Complex movement sequences that require whole body coordination will challenge each participant to recalibrate assumed strengths and weaknesses, opening up new and playful methods for exploration and spontaneous, instinctual adaptation. Success and failure will be deconstructed into sensory and communal feedback structures that build resilience and curiosity. These opportunities will reach beyond the singular agency of choosing for oneself and extend into the composite understanding of the shared studio environment; in what ways are the choices of our peers in conversation with our own practice? Emphasizing strength, stamina and artistry, this course builds into complex phrase work drawn from my latest choreographic research. Traversing surprising and challenging landscapes of size, direction, tone and texture, each dancer will reset the limits of their physical capacity. Effort, surprise and full-bodied ardor awaits.

Advanced Floorwork								
Complex movement sequences that require whole body coordination will challenge each participant to recalibrate assumed strengths and weaknesses, opening up new and playful methods for exploration and spontaneous, instinctual adaptation. Success and failure will be deconstructed into sensory and communal feedback structures that build resilience and curiosity. These opportunities will reach beyond the singular agency of choosing for oneself and extend into the composite understanding of the shared studio environment; in what ways are the choices of our peers in conversation with our own practice? Emphasizing strength, stamina and artistry, this course builds into complex phrase work drawn from my latest choreographic research. Traversing surprising and challenging landscapes of size, direction, tone and texture, each dancer will reset the limits of their physical capacity. Effort, surprise and full-bodied ardor awaits.

Javanese Gamelan Learn to play the dynamic, subtle, transcendent music of the Javanese Gamelan! These classes are for people who want to experience a musical tradition totally different from western folk, rock or classical music. The gamelan is an ensemble of gongs, metallophones, drums, xylophone, a few stringed instruments, and singers. No previous knowledge of Indonesia or of music is expected. These courses are open to all students, undergraduate and graduate in all departments of the university. For information contact Susan Walton swalton@walton .

This course offers an introduction to the methods, discourse, and intellectual debates animating the study of music history today. Alongside the study of these debates, students will develop portfolios of research-based activities honing expertise in current techniques of musicological and humanistic study.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). The built environment bears the stamp of slavery supported by new forms of forced labor. Starting with an understanding that architecture isn't value-neutral and that racism intersects with urban planning, land use, and environmental problems, this class will confront such issues through a U-M/Yale partnership. Students will create a framework for the National Slavery Memorial in Washington, D.C., as multidisciplinary teams from law, planning, history, and other fields learn problem-solving skills, conduct research, and approach the politics, ethics, and mechanics of construction holistically.								

This class is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Non-law graduate/professional students may apply for the course using the PSI application system (<https://problemsolving.law.umich.edu/>) March 14-28, 2022. After the initial application period, students seeking to apply can contact problemsolving@umich.edu.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). The built environment bears the stamp of slavery supported by new forms of forced labor. Starting with an understanding that architecture isn't value-neutral and that racism intersects with urban planning, land use, and environmental problems, this class will confront such issues through a U-M/Yale partnership. Students will create a framework for the National Slavery Memorial in Washington, D.C., as multidisciplinary teams from law, planning, history, and other fields learn problem-solving skills, conduct research, and approach the politics, ethics, and mechanics of construction holistically.

This class is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Non-law graduate/professional students may apply for the course using the PSI application system (<https://problemsolving.law.umich.edu/>) March 14-28, 2022. After the initial application period, students seeking to apply can contact problemsolving@umich.edu.

Public Policy

School Of Public Policy

Public Policy (PUBPOL) Open Sections

201 Systematic Thinking 4.00 ADVISORY

17411 A LEC 001 MW 4-520PM 1120 WEILL Lantz
 This course provides an introduction to public policy design and analysis using "systematic thinking" from the social sciences and humanities, with the application of scientific methods and knowledge more generally. Systematic thinking about how social problems are defined/understood and how policy both creates and can address societal problems is essential to the design and evaluation of public policies.

This 4-credit course consists of three hours of lecture and one section meeting each week. The course will cover policy definitions/frameworks, the policymaking process, and how to evaluate and justify public policy through the lenses of science, ethics and social equity. In addition, the course will include a number of short modules, this year focusing on key policy issues that are being discussed in the context of an election year, such as public policies regarding the environment/climate change, public health and health care, education, social welfare, immigration, international trade, and science/technology. A number of guest faculty experts will assist with the short modules.

There are no pre-reqs for this course. PubPol 201 provides an introduction to the field of public policy. Course requirements include two exams, 3 short papers and active class participation (including debates). Students who like 201 might want to look into the Ford School's major and minor in public policy.

330 Microeconomics 4.00 ADVISORY

31332 PD DIS 002 F 1-150PM 1120 WEILL 3 Y

In-depth
 This course develops students' abilities to use microeconomic analysis to further our understanding of public policy. Major topics include models of consumer and firm behavior, operation of market systems, public goods and externalities, market failure, benefit-cost analysis, and the impacts of government regulation on economic policy.

This is a core course restricted to Ford School BA major students only.

31331 A LEC 004 TTH 10-1120AM 1120 WEILL Leiser

In-depth

Major topics include models of consumer and firm behavior, operation of market systems, public goods and externalities, market failure, benefit-cost analysis, and the impacts of government regulation on economic policy.

This is a core course restricted to Ford School BA major students only.

422 Cong&State Legis 3.00
 18508 P R LEC 001 TTH 1130-1250PM 1110 WEILL Schwarz 1 Y

Is Congress too partisan? Can Congress fulfill its legislative and oversight functions? Do the executive and judicial branches effectively control public policy formulation? Have the State Legislatures become the true "laboratories of democracy"?

428 Contemporary China 3.00 ADVISORY

28560 P LEC 001 MW 4-530PM 1436 MH Xu 14 Y

457 Data Visual PubPol 3.00

26929 P R LAB 001 TTH 230-350PM 3117 WEILL Worthington 2 Y

Communicating through visual presentation of data is a critical skill in a variety of industries. This course will introduce students to data visualization, from principles to practice. Topics in the course will include: principles of data communication, understanding types of data, grouping and summarization, static presentation of data, dynamic presentation of data, interactive presentation of data, presentation of model results and estimates, and matters of accessibility and style. You will be asked to examine and critique existing work and practice creating visualizations of your own. You will also be introduced to a variety of commonly-used software for data visualization.

Combined w/ PubPol 557.

466 Hist&Future Detroit 1.00
 37466 P R REC 001 TTH 1130-1250PM ARR Farley 17 Y

No large American city grew more rapidly than Detroit from 1900 to the 1930s. Thanks to Henry Ford and the automobile manufacturing, Detroit became the prosperous axis mundi of the world vehicle industry. After World War II, Detroit seemed poised to continue growing. In 1947, there were 325 manufacturing plants in the city. Many of those factories were old so firms built modern ones in the suburbs. The federal government subsidized home building in this era so, at very low cost, whites but not African American could easily buy an attractive suburban home. The city's population began to fall in 1950. Retail trade followed the migration to the suburbs. By 1990, racial attitudes had changed and African Americans moved in great numbers from the city to the suburbs. By 2010, the city's population was only 38% of what it was in 1950. Detroit lost its tax base and, in 2012, entered bankruptcy.

Coming out of bankruptcy, the city had some funds to improve its very deficient city services. Major philanthropies began investing in improving the quality of life in Detroit. Then major employers including Quicken Loans, Little Caesars, General Motors, Ford and Fiat-Chrysler started making major investments that are bringing more jobs to the city. Downtown, Midtown and the east waterfront are prospering. The city's government began to address long standing problems including neighborhood deterioration.

The course focuses upon the history of Detroit emphasizing both the long history of labor-management and black-white conflicts and recent efforts to make Detroit a diverse, welcoming city with a higher quality of life and numerous job opportunities.

474	Values & Ethics	3.00								
35075	P R LEC 002	MW	230-350PM	1230 WEILL	Stewart	15	Y			
Violence and Social Inequality Violence and Social Inequality										
What is the relationship between social inequality and violence? For instance, how is violence used to create and preserve structural inequalities? How and under what conditions have people wielded violence to combat and erode these inequalities? This course will rely upon a multidisciplinary body of literature from political science, history, sociology, psychology, economics, and empirical cases from both the U.S. and around the world to explore these questions. Students will consider the ethical and practical implications of the works reviewed for real-world policy debates.										
476	Applied Learning	1.00								
24742	P R SEM 001	M	10-1120AM	1110 WEILL	Sanders	5	Y			
Applied Learning Seminar This is a required course open only to current Ford School BA students.										
Course Objectives:										
1. Students will explore their social identities, values and emotions about a public policy issue and examine the factors that have contributed to their beliefs.										
2. Students will gain an understanding of the ways their beliefs and emotions are embedded in social networks and shared values.										
3. Students will learn to consciously employ effective communication (i.e. reflection, empathy, asking, and listening), as a tool for understanding public policy debates and advancing public policy solutions.										
4. Students will practice using narratives, reframing, and dialogue to work across differences.										
477	R for PubPol	1.50								
26931	PIR LAB 001	TTH	1130-1250PM	3117 WEILL	Worthington	3	Y			
Note: Instructor consent required										
This course is an introduction to programming in the R statistical language. R is a flexible, open-source statistics platform which has gained broad adoption in a variety of fields. Through interacting with R, RStudio, and elements of the ?Tidyverse? (a collection of R packages for data manipulation, analysis, and visualization), students will learn the fundamentals of working in R. By completing this class, students should have the baseline skills necessary to continue their self-study in R on topics suited to their own interests.										
This course covers fundamentals of programming in R, object types and structure, import and use of packages for expanding R?s capabilities, data management, and basic analysis. The course is graded credit/no credit (pass/fail), with weekly review ?tasks? in R. Students are not expected to have prior experience in R or other programming, but familiarity with basic concepts in statistics is recommended.										
Combined w/ PubPol 577.

24549	A LEC 001	MW	1-220PM	1120 WEILL	Lantz					
This 4-credit course will provide an introduction to the fundamentals of evaluation research design and methods as applied to public policies and programs. The course will cover the role of evaluation in the public policy process, and both process and summative evaluation research, including research designs for establishing causal inference between exposure to public policies/programs and outcomes. Students will gain skills in understanding and crafting research designs common in public policy evaluation, including randomized controlled trials, quasi-experimental designs and time series designs. Students will also gain skills in understanding/critiquing published public policy evaluation literature, measurement/data collection methods, and basic statistical methods for analyzing evaluation data. Class format will include lecture, discussion of case studies, and small group applied exercises.										
This course will help build your research/analysis skills

510	Politics of Pub Pol	3.00								
37711	PD REC 008	MW	1-220PM	1220 WEILL	Stewart	4	Y			
International In this section of 510, students will analyze the politics of foreign policy processes, especially concerning international security. We will examine central foreign policy debates related to international security?grand strategy, alliances and cooperation, hierarchy and anarchy, interstate war, civil war, economics and trade, migration, technology, and climate?from the perspective of the U.S., other countries, and international institutions. We will apply our understanding of these ideas to complex crises such as intervention in the Russian invasion of Ukraine, the global climate crisis, tools of economic coercion, and post-civil war reconstruction and state-building.

522	MPA Writing Seminar	1.00								
26742	P R SEM 001	F	1130-1250PM	2120 WEILL	Ralph	6	Y			
The class meets once a week and is open only to MPA students.										
In this ten-week course, students will learn to write for a public policy audience. Students will research a policy topic and will write about it in three separate documents (an op-ed and two memos), each of which will undergo extensive revision. Through workshops, class discussion, and instructor feedback, students will finish the course with a strong writing sample and greater confidence in policy writing norms and style.

This is a core course restricted to Ford School students only.										
This course begins a two-term sequence designed to provide students with an understanding of the economic implications of public policies and with analytic tools useful in system design and policy planning. Major topics include production, costs, prices, resource allocation, governmental involvement in economic activity, and the operation of market systems.										
582	Leading Organizations	3.00								
34096	P R SEM 001	MW		1		10-1120AM	1230 WEILL	Hernandez		Y
This course will introduce you to the fundamental leadership concepts and skills you need to successfully navigate and shape dynamic policy environments. You will have opportunities to develop a deeper understanding of yourself and build your ability to effectively lead teams. You will learn how to set a tone, a focus, and a direction for an organization, its members, and other stakeholders. You will practice leadership behaviors that will help you better connect across differences and enact change in complex, multi-layered contexts. Designed to provide you with opportunities for reflection, study, debate, and practice, this course will enhance your ability to make a positive and meaningful difference.										
This course satisfies the MPP requirement of PubPol 586 & 587.										
626	Hist & Futr Detroit	1.00								
37465	P R REC 001	TTH		8		1130-1250PM	1120 WEILL	Farley		Y
No large American city grew more rapidly than Detroit from 1900 to the 1930s. Thanks to Henry Ford and the automobile manufacturing, Detroit became the prosperous axis mundi of the world vehicle industry. After World War II, Detroit seemed poised to continue growing. In 1947, there were 325 manufacturing plants in the city. Many of those factories were old so firms built modern ones in the suburbs. The federal government subsidized home building in this era so, at very low cost, whites but not African American could easily buy an attractive suburban home. The city's population began to fall in 1950. Retail trade followed the migration to the suburbs. By 1990, racial attitudes had changed and African Americans moved in great numbers from the city to the suburbs. By 2010, the city's population was only 38% of what it was in 1950. Detroit lost its tax base and, in 2012, entered bankruptcy.										
Coming out of bankruptcy, the city had some funds to improve its very deficient city services. Major philanthropies began investing in improving the quality of life in Detroit. Then major employers including Quicken Loans, Little Caesars, General Motors, Ford and Fiat-Chrysler started making major investments that are bringing more jobs to the city. Downtown, Midtown and the east waterfront are prospering. The city's government began to address long standing problems including neighborhood deterioration.										
The course focuses upon the history of Detroit emphasizing both the long history of labor-management and black-white conflicts and recent efforts to make Detroit a diverse, welcoming city with a higher quality of life and numerous job opportunities.										
There are readings for each class meeting and you will be asked to write a short op-ed essay. For additional information: renf@umich.edu

18934	P R LEC 001	T		1		530-820PM	1230 WEILL	Hills II		Y
There is no policy without victory. More precisely, well-planned and well-executed political campaigns win elections and make governing possible. Therefore, an understanding of government must first be grounded in an understanding of campaigns and elections. This course will introduce you to the art and science of political campaigning. Topics to be covered will include crafting a message, scheduling and time management, research, issues, polling, speeches, debates, working with the press, identifying, differentiating and targeting voters, coalitions and interest groups, budgeting and fundraising, field organization, crisis management, the political environment, and Get Out The Vote efforts.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). The built environment bears the stamp of slavery supported by new forms of forced labor. Starting with an understanding that architecture isn't value-neutral and that racism intersects with urban planning, land use, and environmental problems, this class will confront such issues through a U-M/Yale partnership. Students will create a framework for the National Slavery Memorial in Washington, D.C., as multidisciplinary teams from law, planning, history, and other fields learn problem-solving skills, conduct research, and approach the politics, ethics, and mechanics of construction holistically.										
This class is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.										
Non-law graduate/professional students may apply for the course using the PSI application system (https://problemsolving.law.umich.edu/) March 14-28, 2022. After the initial application period, students seeking to apply can contact problemsolving@umich.edu .

<p>Engaging the Public in Policy Topics: Engaging the Public in Policy Making</p> <p>When designing new policies or programs, or adapting existing policies at the local level, engaging the public can enable governments to be more targeted to local needs, more effective within a local context, and more sustainable by developing local ownership and buy-in, among other benefits. The practice of public participation seeks to engage the public in decision-making about policies and programs that affect them, or about which they have a special interest. This course will explore the strategies commonly used to engage the intended targets of a policy in policy-making and programmatic design both at the domestic and international levels. Topics include the 'why' and 'when' of participation within the policy process, design of participation activities, tools for engagement of participants, analyzing and using public insight, as well as key challenges of public participation such as ensuring representativeness, equity, and inclusion within participation activities. Students will delve into ethical issues inherent in balancing 'how much', 'when', and 'whose' participation is sought within a given context.</p>								
34824	P R LEC 002	TTH	230-350PM	1220 WEILL	Shields		2	Y
<p>Diplomacy in Indo-Pacific Topics: U.S. Diplomacy in the Indo-Pacific</p> <p>The course will examine the past, present, and future of diplomatic interactions between the United States and the other nations of the Indo-Pacific region, starting with the 1951 signing of the Treaty of San Francisco that ended the state of war in the Pacific after World War II. We will evaluate 1) how current diplomatic problems in the region developed historically, 2) how governments are seeking to use diplomacy, amid constraints, to address such problems today, and 3) what conditions might make it possible for future diplomats to address effectively at least some of the unfinished business from the Treaty of San Francisco in 1951. The course will focus on matters involving Mainland Southeast Asia, Maritime Southeast Asia, and the Korean Peninsula.</p> <p>First, we will analyze diplomatic efforts to integrate Mainland Southeast Asia into a broader regional order. We will assess how problems involving Burma/Myanmar, including the Rohingya issue, hinder the integration of the Association of Southeast Asian Nations (ASEAN) today and consider what might be done in the future to address such problems.</p> <p>Second, we will analyze efforts to manage tensions in Maritime Southeast Asia, centering on the South China Sea. We will examine current attempts to conclude an ASEAN-China South China Sea Code of Conduct and evaluate how claims and conduct issues might be settled in the future.</p> <p>Third, we will discuss efforts to bring stability to the Korean Peninsula. We will examine the challenges the United States currently faces in resuming diplomacy with the Democratic People's Republic of Korea (DPRK) and consider what it might take in the future to resolve the DPRK nuclear issue diplomatically. Assignments will include policy papers, presentations, and participation in three in-class simulation exercises focusing on future diplomacy.</p>

<p>Africa in Context Topics: Africa in Context: Diplomacy, Democracy and Development</p> <p>The African continent is often presented by the media (and many others) as a land of war, famine, disease, corruption, and underdevelopment. This course will present Africa's contemporary reality - the positive as well as the negative - by examining major current issues after briefly surveying Africa's history, geography, societies, culture, and development beginning from the pre-colonial era up to today. Themes covered will include: political development; civil war and foreign intervention; democracy and governance (including corruption, fundamental freedoms and gender issues); economic development and poverty reduction (including the role played by humanitarian intervention and bilateral/multilateral aid agencies); terrorism; the environment; and public health. The course will also examine Africa's role in setting global policy priorities.</p>								
<p>Types of Assignments:</p> <p>Country Briefings: Desk Officers are the U.S. State Department's experts on specific countries and are available to respond to U.S. officials on issues concerning "their" country. Each of you will become a "desk officer" for a specific African country you wish to cover. You will stay up to date on events in your country, present recent developments in your country using various communication tools (oral, social media, written diplomatic cables).</p> <p>Final Research Paper: You will write a final paper on the country you select and expand on a specific issue or sector (e.g., petroleum in Nigeria; education in Rwanda, etc.); or (2) discuss a thematic issue (e.g., conflict minerals, hunger, terrorism, refugees) either continent wide or specific to a country or sub-region (e.g., the problem of narco states in West Africa). As part of the grade, you will also make a five (5) minute oral presentation of your paper near the end of the term. After each presentation, the other students will be encouraged to ask questions.</p>

Supreme Court
Topics: Supreme Court

How do the judges on the Supreme Court make their decisions? What were the real issues in cases such as Roe v. Wade, and is it possible that the Court would overturn this decision? How do judges in different eras decide cases differently? The Supreme Court is a unique contributor to public policy in the United States, and as such is a frequent topic of academic and media discussion and analysis. You may be well acquainted with how some previous decisions are interpreted from a political perspective. Yet you may have been left wondering, why certain cases were decided the way that they were.

In this course, we will explore some of the most influential and significant cases, and how they came to be decided. Beginning with Marbury v. Madison, every week or two, we will analyze a new case. For each case, in addition to understanding the reasoning of the Court, we will understand the background, the political or social context of the case, the legal arguments involved, how select subsequent cases have interpreted it, and how the case influenced public policy.

Legislation and Regulation

In the modern regulatory state, the rules that most profoundly shape private conduct come not from the common law but, instead, from legislatures and agencies. This class will explore the lawmaking function of these institutions and the virtues and vices of administrative governance. Among other things, the class will cover: the nature of the legislative process; statutory interpretation; the justifications for regulatory intervention; regulatory tools and strategies; the allocation of authority between legislatures and agencies; the varied forms of agency decision-making; and judicial review of agency decisions. In offering a survey of public law, the course will introduce students to the essentials of both statutory interpretation and administrative law.

763 Drgs, Crime & Terrorism

-------	-----	---------	----	---------	------------	----------	--	----	---

Students will explore the global issues of illegal drugs, and international drug trafficking, crime and terrorism. Course content emphasizes the study of organizations and networks, policy formulation and implementation, national and international approaches and programs, and the international legal and organizational framework to deal with these issues. The instructor will devote attention to the similarities and links between illegal drugs, crime and terrorism. Students will analyze the conflict between vigorous pursuit of solutions to these issues and other foreign and public policy objectives and how this affects the national interests and foreign policies of the nations and organizations involved. Students will assess lines of action that national and international policy makers might initiate to find solutions to these problems. The instructor will place emphasis on the tools and skills needed for policy analysis and the formulation of effective recommendations for decision making. Case studies, group exercises and simulations will be used throughout the course and there will be a number of policy writing assignments.

Assignments may include:

[1] Case Policy Memoranda. Students should read all seven cases for class discussion. Students will write a one-page policy paper on four of the seven cases listed above. All students will write a paper on the first case and then choose to write on either the Peru/Arciniega or the Human Trafficking case. You will then choose two of the next four cases on terrorism on which to write a paper.

[2] Group memorandum and oral presentation on the drug policies of the US, other countries and NGOs. Students will be divided into groups. Each group will be assigned a topic. Each group will research the issues involved and use the information to write a policy memorandum of up to five pages along with a one-page Principal Points summary sheet. Each group will make an oral presentation accompanied by visual displays as appropriate, followed by discussion with a designated critique group.

[3] Students will participate in a classroom bioterrorism simulation, taking the roles of U.S. government officials grouped into agencies or organizations.

[4] Each student will select a topic for a policy memorandum (or a policy paper) after consultation with and approval by the instructor. The paper should cover one or more of the three transnational issues studied ? drugs, crime, and terrorism. The paper should be up to 10 pages in length.

This class is an interdisciplinary problem solving class offered at the Law School through the Problem Solving Initiative (PSI). The built environment bears the stamp of slavery supported by new forms of forced labor. Starting with an understanding that architecture isn't value-neutral and that racism intersects with urban planning, land use, and environmental problems, this class will confront such issues through a U-M/Yale partnership. Students will create a framework for the National Slavery Memorial in Washington, D.C., as multidisciplinary teams from law, planning, history, and other fields learn problem-solving skills, conduct research, and approach the politics, ethics, and mechanics of construction holistically.								

This class is open to all University of Michigan graduate and professional students. Please note: Non-Law students are responsible for checking with their own schools, colleges, or units to learn if a PSI class will count toward graduation or other departmental requirements.

Non-law graduate/professional students may apply for the course using the PSI application system
